30 October 2026 | ASX RELEASE

Quarterly Report for the quarter ended 30 September 2026

HIGHLIGHTS

- **Ghana:** Tepa field office, community engagement and local exploration team established
- **Technical Director**: Experienced geologist Philip Tornatora appointed Technical Director
- **Ghana:** Systematic exploration launched at the 166km² Tepa Gold Project in Ghana

Orange Minerals NL (ASX: **OMX**) ("**Orange Minerals**" or "the **Company**") is pleased to provide shareholders with the following Quarterly Report for the three-month period ended 30 September 2026.

Projects Update

Tepa Project
Ghana, Africa

The Tepa Gold Project is a highly prospective gold exploration project located in Ghana's prolific Sefwi Gold Belt, within the broader Bibiani gold district. The project comprises the Mpasaso, Wioso and Ohiapae prospecting licences and lies along strike from major gold operations including Asante Gold's Bibiani and Chirano mines.

During the quarter, Orange prepared for the start of exploration at Tepa. A field office and accommodation were established, initial engagement was held with local authorities and community representatives, and the local exploration team was expanded.

Ministerial consent for the assignment of the Mpasaso, Wioso and Ohiapae prospecting licences to Orange's wholly owned Ghanaian subsidiary, Hunsuyesi Resources Limited, was received on 10 April 2026 under Ghana's Minerals and Mining Act, 2006 (Act 703). Formal notification and registration of the transfers is progressing.

Subsequent to quarter end, on 13 October 2026, Orange announced the launch of a systematic exploration and targeting program across the 166km² project. Previous work at Tepa was limited to surface sampling and trenching, and no drilling has been undertaken on the licences. Extensive alluvial gold workings, concentrated in the Mpasaso and Ohiapae licences, are encouraging exploration indicators, although they do not by themselves confirm the presence of bedrock mineralisation.

The staged program is designed to identify the bedrock source of the alluvial gold and comprises:

- Geological mapping and compilation of historical data (commenced)
- A drone-borne magnetic survey at 100m line spacing, subject to regulatory and operational requirements, expected to run through the remainder of 2026

- Infill magnetic and induced polarisation (IP) surveys over selected areas
- Surface geochemical sampling
- Integration of all datasets into a targeting model to rank targets for a potential maiden aircore or reverse circulation (RC) drilling program

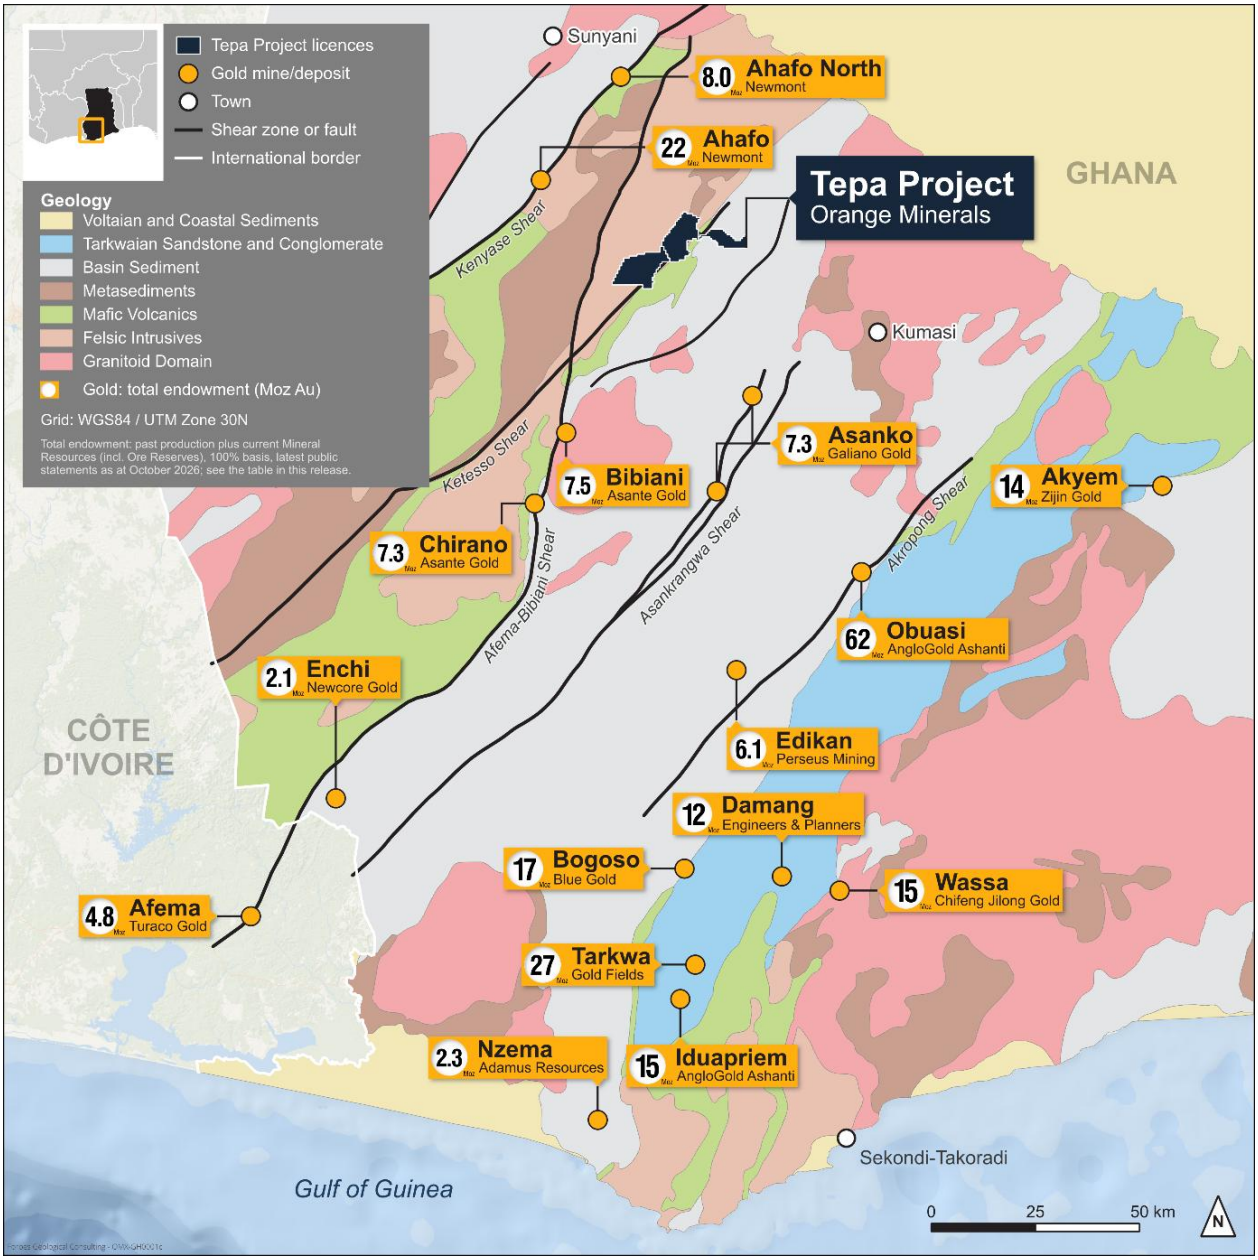

Figure 1. Tepa Project lies within a multi-million ounce gold district[1].

Lennon's Find Project
Pilbara, WA

Lennon's Find is a polymetallic zinc-lead-silver-copper-gold project located approximately 75km southeast of Marble Bar in Western Australia's Pilbara region. The project hosts an Inferred Mineral Resource of 1.35Mt at 5.9% Zn, 0.2% Cu, 1.6% Pb, 0.28g/t Au and 84g/t Ag[2], with five key prospects identified: Bronze Whaler, Hammerhead, Grey Nurse, Mako and Tiger.

[1] Refer Appendix for resource qualifications
[2] The information in this release which relates to the Estimation and Reporting of Mineral Resources at the Lennon's Find

The Company undertook a field trip and ongoing desktop studies to progress the next stage of exploration at the Lennon's Find Project during the reporting period.

Deep diamond drill hole OLFD001, co-funded under the Western Australian Government's Exploration Incentive Scheme and reported in the June 2026 quarterly report, intersected VMS-style mineralisation at depth and extended the known mineralised system approximately 675m down dip. These results are being assessed to determine the next steps at the project.

Orange has satisfied both milestones under its earn-in agreement with Musketeer Mining Ltd, earning a 75% beneficial interest in M45/368. During the quarter, the company acquired two 2.5% minority interests in the licence giving Orange an 80% beneficial interest in the licence. Formalisation of the joint venture with Musketeer Mining Ltd is in progress.

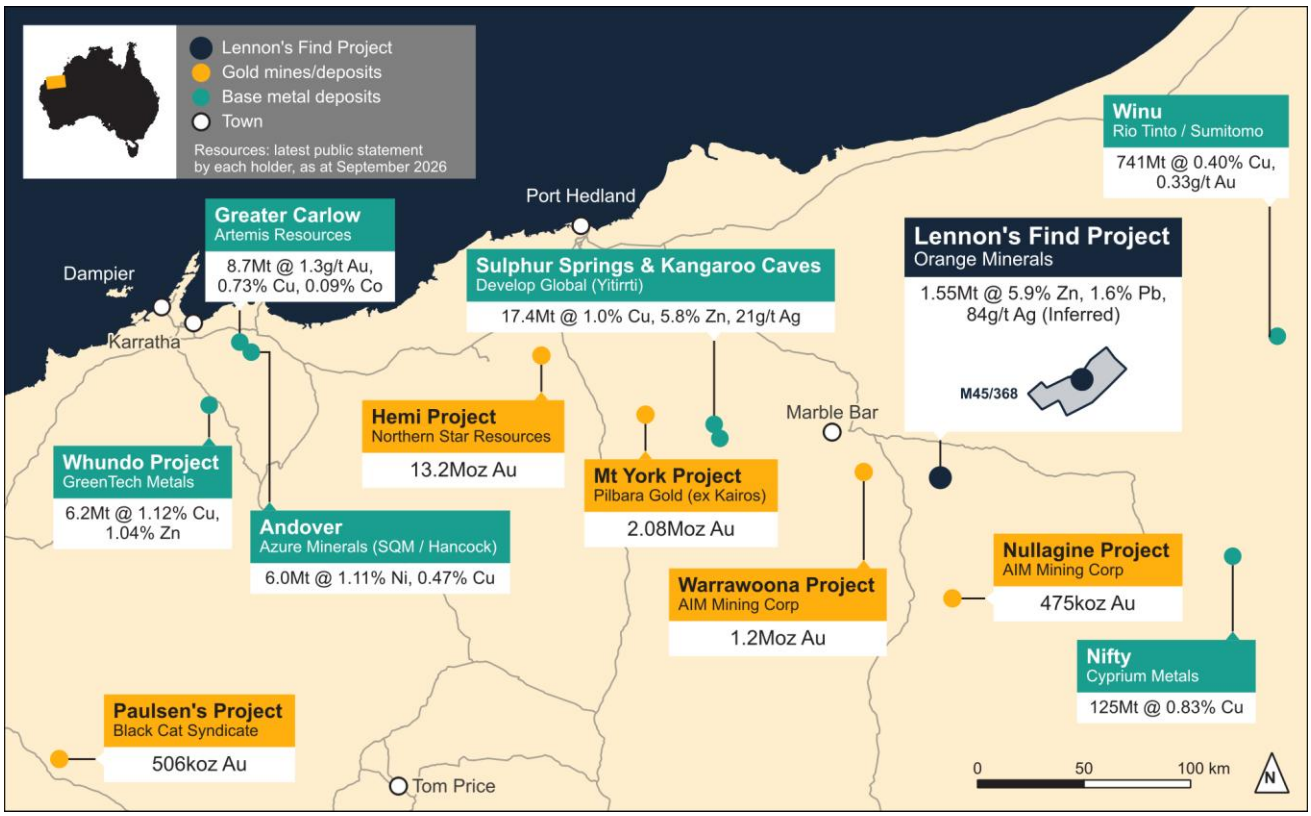

Figure 2. Lennon's Find Project location[3].

Outlook: December 2026 Quarter

- Tepa: continue geological mapping and historical data compilation
- Tepa: commence the drone magnetic survey at 100m line spacing, subject to approvals
- Tepa: begin surface geochemical sampling and plan targeted IP surveys
- Tepa: complete formal registration of the licence transfers to Hunsuyesi Resources
- Lennon's Find: assess the OLFD001 results and finalise the joint venture with Musketeer Mining
- Continue to review further gold opportunities in Ghana

deposit is based on information released by the Company on 8 August 2023 "Orange Minerals Acquires Lennon's Find Project in Pilbara WA".

Corporate

Cash Position

As at 30 September 2026 the Company held liquid assets of $1,317,870, comprising of cash $925,299 and listed investments valued at $392,571.

Appointment of Technical Director

Orange appointed highly experienced geologist Philip Tornatora as Technical Director, effective on 22 July 2026. Mr Tornatora has more than 30 years' experience across gold, lithium and base-metals exploration, including senior roles with De Grey Mining, Northern Star Resources, AngloGold Ashanti and Galaxy Resources.

Appointment of Company Secretary

On 7 September 2026, Orange announced the appointment of Monty Purich as Company Secretary, replacing Johnathon Busing in the role. Mr Purich is a Certified Practising Accountant with experience advising ASX-listed companies across capital raisings, mergers and acquisitions, corporate governance, statutory accounting and corporate compliance. He is a member of CPA Australia and holds a Bachelor of Commerce in Accounting and Finance and a Bachelor of Science in Physics. Mr Busing remains with Orange in his existing role as Non-Executive Director.

Additional ASX Information

Summary of Exploration Expenditure (ASX Listing Rule 5.3.1)

Pursuant to ASX Listing Rule 5.3.1, the Company advised the cash outflows on its mining exploration activities reported in 1.2(a) of its Appendix 5B for the September 2026 quarter are as follows:

Exploration Activities on NSW licences: $18,057

Exploration Activities on WA licences: $217,911

Mining Production and Development (ASX Listing Rule 5.3.2)

There were no substantive mining production and development activities during the quarter.

Payment to Related Parties (ASX Listing Rule 5.3.5)

The Company advises the payments to related parties included in sections 6.1 and 6.2 of the Appendix 5B report relate to Director Fees and Executive Management Fees.

The mining tenement interest acquired or relinquished during the quarter and their location

The tenement E39/2480, which was not yet granted, was relinquished during the quarter.

Competent Persons Statement

The information in this report that relates to Exploration Targets and Exploration Results is based on information compiled by Phil Shields, a Competent Person who is a Member of the Australian Institute of Mining and Metallurgy (AusIMM). Mr Shields is an employee of Orange Minerals NL and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Shields consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Forward Statement

This release includes forward – looking statements which involve a number of risks and uncertainties. These forward-looking statements are expressed in good faith and believed to have a reasonable basis. These statements reflect current expectations, intentions or strategies regarding the future and are based on current assumptions. Should one or more of the uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary from the expectations, intentions and strategies described in this announcement. No obligation is assumed to update forward looking statements if these beliefs or opinions should change.

About Orange Minerals NL

Orange Minerals NL (ASX: OMX) is an Australian exploration company focused on polymetallic (Zn–Pb–Cu–Ag–Au) opportunities in Western Australia's Pilbara region and New South Wales' Lachlan Fold Belt. Additionally, the company has commenced exploration at the Tepa Gold Project in Ghana's prolific Sefwi Gold Belt. Orange Minerals aims to progress its portfolio through systematic, data-driven exploration supported by clear technical reporting and a disciplined sequence of upcoming milestones.

5.4	Other (provide details)		
5.5	**Cash and cash equivalents at end of quarter (should equal item 4.6 above)**	**925**	**1,085**

6.	Payments to related parties of the entity and their associates	Current quarter $A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	136
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	**Financing facilities** *Note: the term "facility' includes all forms of financing arrangements available to the entity.* *Add notes as necessary for an understanding of the sources of finance available to the entity.*	**Total facility amount at quarter end $A'000**	**Amount drawn at quarter end $A'000**
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	**Total financing facilities**	-	-

7.5	**Unused financing facilities available at quarter end**	-

7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.

8.	**Estimated cash available for future operating activities**	**$A'000**
8.1	Net cash from / (used in) operating activities (item 1.9)	(292)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(350)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(642)
8.4	Cash and cash equivalents at quarter end (item 4.6)	925
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	925
8.7	**Estimated quarters of funding available (item 8.6 divided by item 8.3)**	1.44

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: The Company expects its operating cash outflows to remain broadly consistent with the current quarter, subject to the timing of planned exploration activities and ongoing corporate expenditure. The Company continues to monitor its expenditure and manage its cash resources in line with its operational priorities.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: At the date of this report the Company hasn't taken any steps to raise further cash. If required the Company is confident it can successfully secure funding.

8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
Answer:	Yes, the Company expects to be able to continue its operations and pursue its business objectives on the basis that exploration and development expenditure fluctuates, is discretionary in nature and will be prioritised based on available funding.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.

2 This statement gives a true and fair view of the matters disclosed.

Date: 30 October 2026

Authorised by: The Board of Orange Minerals NL

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
