IRON ORE LIMITED

Quarterly Report
Period ended 30 September 2026

About Legacy Iron Ore

Legacy Iron Ore Limited ("Legacy Iron" or the "Company") is a Western Australian based Company, focused on iron ore, base metals, tungsten and gold development and mineral discovery.

Legacy Iron's mission is to increase shareholder wealth through capital growth, created via the discovery, development and operation of profitable mining assets.

The Company was listed on the Australian Securities Exchange on 8 July 2008. Since then, Legacy Iron has had a number of iron ore, manganese and gold discoveries which are now undergoing drilling and resource definition.

Board

Amitava Mukherjee, Non-Executive Chairman
Mr Vinay Kumar, Non-Executive Director
Mr Ross Oliver, Non-Executive Director

REPORT FOR THE QUARTER ENDED
September 2026

The Company's Quarterly Activities Report is attached.

Yours faithfully
LEGACY IRON ORE LIMITED

Ranajit Das
Chief Executive Officer

This announcement has been authorised for release by the Board of Directors.

HIGHLIGHTS

EXPLORATION AND MINING

South Laverton Project

Mount Celia Gold Project (MCGP): Mining and Exploration

- Heap leach amenability assessment & study on mineralised waste and low-grade samples completed by Strategic Metallurgy(formerly JT Metallurgy).
- Pre-Feasibility Study for heap leach Plant design has been completed by Mincore.
- Pre-Feasibility Study and Ore Reserve estimation work has been commenced by Techtronic Mining Solutions.

Mount Bevan Project

Iron Ore – Magnetite

- Hydrology – Aircore drilling, production, monitoring bore installation and pump testing completed.

Projects Overview

Legacy Iron Ore Limited ("Legacy Iron" or "the Company") is committed to exploring and developing gold, iron ore, base metal, and critical mineral deposits across Western Australia. The Company's portfolio encompasses three principal project areas, comprising ten highly prospective prospects across 25 tenements situated within well-established mineralised belts (Figure 1). Legacy Iron continues to advance these projects through systematic and strategic exploration programs designed to progress them toward advanced stages of development.

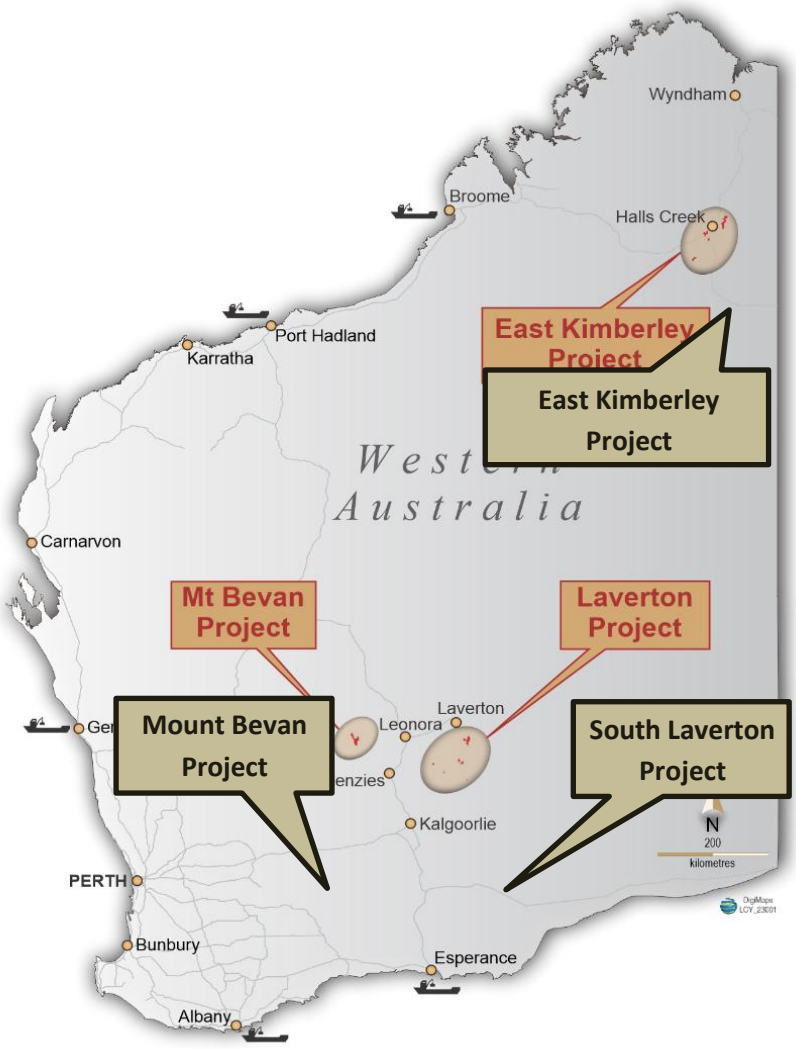

Figure 1 Legacy Iron – Key Project Location.

South Laverton Project

Legacy Iron has made substantial progress toward unlocking the full potential of its South Laverton Projects, in line with its strategic goal of expanding its gold asset portfolio.

The Company continues to consolidate its presence in the South Laverton region, advancing its tenements and operations, which include the Mount Celia Gold Project (MCGP), the Yilgangi and Yerilla deposits, and the Sunrise Bore and Patricia North prospects (Figure 2).

Ongoing development and exploration activities at the Mount Celia Gold Operations are focused on extending exploration to support long-term growth of the project.

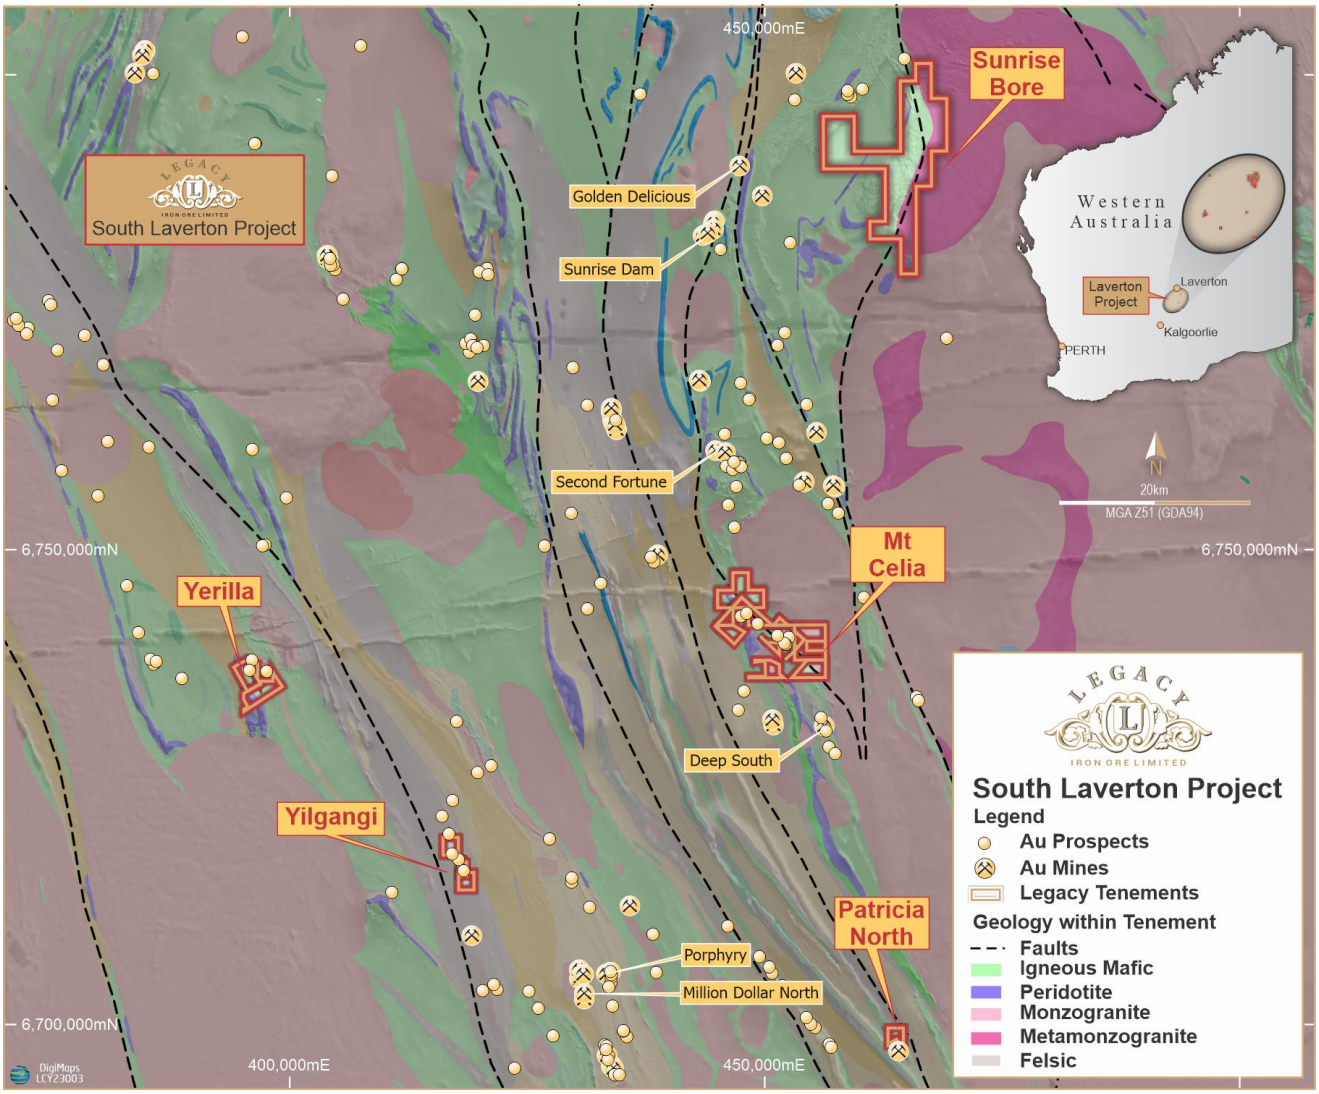

Figure 2 Legacy Iron's South Laverton Gold Projects on regional geology.

Mount Celia Gold Project (MCGP)

The MCGP deposits are located in the Laverton Tectonic Zone, 40 kilometres south of the Sunrise Dam Gold Mine. The deposits contain known gold occurrences in 11 tenements including 7 mining and 4 exploration licences. Current operations are limited to Kangaroo Bore and Blue Peter areas, which are within the three Mining Leases M39/1145, M39/1127 and M39/1128.

The combined deposits have a Mineral Resource of 8.8 million tonnes @ 1.38 g/t for 390,150 ounces as of March 2026 (*ASX announcement: Mt Celia Gold Project Mineral Resource Update, 14th April 2026, and* Appendix 1).

Quarter Activities

Key highlights of the activities at Mt. Celia Gold Project are as follows:

- A heap leach amenability study and report for the samples from mineralised waste and low-grade stockpile was completed by Strategic Metallurgy (formerly JT Metallurgy). The results of 41 days column leach test work returned included extraction of 85.2% for mineralised waste and 71.1% for combined stockpile & pit samples on a carbon-and-residue basis.
- The report indicates that the material from mineralised waste and low-grade stockpile is technically suitable for heap leach processing.
- Mincore completed pre-feasibility study for the heap leach and gold recovery plant. Process Design Criteria (PDC) for all the processes including crushing, agglomeration, heap leaching, carbon adsorption, elution and electrowinning, the carbon regeneration kiln and refinery circuit and gold recovery plant were developed.
- Ore Reserve estimation work by Techtonic Mining Solution is in progress; a site visit by JORC Competent Person (CP) has been completed and the Techtonic review of the ore reserve report has been received by LCY, with recommended actions in progress.
- Request for Information (RFI) on working approval application for heap leach plant was submitted and the assessment of the application is in progress by DWER.
- Additionally, to address the RFI from DMPE, updates in the heap leach pad design, is in progress by Tailex to make it more suitable to a pre - construction level.

Next Quarter Activities

- Continue with the work of Ore Reserve estimation and independent review of Mt. Celia project pre-feasibility.
- Continue with the work of update in engineering design for heap leach pad.

Mount Bevan Project

The Mount Bevan Project is located approximately 250 km north of Kalgoorlie in Western Australia, positioned within a large and strategically significant

exploration tenement (E29/510), which hosts 1,290 Mt of magnetite resource @ 33.52% Fe (*ASX announcement: Mt. Bevan Magnetite JV Revised Mineral Resource Estimate, July 1, 2024, and* Appendix 2).

The Company is advancing the world-class Mount Bevan Magnetite Project through its Joint Venture partnership with Hancock Magnetite Holdings Pty Ltd (Hancock), while concurrently undertaking exploration activities targeting lithium and nickel-copper mineralisation within the tenement.

Iron Ore - Magnetite

Hancock Magnetite Holdings Pty Ltd, the Joint Venture partner, has successfully completed the Pre-Feasibility Study (PFS) for the Mt Bevan Magnetite Project. (*ASX announcement: Mt Bevan Magnetite Joint Venture completion of Prefeasibility Study, 16 July 2024)*.

The Mt Bevan Project is advancing through its Feasibility Studies – Stage 1 Work Plan, as part of the Joint Venture's Forward Works Program aimed at further defining, optimising, and de-risking the project.

A staged approach to the Forward Works Program has been strategically adopted to target key value-adding opportunities and systematically de-risk the project ahead of committing to more substantial investment.

The following works were progressed during the quarter for the Mt. Bevan magnetite project:

- Hydrology:
  - Bore drilling including 3 deep production and 3 deep monitoring bores was completed.
  - Pumping tests from three production bores (PB01, PB02 & PB03) were completed (Figure 3).
  - A conceptual hdrological model was completed and numerical modelling is in progress (Figure 4).

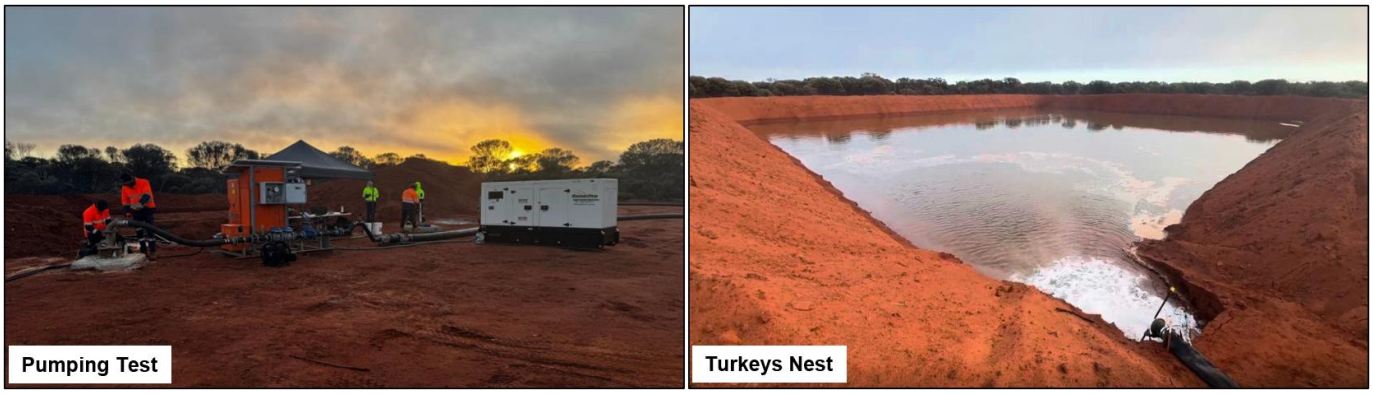

Figure 3: Completion of Pumping test

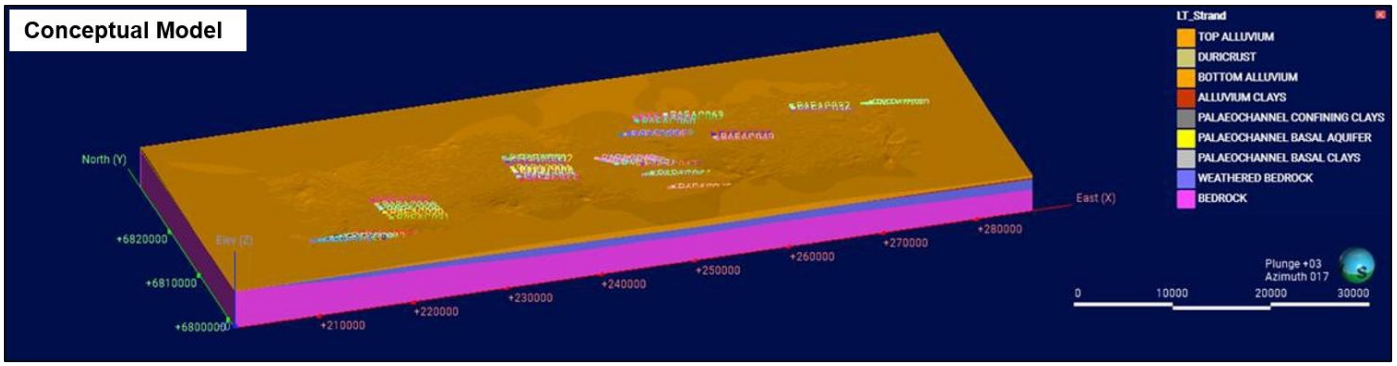

Figure 4: Development of Conceptual Model

- Product Logistics:
  - Stage 2 (Track Forces) of Rail Capacity modelling study is progressing as per plan and modelling report for stage 2 is nearing completion.

  - Asset management plan and associated updates to Indicative Track Access Pricing (ITAP) is in progress.

  - Phase 3 (Scenario responses) of Esperance Port modelling study is nearing completion and reporting for the same is in progress.

  -

Next Quarter Activities

- Completion of numerical modelling, and progress with the testing of site water.
- Planning and execution of subterranean fauna survey.
- Complete the rail and port modelling study work.

Corporate

For the purposes of Section 6 of Appendix 5B, all payments to related parties during the quarter were in respect of director fees and remuneration paid to the Chief Executive Officer.

In accordance with ASX Listing Rule 5.3.1, the Company advises that it incurred approximately $1.493 million during the quarter on exploration and evaluation activities. This expenditure relates to capitalised exploration and evaluation costs and is included under cash flows from investing activities in Section 2.1(d) of Appendix 5B.

During the quarter exploration and evaluation expenditure primarily comprises payments of $1.206 million to Hancock Magnetite Holdings Pty Ltd, representing cash calls in respect of Legacy's share of the Stage I Feasibility Studies for the Mt Bevan Iron Ore Joint Venture. The balance of the expenditure relates to costs incurred across various Legacy Iron tenements, including rent, salaries, and other associated expenses on heap leach studies.

Competent Person's Statement:

Information in this report is based on information reviewed or compiled by Dr. Ranajit Das, Mining Engineer, who is a member of the Australasian Institute of Mining and Metallurgy. Ranajit Das is the CEO of Legacy Iron Ore Ltd. He has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australasian Code for Reporting of Exploration Results and Mineral Resources'. Dr. Ranajit Das consents to the inclusion of this information in the form and context in which it appears in this report.

The Company has reported information contained in prior ASX announcements and has cross referenced these announcements. The Company confirms it is not aware of any information or assumptions since the announcements were made that would likely materially change the content of these announcements or the resources reported in those announcements and all material assumptions and technical parameters underpinning the estimates in the original release(s) continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the relevant original market announcement(s).

These announcements are:

- Resource update at the Golden Rainbow Project June 9, 2022.
- Revised Mineral Resource Estimates of the Mt Bevan Magnetite Joint Venture, 1 July 2024.

- Mt Bevan Magnetite Joint Venture completion of Prefeasibility Study, 16 July 2024.

- Mt. Celia Gold Project Mineral Resource Update, 14th April 2026

Appendix 1

Mount Celia – Updated Mineral Resource, March 2026

Total Mount Celia (includes Kangaroo Bore and Blue Peter) *- Mineral Resource Statement as of March 2026*

Classification	Tonnes	Au (g/t)	Ounces
Measured	1,529,785	1.29	63,557
Indicated	2,139,264	1.41	96,877
Inferred	5,136,051	1.39	229,716
Total	8,805,100	1.38	390,150

Kangaroo Bore *- Mineral Resource Statement as of March 2026*

Classification	Tonnes	Au (g/t)	Ounces
Measured	1,268,318	1.16	47,209
Indicated	1,830,603	1.33	78,097
Inferred	3,894,169	1.32	165,381
Total	6,993,090	1.29	290,687

Blue Peter *- Mineral Resource Statement as of March 2026*

Classification	Tonnes	Au (g/t)	Ounces
Measured	261,467	1.94	16,347
Indicated	308,661	1.89	18,780
Inferred	1,241,881	1.61	64,335
Total	1,812,009	1.71	99,462

Mineral Resource Statements for Kangaroo Bore and Blue Peter, released to the ASX on 14th April 2026, are presented in the tables above. The estimates are based on a cutoff grade of 0.3, 0.4 and 0.5 g/t Au for oxide, transitional and fresh ore types. Mineralisation deeper than 200m is reported at 1 g/t cut-off.

Golden Rainbow - Mineral Resource Estimate as of April 2022

Classification	Tonnes	Au (g/t)	Ounces
Indicated	0	0	0
Inferred	225,800	1.40	10,100
Total	225,800	1.40	10,100

Note: Estimated values are based on a 0.5 g/t Au block cut-off. The Company confirms that no new information or data materially affects the mineral resource estimate announced in June 2022 and that all assumptions underpinning the estimate continue to apply and have not materially changed.

Mount Celia Mineral Resource Estimate & Yilgangi, Golden Rainbow Mineral Resource Estimate - Competent Person

The information in the report relating to the Minerals Resource Estimates has been compiled by Andrew Hawker of HGS Australia, BSc Geology MAusIMM. Andrew Hawker has sufficient experience which is relevant to the style of mineralization and types of deposits under consideration and to the activities being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Andrew Hawker consents to the inclusion in the report of the matter based on his information in the form and context in which it appears. The Company confirms that it is not aware of any new information or data that materially affects the results included in the original market announcements referred to in this Announcement and that no material change in the results has occurred. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Appendix 2

Mount Bevan Magnetite *- Mineral Resource Statement as of May 2024, ASX Announcement: Mt Bevan Magnetite JV Revised Mineral Resource Estimate, 1st of July 2024.*

	Resource Classification	MT	Fe (%)	SiO_2 (%)	Al_2O_3 (%)	P (%)	S (%)	LOI (%)	DTR (%)	Fe_C (%)	SiO_2_C (%)	Al_2O_3_C (%)	P_C (%)	S_C (%)	LOI_C (%)
Mt Bevan May 2023	Measured														
	Indicated	380	33.94	46.71	0.76	0.060	0.146	-0.97	43.15	67.92	5.56	0.02	0.012	0.099	-3.12
	Inferred	910	33.35	46.80	1.13	0.064	0.162	-1.03	44.23	67.24	6.12	0.03	0.010	0.069	-2.93
	Total	1,290	33.52	46.77	1.02	0.063	0.157	-1.01	43.91	67.44	5.95	0.03	0.011	0.078	-2.99

The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcement and, in the case of mineral resource estimate, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement

Mount Bevan Mineral Resource Estimate - Competent Person

The detail in this report that relates to the Mineral Resource Estimate for the Mt Bevan Magnetite Project were compiled by Mr Steven Warner, an employee of Hancock Prospecting Pty Ltd. Mr. Warner is a Member of the Australasian Institute of Mining and Metallurgy. Mr Warner has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity to which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (the JORC Code). Mr. Warner is a full-time employee of Hancock Prospecting Pty Ltd. Mr. Warner consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

5.1	Bank balances	3,220	4,384
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (Term Deposits)	1,000	2,000
5.5	**Cash and cash equivalents at end of quarter (should equal item 4.6 above)**	**4,220**	**6,384**

6.	Payments to related parties of the entity and their associates	Current quarter $A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	110
6.2	Aggregate amount of payments to related parties and their associates included in item 2	27

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	**Financing facilities** *Note: the term "facility' includes all forms of financing arrangements available to the entity.* *Add notes as necessary for an understanding of the sources of finance available to the entity.*	**Total facility amount at quarter end $A'000**	**Amount drawn at quarter end $A'000**
7.1	Loan facilities		
7.2	Credit standby arrangements		
7.3	Other (please specify)		
7.4	**Total financing facilities**		

7.5	**Unused financing facilities available at quarter end**	
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.	

8.	**Estimated cash available for future operating activities**	**$A'000**
8.1	Net cash from / (used in) operating activities (item 1.9)	(671)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(1,493)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(2,164)
8.4	Cash and cash equivalents at quarter end (item 4.6)	4,220
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	4,220
8.7	**Estimated quarters of funding available (item 8.6 divided by item 8.3)**	1.95

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: The Company expects its operating cash outflows to remain broadly consistent. However, exploration expenditure is expected to reduce significantly, as A$1.206 million of the A$1.493 million incurred during the quarter related to the Mt Bevan Project cash call.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company continues to monitor its cash requirements and evaluate funding options to support its ongoing operations and planned activities. The Company has access to additional funding. No additional funding arrangements have been finalised at this stage.

8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
Answer:	The Company expects to continue progressing its exploration and development activities based on its existing cash reserves of A$4.22 million as on 30th September, together with a forecasted reduction in expenditure following completion of the Mt Bevan Project Stage 1 Feasibility Study commitments. The Company maintains a disciplined approach to capital management and expenditure prioritisation and believes it has sufficient funding to undertake its planned activities and meet its current business objectives. The Company will continue to explore potential funding opportunities to support its future activities, while prioritising expenditure in line with available financial resources.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.

2 This statement gives a true and fair view of the matters disclosed.

Date: 30 Oct 2026

Authorised by: the Board of Legacy Iron Ore Ltd
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
