8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: The Company expects its net operating cash outflow to reduce over the next quarter. Exploration expenditure is anticipated to decline as activities continue to be scheduled around landholder cropping programs, seasonal weather conditions and funding availability. The company continues to actively manage its expenditure and prioritise exploration activities in line with available funding.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company is currently evaluating and negotiating a number of potential funding opportunities to support its ongoing exploration activities and working capital requirements. While no binding agreements have been entered at this stage, the Company believes it has a reasonable basis to expect that it will be able to secure additional funding.

8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
Answer:	Yes, the Company expects to be able to continue its operations and meet its business objectives. This expectation is based on the responses provided in 8.8.1 and 8.8.2. The Company remains focused on advancing its exploration projects while maintaining an appropriate level of financial discipline and expenditure management.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
