About Energy Fuels

Energy Fuels is a leading U.S.-based critical materials company focused on rare earth elements, uranium, heavy mineral sands, vanadium and medical isotopes. The Company is a leading U.S. producer of natural uranium concentrate and owns the White Mesa Mill in Utah, the only fully licensed and operating conventional uranium processing facility in the United States. At the Mill, Energy Fuels also produces advanced rare earth products and is developing expanded light and heavy rare earth separation capabilities to feed its newly acquired rare earth metallization and alloying plant in Korea and subsequently global rare earth permanent magnet facilities with the planned acquisition of Vacuumschmelze. Energy Fuels is developing heavy mineral sands and rare earth projects in Australia, Madagascar and Brazil to support its integrated rare earth strategy. Based near Denver, Colorado, Energy Fuels trades on the NYSE American under “UUUU,” on the Toronto Stock Exchange under “EFR,” and through CHES Depositary Interests on the ASX under “EF2.” For more information, visit www.energyfuels.com.
