About Pathkey.AI Ltd

Pathkey.AI Ltd (ASX: PKY) is an Australian technology company focused on developing proprietary AI powered large language model solutions for data intensive industries. TrialKey is focused on clinical trial design and optimisation. Chipforge is developing an AI-powered chip design platform for semiconductor engineering. Both TrialKey and Chipforge platforms are built around an agent-based AI architecture combining large-language-model functionality with neuro-symbolic reasoning to solve complex design optimisation problems. In each platform, AI agents generate candidate solutions, evaluate them against defined objectives and iteratively refine them through a structure reflection look using reinforcement driven optimisation.
