To be released for the ASX Code listed below.

JPMorgan Emerging Markets Research Enhanced Index Equity Active ETF (ASX Code: JEME)

Notional Derivative Exposure as at: 30th October 2026

The information outlined below is provided pursuant to the condition imposed by the ASX per ASX Operating Rule 10A.3.1(e).

The following notional derivatives exposure is provided for the JPMorgan Emerging Markets Research Enhanced Index Equity Active ETF. The below information, in line with the ASX condition, provides the notional listed derivatives exposure as well as the exposure to OTC derivatives (excluding derivatives used for hedging currency risk) in relation to the NAV of each of the funds.

JEME October 2026	**Value ($)**	**%**
Fund Net Asset Value	$ 73,288,423.68	100%
Notional Listed Derivative Exposure	-	0.00%
OTC Derivative Exposure – excluding FX hedging	-	0.00%

The investment objective of the Fund is to achieve a long-term return in excess of the Benchmark by actively investing primarily in a portfolio of emerging market companies. As described in the PDS, the Fund, via the Underlying Sub-Fund, invests primarily in a portfolio of emerging market companies. The Underlying Sub-Fund will seek to achieve a long-term return in excess of the Benchmark.

The notional derivatives exposure reported above is the total market value of the underlying securities over which the derivative contracts have been written. This is distinct from the profit or loss of the derivative contracts.

For more information about the fund or this announcement, please contact the Manager, on 1800 576 468.

Yours Faithfully,

JPMorgan Asset Management (Australia) Limited
