ASX Announcement

DRILLFORCE SELECTED AS PREFERRED SUPPLIER FOR SMS MINING MIDWEST HUB

Aquirian Limited (**ASX: AQN**) (**'Aquirian'** or **'the Company'**) is pleased to announce its wholly owned subsidiary Drillforce has been selected by SMS Mining Services as the preferred supplier for Drill and Blast services to their Mid-west Hub Operations.

The scope of the works, leveraging Aquirian's Technology and Energetics package, includes full drilling and blasting services. Works are expected to commence in the January quarter 2027. This contract will be performed under a Strategic Framework Agreement ('**SFA**') with site schedules and is currently under final negotiation. The initial mining scope term is 24 months and is valued at approximately A$32 million utilising three Drillforce rigs and site infrastructure.

The Mid-west Hub is ideally located on the Great Northen Highway 200km north of Western Energetics' Wubin facility leveraging internal supply, resourcing and support in the region.

***Managing Director – Greg Patching commented*:**

"We are really pleased to be selected as preferred supplier by SMS Mining Services for its expansion into the mid-west region. Our patented technology was central in our selection and will add significant benefit to the projects through removal of traditional collar piping which has historically impacted operations in the past.

The development of the Mid-west Hub provides SMS and Drillforce a platform to accommodate additional growth projects in the future. Aquirian is committed to the mid-west region and looks forward to partnering with SMS and safely delivering the scope of works together."

-ENDS-

This announcement has been approved for release by the Managing Director of the Company.
