ASX Release

5 November 2026 **ASX Code: WC1**

SALAZAR SCANDIUM DRILLING COMPLETED

Highlights

Salazar Project, WA

- 91 aircore holes successfully completed for 2,941m at the 100%-owned Salazar Project in Western Australia
- First dedicated scandium drilling campaign targeted potentially higher-grade scandium mineralised zones in shallow saprolite and extensions to known mineralisation
- Batches of samples have been progressively sent to SGS for analysis, with all assay results expected during this quarter

West Cobar Metals Limited (ASX: WC1) ("West Cobar" or "the Company") has completed its first dedicated scandium drilling campaign at the 100%-owned Salazar Project, approximately 130km northeast of Esperance in Western Australia.

Wallis Drilling completed 91 aircore holes for 2,941m. The program targeted potentially higher-grade scandium zones within shallow, clay-rich saprolite and tested extensions to known mineralisation. Batches of samples have been sent to SGS for analysis, with all results expected before the end of the year.

The drilling program complements ongoing metallurgical testwork investigating the extraction of scandium and rare earth elements. Together, the drilling results and metallurgical work will help guide the next stage of evaluation at Salazar.

Managing Director Matt Szwedzicki commented:

"Successfully completing our first dedicated scandium drilling campaign is an important step in evaluating Salazar's scandium potential. The program was designed to test potentially higher-grade zones in shallow saprolite and extensions to known mineralisation.

"With assays expected in batches over this quarter and metallurgical testwork progressing, we are working towards a clearer understanding of both the mineralisation and its extraction characteristics. These results will guide our next steps at Salazar."

Forward looking statement

Certain information in this document refers to the intentions of West Cobar, but these are not intended to be forecasts, forward looking statements or statements about the future matters for the purposes of the Corporations Act or any other applicable law. The occurrence of the events in the future are subject to risk, uncertainties and other actions that may cause West Cobar's actual results, performance or achievements to differ from those referred to in this document. Accordingly, West Cobar and its affiliates and their directors, officers, employees and agents do not give any assurance or guarantee that the occurrence of these events referred to in the document will actually occur as contemplated.

Statements contained in this document, including but not limited to those regarding the possible or assumed future costs, performance, dividends, returns, revenue, exchange rates, potential growth of West Cobar, industry growth or other projections and any estimated company earnings are or may be forward looking statements. Forward-looking statements can generally be identified by the use of words such as ‘project’, ‘foresee’, ‘plan’, ‘expect’, ‘aim’, ‘intend’, ‘anticipate’, ‘believe’, ‘estimate’, ‘may’, ‘should’, ‘will’ or similar expressions. These statements relate to future events and expectations and as such involve known and unknown risks and significant uncertainties, many of which are outside the control of West Cobar. Actual results, performance, actions and developments of West Cobar may differ materially from those expressed or implied by the forward-looking statements in this document.

Such forward-looking statements speak only as of the date of this document. There can be no assurance that actual outcomes will not differ materially from these statements. To the maximum extent permitted by law, West Cobar and any of its affiliates and their directors, officers, employees, agents, associates and advisers:

- disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumptions;
- do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and
- disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

The information contained in this announcement that relates to the exploration information at West Cobar’s Projects fairly reflects information compiled by Mr David Pascoe, who is Head of Technical and Exploration of West Cobar Metals Limited and a Member of the Australian Institute of Geoscientists. Mr Pascoe has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr Pascoe consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.
