Market Announcement

30 OCTOBER 2026

September 2026 Quarterly Activities Report

HIGHLIGHTS

- **Milling at the Three Mile Hill processing plant remained stable and efficient, with a total of 387,029 tonnes of the Company's ore processed at a head grade of 2.22 g/t with average metallurgical recovery of 96.6%.**
- **Open pit mining continued at Alicia and Dreadnought, and CNX delivering 231,527 tonnes at 0.79 g/t for 5,914 ounces of gold.**
- **Bonnie Vale Underground Mine produced 112,649 tonnes of development and stope ore @ 5.58 g/t, for 20,212 ounces of gold.**
- **30,011.15 ounces of gold were sold at an average realised price of A$5,988.89 per ounce, alongside 4,039.43 ounces of silver credits. The ounces of gold sold in September quarter include 6,577.409 oz held in Perth Mint metal account as of 30 June 2026.**
- **Focus has completed 5,796 m DD and 6,758 m RC grade control drilling to support mine development at Bonnie Vale and CNX. Focus has also completed 1,324 m DD and 4,923 m RC resource development drilling at Bonnie Vale, Green Light and Patricia Jean deposits.**

West Australian gold producer Focus Minerals (**ASX: FML**) (**Focus** or the **Company**) is pleased to announce its September 2026 activities and cashflow reports.

COOLGARDIE GOLD PROJECT

The Coolgardie Gold Project (**Coolgardie**) covers 113.2km^2 of highly prospective tenements on the outskirts of the Coolgardie township in the Goldfields region. The Company's efforts are focused on optimising mining and processing operations, whilst completing resource development programs to deliver new Ore Reserves.

Open Pit Mining:

During the September Quarter:

- Surface mining continued in Dreadnought, Alicia and CNX, with Alicia pit effectively completed during September.
- Total material mined was 2,135,242 tonnes.
- Total ore mined was 231,527 tonnes at 0.79 g/t for 5,914 ounces.
- Mining at Dreadnought produced 66,262 ore tonnes @ 0.73 g/t for 1,558 ounces with mining progressing in conjunction with dewatering of historic pit.

- Mining at Alicia produced 13,907 ore tonnes @ 1.48 g/t for 662 ounces.
- Mining at CNX produced 151,358 ore tonnes @ 0.76 g/t for 3,693 ounces.

Bonnie Vale Underground Mining

- Underground mining at Bonnie Vale produced 112,649 tonnes of development and stope ore during the September Quarter at an average grade of 5.58 g/t Au, containing 20,212 ounces of gold.
- Production comprised 75,680 tonnes of development ore at an average grade of 4.91 g/t Au for 11,939 ounces, and 36,969 tonnes of longhole stoping ore at an average grade of 6.96 g/t Au for 8,273 ounces.
- Ore production from both development and longhole stoping increased during the quarter as additional ore headings and stoping fronts became available.
- Lateral development totalled 1,756 metres, comprising 858 metres of capital development and 898 metres of operating development.
- The decline advanced 188.2 metres during the Quarter, with a new exploration decline commencing at the 1345L, targeting the Quarry Reef historical mining area.

Three Mile Hill Ore Processing

- Processing operations at Three Mile Hill remained stable throughout the September Quarter, with 387,029 tonnes of ore processed.
- Focus ore was processed at an average head grade of 2.22 g/t, achieving an average gold recovery of 96.6%. Consistent plant performance was maintained despite equipment availability constraints.

Mine Geology

Development at the Bonnie Vale Underground Mine progressed to the 1160 level during the September Quarter, supporting the continued opening of lower mining fronts. The primary sources of development ore were the 1190, 1205 and 1220 levels, with ore drive development commencing on the 1175 level. Stoping performance during the September Quarter was strong, with multiple panels mined across the upper levels of the orebody.

Stoping activity continued to be focused between the 1240, 1285 and 1300 levels, contributing to steady production. Backfilling operations continued in completed stopes, supporting the ongoing mining sequence and future stope availability. A total of 5,796 m of underground diamond drilling was completed at Bonnie Vale.

During the September Quarter, the contribution of Dreadnought pit to ore supply increased significantly. Mining rate in Alicia continued to reduce as bench advance approached the bottom of the design pit. The Alicia pit was effectively completed during September.

The focus at CNX was regularising the pit floor to the 380-385mRL. The SE and central parts of the CNX received 4,153 m RC grade control from 395 mRL. Adjacent historical stockpiles mined in the 1990's received 2,605 m RC grade control.

Coolgardie Resource Development Activities

During the September Quarter, resource development drilling occurred at Bonnie Vale, Patricia Jean, CNX and Green Light. Total number of holes and metres drilled are as follow:

Resource Development Drilling	Holes	RC	DD
Greenlight Res Dev DD	4	-	554
Pat Jean Res Dev RC	48	3,255	-
CNX Res Dev RC	1	102	-
BVL Res Dev DD	7	-	770
BVL Res Dev RC	22	1,566	
Total Drilled	**82**	**4,923 m**	**1,324 m**

On 10 September 2026, Focus Minerals released an exploration update for Green Light and Historic CNX Waste Dump. The announcement detailed results for 114 RC holes for 8,968 m at Green Light and 3,265m grade control RC completed across the 1991 CNX waste dump. The results for Green Light were encouraging delivering a number of significant intersections calculated at 0.4 g/t cut and up to 2m internal dilution including:

- 26GLRC055 - 3.00 m @ 30.48 g/t from 27m (GxM 91)
- 26GLRC062 - 12.00 m @ 4.17 g/t from 40m (GxM 50)
- 26GLRC039 - 32.00 m @ 1.19 g/t from 48m (GxM 38)
- 26GLRC052 - 18.00 m @ 1.48 g/t from 117m (GxM 27)
- 26GLRC108 - 17.00 m @ 1.38 g/t from 0m (GxM 23)
- 26GLRC056 - 4.00 m @ 5.68 g/t from 13m (GxM 23)

The historic 1991 CNX waste dump also delivered a number of significant intersections calculated at 0.4 g/t cut and up to 2m internal dilution including:

- 26CNWD614 - 9.00 m @ 2.87 g/t from 0m (GxM 26)
- 26CNWD947 - 4.00 m @ 5.33 g/t from 1m (GxM 21)
- 26CNWD620 - 14.00 m @ 1.45 g/t from 0m (GxM 20)
- 26CNWD678 - 6.00 m @ 2.39 g/t from 1m (GxM 14)
- 26CNWD744 - 5.00 m @ 2.79 g/t from 1m (GxM 14)
- 26CNWD618 - 12.00 m @ 1.16 g/t from 0m (GxM 14)
- 26CNWD607 - 12.00 m @ 1.08 g/t from 0m (GxM 13)

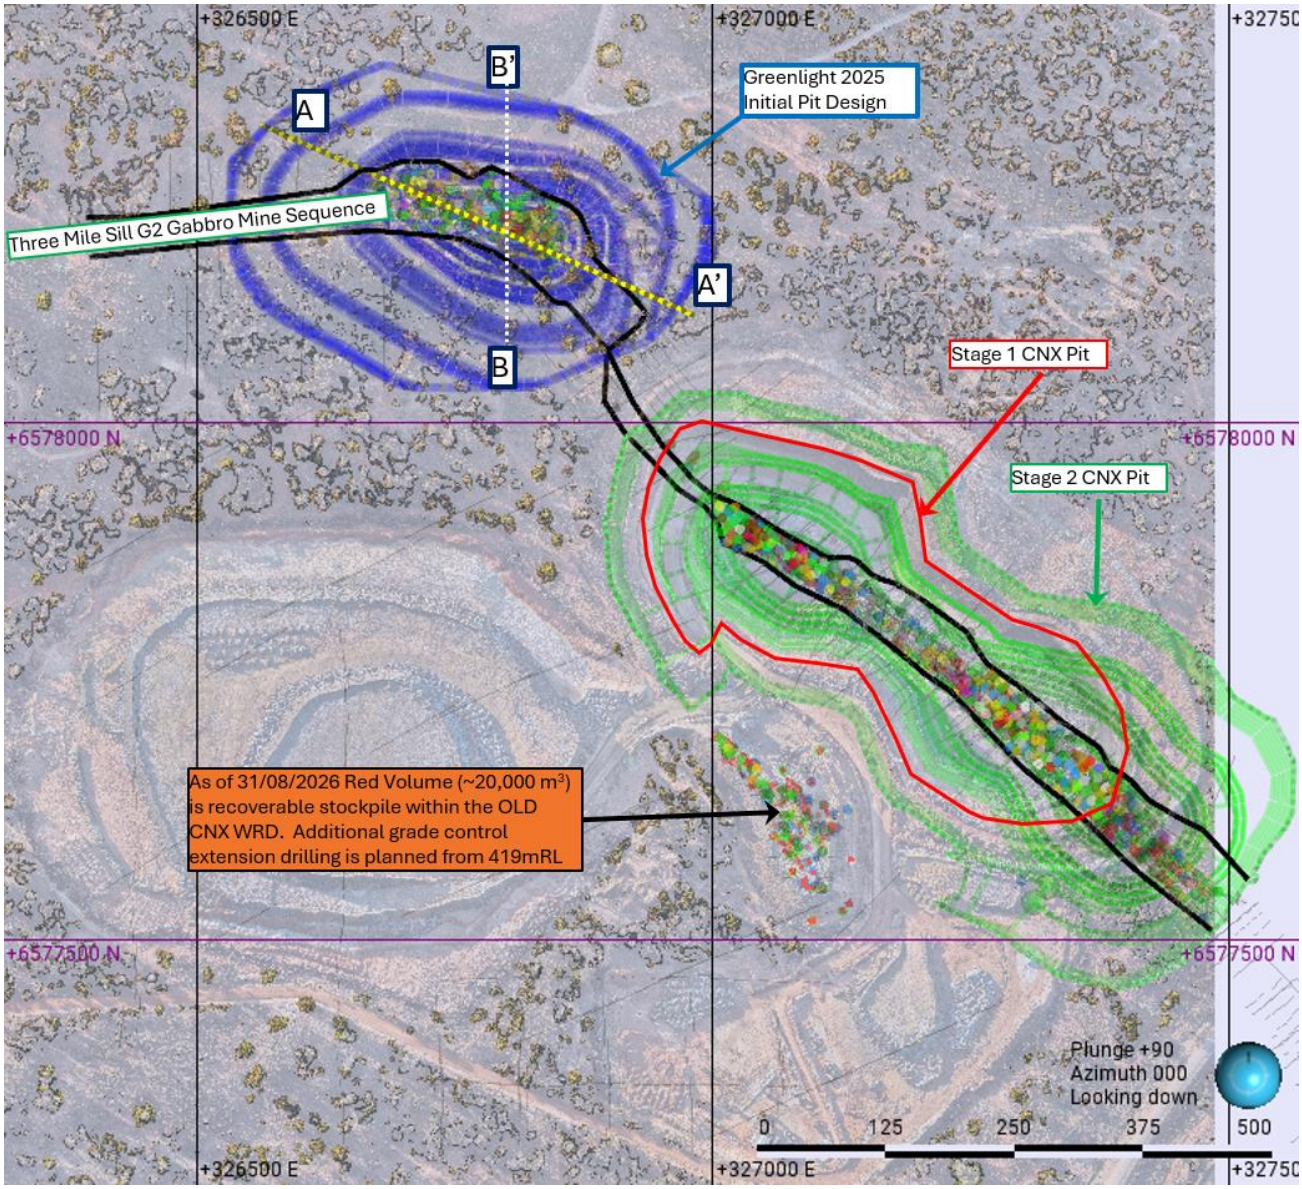

Figure 1: Location Plan for CNX Deposit with Stage 1 and 2 Pits, Historic CNX waste rock dump (WRD) and Green Light deposit with initial pit design. The bound of the highly mineralised G2 gabbro unit of the Three Mile Sill is also marked with black bounding lines. CNX is located along strike of the highly mineralised Three Mile Hill Open Pit (formerly known as Caledonia Deposit).

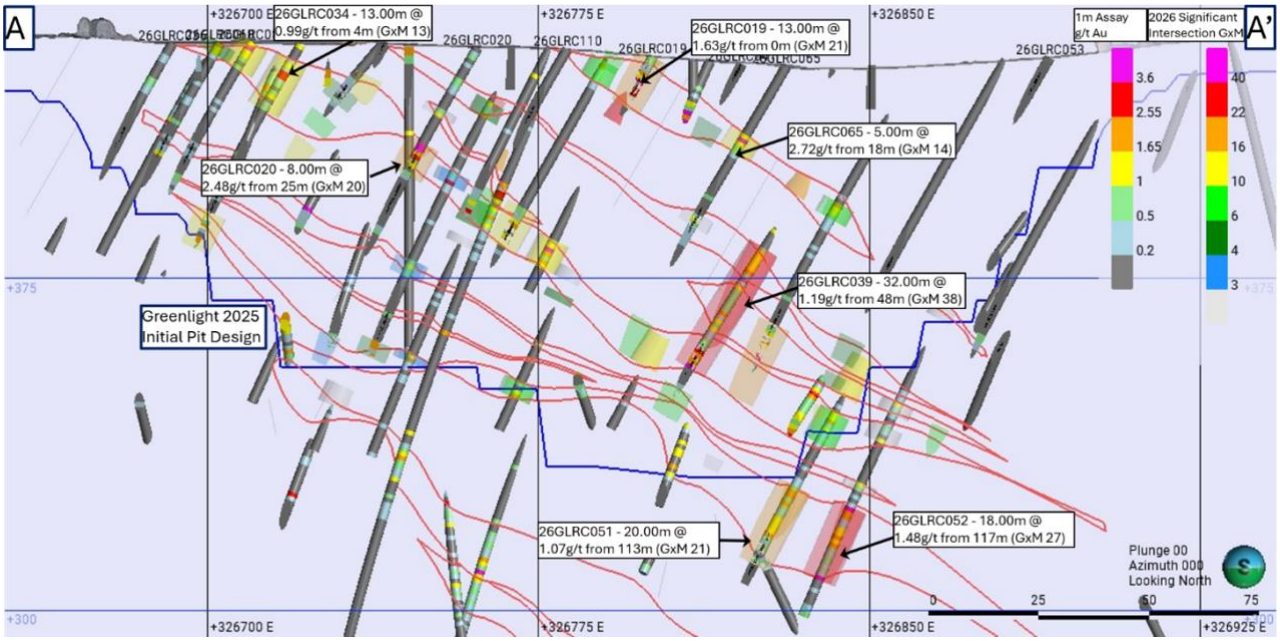

Figure 2: view north of 8m width Green Light long section A – A'. Modelled stacked stockwork mineralisation (Red wireframe strings) dip moderately to the East within the E-W striking G2 Gabbro. Assays are shown as bars along drill string and coloured as per the inset legend. Significant intersections calculated at 0.4 g/t cut off and up 2m internal dilution are also shown as thicker bars surrounding mineralised drill intervals. Significant drill intersections have been coloured by grade x downhole width (GxM) as per the inset legend. Select significant intersections have been labelled

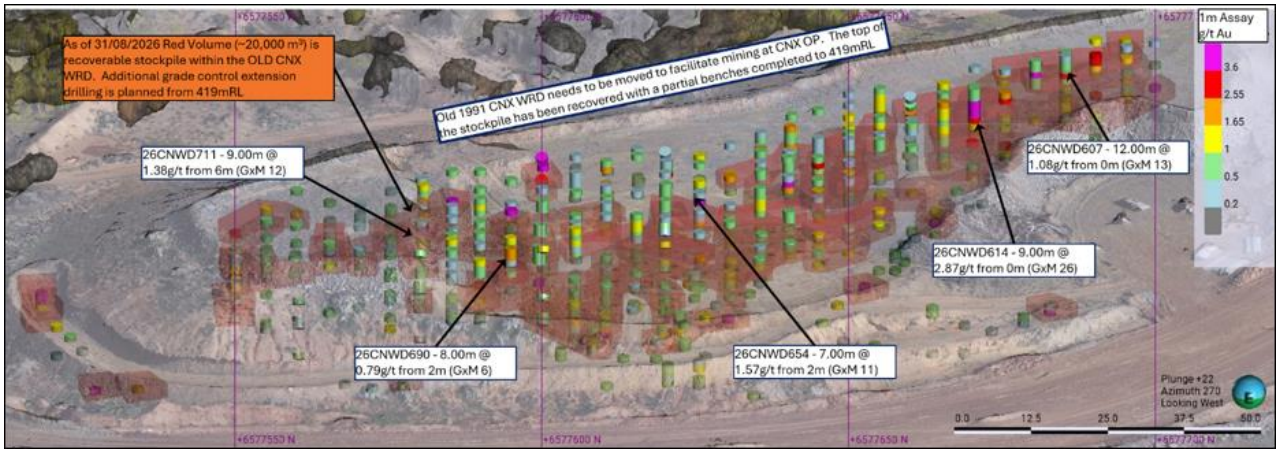

Figure 3: View to west and down of the 1991 CNX waste dump after grade control and partial mine reclamation to from 426mRL to 419mRL between May and end of August 2026. 2026 RC grade control drill assays are displayed at 0.2 g/t cut off. Select significant intersections calculated at 0.4 g/t cut off and up to 2m internal dilution have been labelled. Red semi translucent solids highlight areas with significant gold intersections considered recoverable while removing the historic CNX waste dump. Additional grade control infill is planned as drill accessible floor becomes available during mine reclamation

CORPORATE

Focus received approximately $180 million from the proceeds of sale of gold and silver during the September Quarter. As of 30 September 2026, the Company's cash and cash equivalent position is $184.59 million, plus a term deposit of $95.1 million.

Focus incurred expenditure of $1.4 million on exploration during the September Quarter, including on drilling, assays and payments to consultants and exploration personnel. During the Quarter, the Company spent $5.3 million and $54.7 million on development and production respectively.

In compliance with ASX Listing Rule 5.3.5, Focus reports it has paid $249,000 to related parties of the Company and their associates, which included Executive Directors' salaries, non-Executive Directors' fees, superannuation and rent for the Directors.

During the quarter, the Company declared and paid a fully franked final dividend of $0.08 per share (approximately $22.9 million) for financial year ended 31 December 2025.

The release of this ASX announcement was authorised by

Mr Wanghong Yang, Executive Chairman of Focus Minerals Ltd.

About Focus Minerals Limited (ASX: FML)

Focus is committed to delivering shareholder value from the Coolgardie Gold Operation, a 113.2km^2 tenement holding that includes a 1.2Mtpa processing plant at Three Mile Hill, with commencement of mining activities in mid-2023.

Competent Person Statement

The information in this announcement that relates to Exploration Results is based on information compiled by Mr Alex Aaltonen, who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM). Mr Aaltonen is an employee of Focus Minerals Limited. Mr Aaltonen has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Aaltonen consents to the inclusion of this information in the form and context in which it appears in this report.

(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
