Market Announcements Office

ASX Limited

## PRODUCT DISCLOSURE STATEMENT

Betashares Capital Ltd (Betashares) makes this announcement in regard to the following Betashares exchange traded fund:

| ASX Code | Issuer | Fund |
|---|---|---|
| CHAT | Betashares | Betashares Artificial Intelligence ETF |

The Fund is expected to commence trading on the AQUA market of the Australian Securities Exchange on Friday, 6 November 2026.

A copy of the Product Disclosure Statement for the Fund is attached.

IMPORTANT INFORMATION: This information has been prepared by Betashares Capital Ltd (ACN 139 566 868 AFS Licence 341181) (Betashares) the issuer of the Fund. It is general information only and does not take into account any person's objectives, financial situation or needs. The information does not constitute an offer of, or an invitation to purchase or subscribe for securities. You should read the relevant PDS and ASX announcements and seek professional legal, financial, taxation, and/or other professional advice before making an investment decision regarding any Betashares funds. You may also wish to consider the relevant Target Market Determination, which sets out the class of consumers that comprise the target market for the Betashares fund and is available at www.betashares.com.au/target-market-determinations. For a copy of the PDS and more information about Betashares funds go to www.betashares.com.au or call 1300 487 577.

Units in Betashares funds trade on the ASX at market prices, not at NAV. An investment in any Betashares fund is subject to investment risk including possible delays in repayment and loss of income and principal invested. Neither Betashares nor Betashares Holdings Pty Ltd guarantees the performance of any fund or the repayment of capital or any particular rate of return.

## IMPORTANT INFORMATION

### About this PDS

This Product Disclosure Statement (**PDS**) is dated 26 October 2026.

Betashares Capital Ltd ABN 78 139 566 868 AFS Licence 341181 is the issuer of this PDS and is responsible for its contents. In this PDS references to the "Responsible Entity", "Betashares", "we", "our" and "us" refer to Betashares Capital Ltd.

This PDS is the offer document for the following registered managed investment schemes: Betashares Asia Technology Tigers ETF (ARSN: 626 788 967), Betashares Global Robotics and Artificial Intelligence ETF (ARSN: 624 898 157), Betashares S&P Global High Dividend Aristocrats ETF (previously called the Betashares Global Income Leaders ETF) (ARSN: 624 896 742), Betashares Global Quality Leaders ETF (ARSN: 624 896 868), Betashares Space Industry ETF (ARSN: 689 554 765) and Betashares Artificial Intelligence ETF (ARSN: 697 989 932). These are referred to in this PDS individually as "Fund" and collectively as "Funds" or "Betashares Funds".

A copy of this PDS has been lodged with the Australian Securities and Investments Commission (ASIC) on 26 October 2026. Neither ASIC nor ASX Limited takes any responsibility for the contents of this PDS.

The Betashares Asia Technology Tigers ETF, Betashares Global Robotics and Artificial Intelligence ETF, Betashares S&P Global High Dividend Aristocrats ETF and Betashares Global Quality Leaders ETF commenced operations in 2018, and the Betashares Space Industry ETF commenced operations on 8 May 2026. An application was made to, and approved by, the ASX for Units in each of these Funds to be quoted for trading on the AQUA market of the ASX. Those Units are currently quoted for trading on the AQUA market of the ASX under the AQUA Rules.

At the time of lodgement of this PDS with ASIC, Units in the Betashares Artificial Intelligence ETF are yet to be quoted for trading on the ASX. An application has been made to the ASX for Units in the Fund to be quoted for trading on the AQUA market of the ASX under the AQUA Rules.

No applications for Units in the Betashares Artificial Intelligence ETF will be accepted until the exposure period for the PDS, as it relates to this Fund, has expired. The exposure period for the PDS, as it relates to this Fund, expires seven days after lodgement of this PDS with ASIC, subject to possible extension by ASIC for a further period of up to seven days.

The PDS is designed so that a number of Betashares exchange traded funds may be offered under it over time. Additional funds may be added by the Responsible Entity issuing a supplementary PDS or a new PDS.

A copy of the latest PDS for the Funds being offered is available on the Betashares website at www.betashares.com.au or by contacting Betashares on (02) 9290 6888. A paper copy will be provided free of charge on request.

### The offer

The offer under this PDS is for certain financial institutions, called "Authorised Participants". Certain sections of the PDS (particularly those relating to applications for and redemptions of Units in the normal course) are of direct relevance to Authorised Participants only.

Other investors cannot apply for Units under this PDS, but can buy Units on the ASX through a stockbroker, or via a financial adviser. Such investors may use this PDS for information purposes only.

The offer to which this PDS relates is available to Authorised Participants receiving the PDS (electronically or otherwise) in Australia, or in certain overseas jurisdictions by direct arrangement with the Responsible Entity.

This PDS does not constitute an offer of securities in any jurisdiction where, or to any person to whom, it would be unlawful to make such an offer.

No action has been taken to register or qualify the Fund in any jurisdiction outside Australia and New Zealand, although the Responsible Entity reserves the right to do so at any time. The distribution of this PDS outside Australia and New Zealand may be restricted by law and persons who come into possession of this PDS outside Australia and New Zealand should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities law.

Units have not been registered under the United States Securities Act of 1933 (as amended) and except in a transaction which does not violate such Act, may not be directly or indirectly offered or sold in the United States of America or any of its territories or for the benefit of a US Person (as defined in Regulation S of such Act).

### PDS updates

Information in this PDS that is not materially adverse to investors is subject to change from time to time and may be updated by the Responsible Entity by publishing such information on the Betashares website at www.betashares.com.au. A paper copy of any updated information will be provided free of charge on request. Any new or updated information that is materially adverse to investors will be available to investors via a supplementary or new PDS accessible via the ASX Market Announcements Platform.

### Risks

An investment in the Units is subject to risk (refer to section 4 and the Product Supplement), which may include possible delays in repayment and loss of income and capital invested.

None of Betashares Holdings Pty Ltd, Betashares, or any of their related entities, directors or officers gives any guarantee or assurance as to the performance of, or the repayment of capital or income reinvested in, the Funds described in this PDS. Betashares Holdings Pty Ltd and its related entities may invest in, lend to or provide other services to the Funds.

### Not personal advice

This PDS is prepared for general information only and is not financial product advice. It is not intended to be a recommendation by the Responsible Entity, any of the Responsible Entity's associates or any other person to invest in the Funds. In preparing this PDS, the Responsible Entity did not take into account the investment objectives, financial situation or particular needs of any particular person. Before making an investment decision, investors need to consider whether an investment in the Funds is appropriate to their needs, objectives and circumstances.

Investors should consult a professional financial adviser and ensure they understand the risks of the Funds before investing.

### Definitions

Certain capitalised terms used in this PDS are defined in the Glossary in section 8. All references to dollar amounts in this PDS are to Australian dollars unless otherwise stated.

For further details on Betashares Funds, please contact a stockbroker or financial adviser or visit www.betashares.com.au.

# 1 KEY FEATURES

## 1.1 WHAT IS AN ETF?

Each Betashares Fund described in this PDS is an exchange traded fund (or "ETF"). An ETF is an investment vehicle traded on a stock exchange, such as the ASX, much like listed shares. An ETF generally aims to provide investors with exposure to a return that tracks the return of a particular index.

Indices are a method of measuring the performance of a financial market, or a segment of a financial market. Most commonly, an index measures the performance of a particular portfolio of shares, bonds or other securities that comprise the index.

Information on the indices applicable to the Betashares Funds is set out in the Product Supplement appearing after section 8.

An ETF may not replicate the performance of the relevant index exactly, but rather generally aims to minimise any deviation from the index, before fees and expenses, as much as possible.

ETFs combine certain features of index managed funds and listed shares in one investment. Like index managed funds, ETFs come with the benefits of diversification, transparency and attractive fee levels. Unlike index managed funds, however, ETFs trade on a stock exchange so they also benefit from simple trading, including the ability to buy and sell during the course of the trading day, much like listed shares.

ETFs carry certain investment risks. For information on the risks applicable to the Betashares Funds see section 4 and the Product Supplement.

## 1.2 SUMMARY OF KEY INFORMATION

The following table briefly summarises some of the key information contained in this PDS. It is not a complete summary of this PDS and you should read the PDS in its entirety. You should seek your own professional investment advice before deciding to invest in the Funds.

The PDS is designed so that a number of Betashares exchange traded funds may be offered under it over time. Such funds are referred to in this PDS as "Funds" or "Betashares Funds". Additional Funds may be added by the Responsible Entity issuing a supplementary PDS or a new PDS.

Sections 1 to 8 of this PDS contain general information concerning the common features of all of the Betashares Funds that may be offered under the PDS. The Product Supplement appearing after section 8 contains information specific to each Betashares Fund being offered.

TABLE 1.2: SUMMARY OF KEY INFORMATION

| TOPIC | SUMMARY | SECTION |
|---|---|---|
| **Investment objective** | The investment objective of each Fund is to provide an investment return, before fees and expenses, that aims to track the performance of the relevant Index.<br><br>The Product Supplement sets out information specific to each Fund, including the investment objective and information about the Index applicable to the Fund.<br><br>There is no assurance or guarantee that a Fund's returns will meet the investment objective. | **2.1 and Product Supplement** |
| **Investing** | The offer in this PDS is only available to Authorised Participants.<br><br>Units can only be acquired in whole multiples of a "Creation Unit" unless the Responsible Entity agrees otherwise. The number of Units in a Creation Unit for each Fund is determined by the Responsible Entity and notified to Authorised Participants.<br><br>Application amounts are payable in cash in Australian dollars, unless the Responsible Entity agrees otherwise.<br><br>Applications are subject to an application fee described in section 3.<br><br>Subject to market conditions, investors may purchase Units by trading on the ASX. The purchase of Units on the ASX is not governed by the terms of this PDS and therefore the minimum investment does not apply to purchases of Units on the ASX. | **5 and Product Supplement** |
| **Redemptions** | A Unitholder can generally only redeem Units if it is an Authorised Participant.<br><br>Units can only be redeemed in whole multiples of a Creation Unit unless the Responsible Entity agrees otherwise. The number of Units that constitute a Creation Unit for each Fund is determined by the Responsible Entity and notified to Authorised Participants. | **5, 6.2.8 and 6.2.9** |

| TOPIC | SUMMARY | SECTION |
|---|---|---|
| | The amount payable to a Unitholder on redemption will be paid in cash in Australian dollars, unless the Responsible Entity agrees otherwise.<br><br>Redemptions are subject to a withdrawal fee described in section 3.<br><br>In certain specified circumstances, redemption requests may be delayed, rejected or scaled down. See section 6.2.8 and 6.2.9 for further information.<br><br>Subject to market conditions, investors may sell their Units by trading on the ASX. The sale of Units on the ASX is not governed by the terms of this PDS and therefore the minimum redemption does not apply to sales of Units on the ASX.<br><br>A Unitholder who is not an Authorised Participant can only redeem Units in the special circumstances described in section 5.4. | |
| **Distributions** | The distribution period in relation to each Fund is set out in the Product Supplement. The Responsible Entity intends to make distributions in respect of each Fund at least annually (assuming there is distributable income). | **2.2 and Product Supplement** |
| **Risks** | There are a number of risks associated with investing in the Funds. The key risks include the following:<br><br>• Investment objective risk - there is no guarantee that a Fund's investment strategy will be successful or that the investment objective will be achieved.<br><br>• Index tracking risk - a Fund should not be expected to track the performance of an Index exactly, but generally aims to minimise any deviation from the Index, before fees and expenses, as much as possible.<br><br>• Market risk - a Fund's investment returns will be influenced by the performance of the market or markets to which the Fund is exposed. Changes in equity prices, which may be volatile and fluctuate from day to day, may result in a loss in the value of Units.<br><br>• International investment risk - a Fund will have significant exposure to investments in foreign countries, which may include emerging markets, which may be more volatile or subject to greater risks than investments in Australia.<br><br>• Foreign exchange risk - the Australian dollar value of a Fund's assets denominated in foreign currencies will increase or decrease as a result of exchange rate fluctuations. As at the date of this PDS, the Responsible Entity does not intend to hedge such currency exposure.<br><br>• Concentration risk - a significant percentage of a Fund's underlying Index may be comprised of securities concentrated in a single industry sector or only a small group of industry sectors. Similarly, a significant percentage, or all, of a Fund's underlying Index may be comprised of securities from a single country or only a small group of countries.<br><br>• Counterparty risk - there is a risk of loss due to a counterparty to a Fund not honouring a financial commitment. Counterparties include service providers such as the Fund's unit registrar, fund administrator and custodian, as well as any derivatives counterparties.<br><br>• Trading and suspension risk - in certain circumstances, the ASX may suspend trading of the Units of a Fund and in that event Unitholders would not be able to buy or sell Units of that Fund on the ASX. In certain circumstances, the Responsible Entity can suspend or scale down applications or redemptions.<br><br>• Trading price risk - the trading price of Units on the ASX may differ from the Net Asset Value per Unit.<br><br>• Liquidity risk - although the Units will be quoted on the AQUA market of the ASX, there can be no assurance that there will be a liquid market for Units, and no assurance that there will be a liquid market for the Fund's investments. | **4 and Product Supplement** |

| TOPIC | SUMMARY | SECTION |
|---|---|---|
| | • Operational risk - external events or a breakdown in administrative procedures or operational controls may adversely affect the operation and performance of a Fund.<br>• Index risk - the sponsor of an Index may change the Index methodology or stop publishing the Index, or the Responsible Entity's licence to use the Index may terminate.<br>• New Fund risk – lack of operating history for the Betashares Artificial Intelligence ETF.<br>This is not a comprehensive summary of all the risks of investing in the Funds. Before investing in the Funds, investors should carefully consider the risks associated with an investment in the Funds and obtain financial advice on whether an investment in the Funds is suitable for their objectives, financial situation and needs.<br>For further details of the risks of investing, see section 4 and the Product Supplement. | |
| **Fees and other costs** | Fees and other costs as described in section 3 of this PDS will apply. | **3** |
| **Tax** | Tax information of a general nature is set out in section 7. Investors should seek their own professional tax advice which takes into account their particular circumstances. | **7** |
| **Complaints** | The Responsible Entity has a process in place to deal with complaints from Unitholders. | **6.2.23** |
| **Responsible Entity** | Betashares Capital Ltd is the responsible entity of each Fund and is the issuer of this PDS. | **1.3** |

## 1.3 ABOUT BETASHARES

Betashares Capital Ltd is the responsible entity of the Funds and is responsible for the ongoing management of the Funds.

The Responsible Entity is an Australian asset management business located in Sydney which was established in 2009 to be a specialist provider of fund products that are exchange traded. The Responsible Entity launched its first funds in 2010. As at the date of this PDS, it manages over $75 billion in assets and acts as responsible entity for more than 100 funds whose units are quoted for trading on the Australian Securities Exchange under the AQUA Rules. These funds provide exposure to the performance of specific equity strategies, equity indices, fixed income strategies, fixed income indices, currencies, commodities or commodity indices. The primary focus of the Responsible Entity's business is the operation of funds that are exchange traded.

Neither Betashares Capital Ltd nor any of its related entities, directors or officers gives any guarantee or assurance as to the performance of, or the repayment of capital invested in, the Funds.

The Responsible Entity has sufficient working capital to enable it to operate the Funds as outlined in this PDS.

## 1.4 ADMISSION TO TRADING UNDER THE AQUA RULES

Units in the Funds have been admitted to trading status on the ASX under the AQUA Rules (except for the Betashares Artificial Intelligence ETF). An application has been made for Units in the Betashares Artificial Intelligence ETF to be admitted to trading status on the ASX under the AQUA Rules. The AQUA Rules form part of the ASX Operating Rules. The Funds are not listed on the ASX under the ASX Listing Rules.

The AQUA Rules provide a tailored framework for the quotation of exchange traded funds and structured products on the ASX.

In operational terms, the market for products quoted under the AQUA Rules operates in the same way that it does for listed equities, with continuous matching of bids and offers and an opening and closing auction.

### AQUA Rules: fundamental difference

The key distinction between products admitted under the ASX Listing Rules and those quoted under the AQUA Rules is the level of control and influence that the issuer of the relevant product has over the value of the underlying assets of the product.

Under the ASX Listing Rules, listed equity securities typically reflect the value of the business operated by the issuer. By contrast, the value of a product quoted under the AQUA Rules typically reflects the performance of the underlying assets.

The following table highlights the key specific differences between the AQUA Rules and the ASX Listing Rules.

| ASX LISTING RULES | AQUA RULES |
|---|---|
| **Control** | |
| An issuer of an entity listed under the ASX Listing Rules:<br>• controls the value of its own securities and the business it runs; and<br>• the value of those securities is directly influenced by the equity issuer's performance and conduct.<br><br>For example, the management and board of a listed company generally control the fate of the business and, therefore, have direct influence over the share price. | An issuer of a product quoted under the AQUA Rules:<br>• does not control the value of the assets underlying its products, but<br>• offers products that give investors exposure to the underlying assets – such as shares, indices, currencies or commodities.<br><br>The value (price) of products quoted under the AQUA Rules is dependent upon the performance of the underlying assets rather than the financial performance of the issuer itself e.g. an ETF issuer does not control the value of the shares it invests in. |
| **Continuous Disclosure** | |
| Issuers are subject to the continuous disclosure requirements under ASX Listing Rule 3.1 and Section 674 of the *Corporations Act*. | Issuers of products quoted under the AQUA Rules are not subject to the continuous disclosure requirements under ASX Listing Rule 3.1 and section 674 of the *Corporations Act* but must disclose information about:<br>• the Net Tangible Assets ("NTA") or the Net Asset Value ("NAV") of the funds;<br>• distributions declared; and<br>• any other information that is required to be disclosed to ASIC under section 675 of the Corporations Act must be disclosed via the ASX Market Announcements Platform at the same time it is disclosed to ASIC. The Responsible Entity also intends to post any such information on its website www.betashares.com.au at the same time.<br><br>AQUA Product issuers must also disclose to the ASX any information the non-disclosure of which may lead to the establishment of a false market in its products or would materially affect the price of its products. |
| **Periodic Disclosure** | |
| Issuers are required to disclose their half- yearly and annual financial information or annual reports to the ASX under Chapter 4 of the ASX Listing Rules. | Financial reports relating to the issuer itself are not required to be disclosed to the ASX. However, periodic financial reports relating to the AQUA Product must be disclosed to the ASX at the same time they are lodged with ASIC under Chapter 2M of the *Corporations Act.* |
| **Corporate Control** | |
| Requirements in the *Corporations Act* and the ASX Listing Rules in relation to matters such as takeover bids, share buy-backs, change of capital, new issues, restricted securities, disclosure of directors' interests and substantial shareholdings, apply to companies and listed schemes. | These requirements do not apply to AQUA Product issuers. Section 601FM of the *Corporations Act* continues to apply to the removal or change of the responsible entity. An extraordinary resolution would be required to change the responsible entity. An extraordinary resolution is a resolution passed by a majority of the total votes that may be cast by members entitled to vote on the resolution. |
| **Related Party Transactions** | |
| Chapter 10 of the ASX Listing Rules, which relates to transactions between an entity and persons in a position to influence the entity, specifies controls over related party transactions. | Chapter 10 of the ASX Listing Rules does not apply to AQUA Products. Products quoted under the AQUA Rules which are registered managed investment schemes remain subject to the related party requirements in Part 5C.7 and Chapter 2E of the *Corporations Act.* |

| ASX LISTING RULES | AQUA RULES |
|---|---|
| **Auditor Rotation Obligations** | |
| There are specific requirements in relation to auditor rotation under Part 2M.4 Division 5 of the *Corporations Act*. | Issuers of products quoted under the AQUA Rules are not subject to the requirements under Part 2M.4 Division 5 of the Corporations Act. A responsible entity of a registered managed investment scheme will continue to be required to undertake an independent audit of its compliance with the scheme's compliance plan in accordance with Section 601HG of the *Corporations Act* and the auditor must not be the auditor of the scheme's financial statements (but may be from the same firm). |

# 2 ABOUT THE FUNDS

## 2.1 INVESTMENT POLICY

### 2.1.1 Investment objective

The investment objective of each Fund is to provide an investment return, before fees and expenses, that aims to track the performance of the relevant Index.

The Index in relation to each Fund is set out in the Product Supplement. The Product Supplement also sets out more information about the investment objective of each Fund.

There is no assurance or guarantee that the returns of the Funds will meet their investment objectives.

### 2.1.2 Investment strategy

In seeking to achieve the investment objective for each Fund, the Responsible Entity will employ a passive management approach that aims to track the performance of the relevant Index, before fees and expenses.

Unless otherwise set out in the Product Supplement, each Fund will generally invest in the securities that comprise the relevant Index in proportion to the weightings of the securities in the Index. This is known as a "full replication" strategy. For such Funds, the timing and nature of any changes to the composition of the Fund's investments will generally correspond with the timing and nature of changes to the relevant Index.

In a variety of circumstances, however, the holdings of a Fund may not exactly replicate its Index. For example, it may not be possible or practical to do so in some circumstances, such as where investment restrictions apply which would prevent direct investment in a particular security. A Fund, from time to time, may not hold all of the securities comprising the Index and may hold securities in weightings which differ from the Index.

Some Funds will generally not hold all of the securities comprising the relevant Index and may hold securities in weightings which differ from the Index. This is referred to as a "sampling" strategy. A sampling strategy is often used for funds tracking an index that is too broad to efficiently purchase all of the index's securities. For Funds where a sampling strategy is used, this is noted in the relevant Product Supplement.

For such Funds, the sampling strategy is based on a portfolio of securities that may be a sub-set of the constituents of the Index and that aims to be representative of the characteristics of the constituents of the Index as a whole. The aim of a sampling strategy is to construct a portfolio that provides a return profile comparable to that of the Index.

Under the sampling strategy, a Fund's exposure to individual securities may be above or below that security's actual weighting in the Index. The Fund may hold as many securities as the Responsible Entity believes is necessary to achieve the Fund's investment objective. The sample of securities will be determined based on a number of factors, including the liquidity of the security, the size of the Fund, the portfolio's exposure to countries, currencies and industry sectors and market capitalisations (in each case, relative to the corresponding exposures under the Index).

Investors will be able to regularly compare the performance of a Fund against the performance of its related index via the Betashares website at www.betashares.com.au.

A Fund may hold exchange-traded derivatives contracts from time to time (e.g. futures contracts) and other investments that do not form part of the Index where this may help to achieve the Fund's investment objective. For example, exchange-traded derivatives may be used where direct investment in a particular security or securities is not possible or practical, to obtain an investment exposure without physically buying or selling the underlying asset, or to manage cash flows or to facilitate timely exposure to the market. Exchange-traded derivatives will only be used in limited circumstances and will not be used to leverage the Fund. Additionally, when used, the total notional value of such derivatives will generally be less than 5% of a Fund's NAV, except in exceptional circumstances. Please refer to section 4.11 for further information on the risks associated with use of derivatives.

As at the date of this PDS, the Responsible Entity does not intend to engage in securities lending in connection with a Fund, although it may do so in the future provided that any such change is notified in advance to investors and potential investors via a supplementary or new PDS accessible through the ASX Market Announcements Platform.

Each Fund will not use short selling, leverage or gearing to seek to enhance its returns.

Small cash balances may be held in a Fund from time to time.

The assets of each Fund, whether securities or cash, will be held by the custodian, other than cash held as collateral for any futures positions.

*Currency Exposure*

As each Fund's assets will be denominated in one or more overseas currencies, the Australian dollar value of the assets will increase or decrease as a result of exchange rate fluctuations. As at the date of this PDS, the Responsible Entity does not intend to hedge such currency exposure.

### 2.1.3 Labour standards and environmental, social and ethical considerations

The Responsible Entity does not take into account labour standards or environmental, social or ethical considerations when selecting, retaining or realising investments.

The Funds do not pursue a sustainable investment strategy or have a sustainable investment objective, and will not be marketed as sustainability related products. The Funds are not designed for investors who wish to screen out particular types of companies or investments or are looking for funds that meet specific environmental, social (which includes labour standards) and governance ("ESG") goals.

### 2.1.4 Performance

Performance information for each Fund, and the Net Asset Value for each Fund, will be published on the Betashares website at www.betashares.com.au. Information relating to past performance is not a reliable indicator of future performance.

### 2.1.5 Changes to investment objectives and strategy

The Responsible Entity may from time to time vary the investment mandate (i.e. the investment objective and strategy as described in sections 2.1, 2.1.2 and in the Product Supplement) for any Fund as set out in this PDS.

Any significant change to the investment mandate will be notified to investors and potential investors via a supplementary or new PDS accessible through the ASX Market Announcements Platform.

Information in this PDS that is not materially adverse to investors is subject to change from time to time and may be updated by the Responsible Entity by publishing such information on the Betashares website at www.betashares.com.au (see "PDS updates" on page 1).

## 2.2 DISTRIBUTIONS

The Funds intend to pay distributions at least annually. Distribution amounts may include dividends, realised gains or losses from disposal of securities, or other assessable income derived by the Funds, after allowing for fees and expenses.

### 2.2.1 Distributions

Unitholders holding Units in a Fund at the end of a distribution period are entitled to a pro-rata share of the distributable income (if any) for that period based on the number of Units held in the Fund at the end of the distribution period.

The distribution periods in relation to a Fund are set out in the Product Supplement. The amount of distributable income at the end of any distribution period will be determined by the Responsible Entity. Under the AMIT tax rules, the Fund may make cash distributions that differ from taxable income attributed by the Fund to Unitholders. See section 7 for further information.

A Fund's NAV per Unit will normally fall after the end of each distribution period if a distribution is payable. Consequently, if you invest just before the end of a distribution period, some of your capital may be returned to you as income in the form of a distribution.

Unless the distribution reinvestment plan applies (see section 2.2.3), distributions will generally be paid within 15 business days of the end of the distribution period to which they relate by deposit to a Unitholder's nominated Australian bank, building society or credit union account.

The amount of the distribution paid by a Fund will vary from period to period, and there may be periods when a Fund will not pay a distribution.

The Responsible Entity may, in its discretion, change the duration of a distribution period for a Fund (provided that distribution periods cannot be longer than one year).

Unitholders may also become entitled to the distributable income of a Fund on the redemption of their Units. See section 7.1.6 for further information.

Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.

### 2.2.2 Tax statements

The Responsible Entity will, as soon as reasonably practicable after the end of each financial year, issue to each Unitholder who received an entitlement to the distributable income and/or who was attributed taxable income of a Fund during a financial year, a tax statement which outlines the amount and composition of the taxable income to which the Unitholder became entitled and/or was attributed. Where the relevant Fund is an Attribution Managed Investment Trust ("AMIT") for the financial year, the tax statement is referred to as an AMIT member annual statement ("AMMA").

### 2.2.3 Distribution Reinvestment Plan

A distribution reinvestment plan ("DRP") will be available for each Fund.

Participation in any DRP is subject to the terms and conditions of the DRP policy document, which is available at no charge by contacting Betashares on 1300 487 577 (within Australia). Any DRP is currently available only to Unitholders who have a registered address in Australia or New Zealand, unless the Responsible Entity determines otherwise.

Where a DRP is available, eligible Unitholders can choose to:

- participate in the DRP, meaning distributions from the relevant Fund will be reinvested in additional Units in the Fund; or
- have the distributions paid directly to a nominated Australian bank, building society or credit union account.

Full or partial reinvestment will be available. If no DRP election is made, the distributions will automatically be paid into the nominated Australian bank, building society or credit union account.

Eligible Unitholders can elect to participate in the DRP by completing an on-line form available on the Registrar's website or by contacting the Registrar.

# 3 FEES AND OTHER COSTS

**DID YOU KNOW?**

**Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.**

**For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from $100,000 to $80,000).**

**You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.**

**You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.**

**TO FIND OUT MORE**

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

## 3.1 FEES AND OTHER COSTS

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this PDS.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

TABLE 3.1: FEES AND COSTS SUMMARY

Betashares Global Robotics and Artificial Intelligence ETF, Betashares Asia Technology Tigers ETF, Betashares S&P Global High Dividend Aristocrats ETF, Betashares Global Quality Leaders ETF, Betashares Space Industry ETF and Betashares Artificial Intelligence ETF

| TYPE OF FEE OR COST | AMOUNT | HOW AND WHEN PAID |
|---|---|---|
| **Ongoing annual fees and costs** | | |
| *Management fees and costs:*<br><br>The fees and costs for managing your investment | **Betashares Global Robotics and Artificial Intelligence ETF**<br><br>0.57% per annum of the Fund's Net Asset Value. As at the date of this PDS, the management fees and costs of the Fund consist of the following components:<br>• Management fee - 0.47% per annum of the Fund's Net Asset Value; plus<br>• Recoverable expenses – estimated at 0.10% per annum of the Fund's Net Asset Value;[1] plus<br>• Indirect costs - estimated at 0.00% per annum of the Fund's Net Asset Value.[2]<br><br>**Betashares Asia Technology Tigers ETF**<br><br>0.67% per annum of the Fund's Net Asset Value. As at the date of this PDS, the management fees and costs of the Fund consist of the following components:<br>• Management fee - 0.57% per annum of the Fund's Net Asset Value; plus<br>• Recoverable expenses – estimated at 0.10% per annum of the Fund's Net Asset Value;[1] plus<br>• Indirect costs - estimated at 0.00% per annum of the Fund's Net Asset Value.[2] | The management fee is calculated and accrued daily as a percentage of each Fund's Net Asset Value, and reflected in the daily Net Asset Value per Unit. The amount is deducted from each Fund's assets monthly on or after the first day of the following month.<br><br>The recoverable expenses are calculated and accrued daily as a percentage of each Fund's Net Asset Value, and reflected in the daily Net Asset Value per Unit. The amount is deducted from each Fund's assets monthly on or after the first day of the following month. However, as it relates to the Betashares S&P Global High Dividend Aristocrats ETF, the Betashares Space Industry ETF and the Betashares Artificial Intelligence ETF, any expenses normally incurred in operating these Funds are paid as and when they arise by the Responsible Entity out of its own resources. Any extraordinary expenses are deducted from a Fund's assets as and when they arise.<br><br>The indirect costs are calculated and accrued daily as a percentage of each Fund's Net Asset Value, and reflected in the daily Net Asset Value per Unit. |

| TYPE OF FEE OR COST | AMOUNT | HOW AND WHEN PAID |
|---|---|---|
| | **Betashares S&P Global High Dividend Aristocrats ETF**<br><br>0.39% per annum of the Fund's Net Asset Value. |---|---|---|
| The costs incurred by the scheme when buying or selling assets. | Estimated at 0.05% per annum of the Fund's Net Asset Value.[3]<br>**Betashares Asia Technology Tigers ETF**<br>Estimated at 0.08% per annum of the Fund's Net Asset Value.[3]<br>**Betashares S&P Global High Dividend Aristocrats ETF**<br>Estimated at 0.07% per annum of the Fund's Net Asset Value.[3]<br>**Betashares Global Quality Leaders ETF**<br>Estimated at 0.02% per annum of the Fund's Net Asset Value.[3]<br>**Betashares Space Industry ETF**<br>Estimated at 0.04% per annum of the Fund's Net Asset Value.[3]<br>**Betashares Artificial Intelligence ETF**<br>Estimated at 0.03% per annum of the Fund's Net Asset Value.[3] | costs, e.g. brokerage, are added to or deducted from the amounts payable from each Fund's assets or receivable by each Fund at the time of settlement in respect of investments purchased or sold for each Fund. Other costs, e.g. transactional custodian fees, are invoiced to each Fund and paid from each Fund's assets according to a regular monthly or quarterly cycle. |
| **Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)** | | |
| *Establishment fee:*<br>The fee to open your investment | Nil. | Not applicable. |
| *Contribution fee:*<br>The fee on each amount contributed to your investment | If you are not an Authorised Participant - $0.<br>If you are an Authorised Participant – up to $4,000 plus up to 0.15% of the application amount for cash applications.[6] | Payable only by Authorised Participants.[4]<br>This fee will be payable by Authorised Participants together with the application consideration at the time of applying for Units, for cash applications. |
| *Buy-sell spread:*<br>An amount deducted from your investment representing costs incurred in transactions by the scheme | Nil.[5] | Not applicable. |
| *Withdrawal fee:*<br>The fee on each amount you take out of your investment | If you are not an Authorised Participant - $0.<br>If you are an Authorised Participant – up to $4,000 plus up to 0.30% of the redemption amount for cash redemptions.[6] | Payable only by Authorised Participants.[4]<br>This fee will be deducted from the redemption proceeds at the time of the redemption, for cash redemptions. |
| *Exit fee:*<br>The fee to close your investment | Nil. | Not applicable. |
| *Switching fee:*<br>The fee for changing investment options | Nil. | Not applicable. |

[1] In respect of each of the Betashares Global Robotics and Artificial Intelligence ETF, Betashares Asia Technology Tigers ETF, Betashares S&P Global High Dividend Aristocrats ETF and Betashares Global Quality Leaders ETF, this figure reflects the estimated recoverable expenses incurred by each Fund for the previous financial year ended 30 June 2026 and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or the information was not available at the date of the PDS. In respect of the Betashares Space Industry ETF, as this Fund has been on issue for less than 11 months prior to the end of the previous financial year and was not first offered in the current financial year, the costs reflect the Responsible Entity's reasonable estimate for the 12-month period of the current financial year, as at the date of this PDS. In respect of the Betashares Artificial Intelligence ETF, as this Fund is newly established, this figure reflects the recoverable expenses that the Responsible Entity reasonably estimates will apply to the Fund for the current financial

year (adjusted to reflect a 12 month period), as at the date of this PDS. For more information on recoverable expenses, please see section 3.3.3 in the “Additional Explanation of Fees and Costs” section below.

[2] This figure reflects the estimated indirect costs incurred by the Betashares Global Robotics and Artificial Intelligence ETF, Betashares Asia Technology Tigers ETF, Betashares S&P Global High Dividend Aristocrats ETF and Betashares Global Quality Leaders ETF for the previous financial year ended 30 June 2026 and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or information was not available at the date of this PDS. In respect of the Betashares Space Industry ETF, as this Fund has been on issue for less than 11 months prior to the end of the previous financial year and was not first offered in the current financial year, the costs reflect the Responsible Entity’s reasonable estimate for the 12-month period of the current financial year, as at the date of this PDS. In respect of the Betashares Artificial Intelligence ETF, as this Fund is are newly established, this figure reflects the indirect costs that the Responsible Entity reasonably estimates will apply for the current financial year (adjusted to reflect a 12-month period), as at the date of this PDS. For more information on the meaning and calculation of indirect costs, see “Indirect costs” under the heading “Additional Explanation of Fees and Costs”.

[3] In respect of each of the Betashares Global Robotics and Artificial Intelligence ETF, Betashares Asia Technology Tigers ETF, Betashares S&P Global High Dividend Aristocrats ETF and Betashares Global Quality Leaders ETF, this figure reflects the estimated transaction costs incurred by each Fund for the previous financial year ended 30 June 2026 and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or information was not available at the date of this PDS. In respect of the Betashares Space Industry ETF, as this Fund has been on issue for less than 11 months prior to the end of the previous financial year and was not first offered in the current financial year, the transaction costs reflect the Responsible Entity’s reasonable estimate for the 12-month period of the current financial year, as at the date of this PDS. In respect of the Betashares Artificial Intelligence ETF, as the Fund is newly established, this figure reflects the transaction costs that the Responsible Entity reasonably estimates will apply for the current financial year (adjusted to reflect a 12-month period), as at the date of this PDS. For all Funds, the estimate is net of estimated transaction costs for which the Responsible Entity reimburses each Fund out of the application and redemption fees it receives from Authorised Participants, as described in section 3.3.6. For more information on transaction costs and the application and redemption fees payable by Authorised Participants see "Transaction costs" and "Application and redemption fees for Authorised Participants" under the heading “Additional Explanation of Fees and Costs”.

[4] An Authorised Participant is a participant in relation to a financial market (or which has engaged a participant to act on its behalf) which has entered into an agreement with the Responsible Entity in relation to Unit applications and redemptions. For an explanation of the contribution fees and withdrawal fees (also referred to in this PDS as application fees and redemption fees) please see section 3.3.6 “Application and Redemption Fees for Authorised Participants” in the “Additional Explanation of Fees and Costs” section. Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.4 - see “Additional Explanation of Fees and Costs” section below for more information.

[5] While each Fund does not charge a buy-sell spread, as each Fund is traded on a securities exchange, investors may incur a bid-offer spread when trading on the exchange.

[6] In-kind applications and redemptions are only available if agreed by the Responsible Entity. Additional contribution and withdrawal fees may apply in the case of an in-kind application or redemption as agreed with the Responsible Entity from time to time.

Certain additional costs may apply. See the “Additional Explanation of Fees and Costs” section below for more information.

Each fee set out in this table may in some cases be negotiated with wholesale clients. For more information, refer to the explanation of “Differential fees, rebates and related payments” in the “Additional Explanation of Fees and Costs” section below.

All fees and costs in the table above include Goods and Services Tax (“GST”) net of any reduced input tax credits and any applicable stamp duty and are shown without any other adjustment in relation to any tax deduction available to the Responsible Entity or the extent to which any tax deduction may be passed on to unitholders.

## 3.2 EXAMPLE OF ANNUAL FEES AND COSTS

This table gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a one year period. You should use this table to compare this product with other products offered by managed investment schemes.

TABLE 3.2: EXAMPLE OF ANNUAL FEES AND COSTS

| EXAMPLE - Betashares Global Robotics and Artificial Intelligence ETF | AMOUNT | BALANCE OF $50,000 WITH A CASH CONTRIBUTION OF $5,000[1] DURING THE YEAR |
|---|---|---|
| **CONTRIBUTION FEES**[2] | | For every additional $5,000 you put in, you will be charged: |
| | $0 if you are not an Authorised Participant; or | $0 if you are not an Authorised Participant; or |
| | $4,000 plus 0.15% of the application amount for a cash application in Australian dollars if you are an Authorised Participant[2] | $4,007.50 if you are an Authorised Participant. |
| **PLUS MANAGEMENT FEES AND COSTS**[3] | 0.57% p.a. of the Fund's Net Asset Value | **And**, for every $50,000 you have in the Fund you will be charged or have deducted from your investment $285 each year. |
| **PLUS PERFORMANCE FEES**[4] | Nil | **And**, you will be charged or have deducted from your investment $0 in performance fees each year.[4] |
| **PLUS TRANSACTION COSTS**[5] | Estimated at 0.05% of the Fund's Net Asset Value | **And**, you will be charged or have deducted from your investment $25 in transaction costs. |
| **EQUALS COST OF FUND** | | If you had an investment of $50,000 at the beginning of the year and you put in an additional $5,000[6] during that year, you would be charged fees and costs of:<br><br>**$310 (if you are not an Authorised Participant) or $4,317.50 (if you are an Authorised Participant for the Fund).***<br><br>**What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.** |

| EXAMPLE - Betashares Asia Technology Tigers ETF | AMOUNT | BALANCE OF $50,000 WITH A CASH CONTRIBUTION OF $5,000[1] DURING THE YEAR |
|---|---|---|
| **CONTRIBUTION FEES**[2] | | For every additional $5,000 you put in, you will be charged: |
| | $0 if you are not an Authorised Participant; or | $0 if you are not an Authorised Participant; or |
| | $4,000 plus 0.15% of the application amount for a cash application in Australian dollars if you are an Authorised Participant[2] | $4,007.50 if you are an Authorised Participant. |
| **PLUS MANAGEMENT FEES AND COSTS**[3] | 0.67% p.a. of the Fund's Net Asset Value | **And**, for every $50,000 you have in the Fund you will be charged or have deducted from your investment $335 each year. |

| | | |
|---|---|---|
| **PLUS PERFORMANCE FEES[4]** | Nil | **And**, you will be charged or have deducted from your investment $0 in performance fees each year.[4] |
| **PLUS TRANSACTION COSTS[5]** | Estimated at 0.08% of the Fund's Net Asset Value | **And**, you will be charged or have deducted from your investment $40 in transaction costs. |
| **EQUALS COST OF FUND** | | If you had an investment of $50,000 at the beginning of the year and you put in an additional $5,000[6] during that year, you would be charged fees and costs of:<br><br>**$375 (if you are not an Authorised Participant) or $4,382.50 (if you are an Authorised Participant for the Fund).***<br><br>**What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.** |

| EXAMPLE - Betashares S&P Global High Dividend Aristocrats ETF | AMOUNT | BALANCE OF $50,000 WITH A CASH CONTRIBUTION OF $5,000[1] DURING THE YEAR |
|---|---|---|
| **CONTRIBUTION FEES**[2] | | For every additional $5,000 you put in, you will be charged: |
| | $0 if you are not an Authorised Participant; or | $0 if you are not an Authorised Participant; or |
| | $4,000 plus 0.15% of the application amount for a cash application in Australian dollars if you are an Authorised Participant[2] | $4,007.50 if you are an Authorised Participant. |
| **PLUS MANAGEMENT FEES AND COSTS**[3] | 0.39% p.a. of the Fund's Net Asset Value | **And**, for every $50,000 you have in the Fund you will be charged or have deducted from your investment $195 each year. |
| **PLUS PERFORMANCE FEES[4]** | Nil | **And**, you will be charged or have deducted from your investment $0 in performance fees each year.[4] |
| **PLUS TRANSACTION COSTS[5]** | Estimated at 0.07% of the Fund's Net Asset Value | **And**, you will be charged or have deducted from your investment $35 in transaction costs. |
| **EQUALS COST OF FUND** | | If you had an investment of $50,000 at the beginning of the year and you put in an additional $5,000[6] during that year, you would be charged fees and costs of:<br><br>**$230 (if you are not an Authorised Participant) or $4,237.50 (if you are an Authorised Participant for the Fund).***<br><br>**What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.** |

| EXAMPLE - Betashares Global Quality Leaders ETF | AMOUNT | BALANCE OF $50,000 WITH A CASH CONTRIBUTION OF $5,0001 DURING THE YEAR |
|---|---|---|
| **CONTRIBUTION FEES**[2] | | For every additional $5,000 you put in, you will be charged: |
| | $0 if you are not an Authorised Participant; or | $0 if you are not an Authorised Participant; or |
| | $4,000 plus 0.15% of the application amount for a cash application in Australian dollars if you are an Authorised Participant[2] | $4,007.50 if you are an Authorised Participant. |
| **PLUS MANAGEMENT FEES AND COSTS**[3] | 0.35% p.a. of the Fund's Net Asset Value | **And**, for every $50,000 you have in the Fund you will be charged or have deducted from your investment $175 each year. |
| **PLUS PERFORMANCE FEES**[4] | Nil | **And**, you will be charged or have deducted from your investment $0 in performance fees each year.[4] |
| **PLUS TRANSACTION COSTS**[5] | Estimated at 0.02% of the Fund's Net Asset Value | **And**, you will be charged or have deducted from your investment $10 in transaction costs. |
| **EQUALS COST OF FUND** | | If you had an investment of $50,000 at the beginning of the year and you put in an additional $5,000[6] during that year, you would be charged fees and costs of:<br><br>**$185 (if you are not an Authorised Participant) or $4,192.50 (if you are an Authorised Participant for the Fund).***<br><br>**What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.** |

| EXAMPLE - Betashares Space Industry ETF | AMOUNT | BALANCE OF $50,000 WITH A CASH CONTRIBUTION OF $5,000[1] DURING THE YEAR |
|---|---|---|
| **CONTRIBUTION FEES**[2] | | For every additional $5,000 you put in, you will be charged: |
| | $0 if you are not an Authorised Participant; or | $0 if you are not an Authorised Participant; or |
| | $4,000 plus 0.15% of the application amount for a cash application in Australian dollars if you are an Authorised Participant[2] | $4,007.50 if you are an Authorised Participant. |
| **PLUS MANAGEMENT FEES AND COSTS**[3] | 0.57% p.a. of the Fund's Net Asset Value | **And**, for every $50,000 you have in the Fund you will be charged or have deducted from your investment $285 each year. |
| **PLUS PERFORMANCE FEES**[4] | Nil | **And**, you will be charged or have deducted from your investment $0 in performance fees each year.[4] |
| **PLUS TRANSACTION COSTS**[5] | Estimated at 0.04% of the Fund's Net Asset Value | **And**, you will be charged or have deducted from your investment $20 in transaction costs. |

| | | |
|---|---|---|
| **EQUALS COST OF FUND** | | If you had an investment of $50,000 at the beginning of the year and you put in an additional $5,000[6] during that year, you would be charged fees and costs of:<br><br>**$305 (if you are not an Authorised Participant) or $4,312.50 (if you are an Authorised Participant for the Fund).***<br><br>**What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.** |

| EXAMPLE - Betashares Artificial Intelligence ETF | AMOUNT | BALANCE OF $50,000 WITH A CASH CONTRIBUTION OF $5,000[1] DURING THE YEAR |
|---|---|---|
| **CONTRIBUTION FEES**[2] | | For every additional $5,000 you put in, you will be charged: |
| | $0 if you are not an Authorised Participant; or | $0 if you are not an Authorised Participant; or |
| | $4,000 plus 0.15% of the application amount for a cash application in Australian dollars if you are an Authorised Participant[2] | $4,007.50 if you are an Authorised Participant. |
| **PLUS MANAGEMENT FEES AND COSTS**[3] | 0.57% p.a. of the Fund's Net Asset Value | **And**, for every $50,000 you have in the Fund you will be charged or have deducted from your investment $285 each year. |
| **PLUS PERFORMANCE FEES**[4] | Nil | **And**, you will be charged or have deducted from your investment $0 in performance fees each year.[4] |
| **PLUS TRANSACTION COSTS**[5] | Estimated at 0.03% of the Fund's Net Asset Value | **And,** you will be charged or have deducted from your investment $15 in transaction costs. |
| **EQUALS COST OF FUND** | | If you had an investment of $50,000 at the beginning of the year and you put in an additional $5,000[6] during that year, you would be charged fees and costs of:<br><br>**$300 (if you are not an Authorised Participant) or $4,307.50 (if you are an Authorised Participant for the Fund).***<br><br>**What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.** |

* Additional fees may apply. An Authorised Participant who redeems Units directly will also be charged a withdrawal fee of up to $4,000 plus up to 0.30% of the redemption amount for cash redemptions based on a balance of $50,000. Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.4. For more information, see "Redemption fees for other unitholders" in the "Additional Explanation of Fees and Costs" section below.

Each fee in this table may in some cases be negotiated with wholesale clients. For more information, refer to the explanation of "Differential fees, rebates and related payments" in the "Additional Explanation of Fees and Costs" section below.

[1] Please note the minimum investment in each Fund by an Authorised Participant is one Creation Unit unless the Responsible Entity agrees otherwise.
[2] Assumes the maximum contribution fee set out in Table 3.1 applies.
[3] Management fees and costs are made up of the management fee, recoverable expenses and indirect costs. For more information, refer to the "Additional Explanation of Fees and Costs" section below.
[4] Each Fund does not charge, and there is no right for the Responsible Entity to charge, a performance fee.
[5] In respect of each of the Betashares Global Robotics and Artificial Intelligence ETF, Betashares Asia Technology Tigers ETF, Betashares S&P Global High Dividend Aristocrats ETF and Betashares Global Quality Leaders ETF, this figure reflects the estimated net transaction costs

incurred by each Fund for the previous financial year ended 30 June 2026 and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or information was not available at the date of this PDS. In respect of the Betashares Space Industry ETF, as this Fund has been on issue for less than 11 months prior to the end of the previous financial year and was not first offered in the current financial year, the transaction costs reflect the Responsible Entity's reasonable estimate for the 12-month period of the current financial year, as at the date of this PDS. In respect of the Betashares Artificial Intelligence ETF, as the Fund is newly established, this figure reflects the net transaction costs that the Responsible Entity reasonably estimates will apply for the current financial year (adjusted to reflect a 12 month period), as at the date of this PDS. For more information, refer to "Transaction costs" under the "Additional Explanation of Fees and Costs" section below.

[6] Assumes the $50,000 is invested for the entire year and the $5,000 investment occurs on the last day of the year and therefore the fees and costs in this example are calculated using the $50,000 balance only.

## 3.3 ADDITIONAL EXPLANATION OF FEES AND COSTS

### 3.3.1 Management fees and costs

The management fees and costs for each Fund incorporate all relevant ongoing fees and other costs involved in managing each Fund and deriving investment returns. The management fees and costs comprise:

- Responsible Entity's management fee;
- recoverable expenses; and
- indirect costs.

Management fees and costs do not include:

- transaction costs, such as brokerage, transactional custodian fees, and other transaction fees associated with buying and selling each Fund's assets; and
- other costs that an investor would ordinarily incur when investing directly in each Fund's underlying assets.

(These costs are therefore not included in the management fees and costs set out in Table 3.1 and Table 3.2 above, but they are paid out of each Fund's assets).

### 3.3.2 Management fee

The management fee is charged by the Responsible Entity for managing each Fund and making it available to investors. It is calculated and accrued daily as a percentage of each Fund's Net Asset Value, and reflected in the daily Net Asset Value per Unit. The amount is deducted from each Fund's assets monthly on or after the first day of the following month.

### 3.3.3 Recoverable expenses

The recoverable expenses represent the operating expenses incurred in the operation of each Fund. Each Fund's Constitution allows all properly incurred expenses to be recovered from each Fund and does not place any limit on the amount or types of expenses that can be recovered.

The expenses normally incurred in the day to day operation of each Fund include custodian, fund administration, unit registry, ASX and audit costs (other than transaction costs described above) and will be recovered from each Fund and reflected in its Net Asset Value per Unit, except that in respect of the Betashares S&P Global High Dividend Aristocrats ETF, Betashares Space Industry ETF and Betashares Artificial Intelligence ETF, these expenses normally incurred and charged to the Fund will be paid by the Responsible Entity out of its own resources while this PDS is current. The Responsible Entity may withdraw or replace this PDS at any time.

In respect of each of the Betashares Global Robotics and Artificial Intelligence ETF, Betashares Asia Technology Tigers ETF, Betashares S&P Global High Dividend Aristocrats ETF and Betashares Global Quality Leaders ETF, the figures in the table below reflect recoverable expenses normally incurred per annum for each Fund as a percentage of the relevant Fund's Net Asset Value, which is the amount incurred by each Fund for the previous financial year ended 30 June 2026. In respect of the Betashares Space Industry ETF and Betashares Artificial Intelligence ETF, the recoverable expenses normally incurred by the Fund that will apply for the current financial year (adjusted to reflect a 12 month period) will be 0.00% p.a. of the Fund's Net Asset Value, as these expenses will be paid out of the Responsible Entity's own resources as and when they arise.

| | Recoverable expenses normally incurred per annum as a percentage of the Fund's Net Asset Value |
|---|---|
| Betashares Global Robotics and Artificial Intelligence ETF | 0.10% |
| Betashares Asia Technology Tigers ETF | 0.10% |
| Betashares S&P Global High Dividend Aristocrats ETF | 0.00% |
| Betashares Global Quality Leaders ETF | 0.06% |
| Betashares Space Industry ETF | 0.00% |
| Betashares Artificial Intelligence ETF | 0.00% |

Extraordinary expenses are expenses that are not normally incurred in the day to day operation of each Fund and are not necessarily incurred in any given year. They may include costs associated with holding unitholder meetings, changing each Fund's constitution, or defending or pursuing legal proceedings. Any such expenses will be recovered from each Fund and reflected in its Net Asset Value per Unit. The management fees and costs figure disclosed in Table 3.1 includes extraordinary expenses of nil, which is the amount incurred by each Fund, excepting the Betashares Space Industry ETF and Betashares Artificial Intelligence ETF, for the previous financial year ended 30 June 2026. In the case of Betashares Space Industry ETF and Betashares Artificial Intelligence ETF, the Responsible Entity, as at the date of this PDS, reasonably estimates that the extraordinary expenses of the Fund that will apply for the current financial year (adjusted to reflect a 12 month period) will be nil.

### 3.3.4 Indirect costs

Indirect costs are any amounts that we know or where required, reasonably estimate, will reduce each Fund's returns that are paid from each Fund's assets (other than the management fee, recoverable expenses, and transaction costs described elsewhere in this section) or that are paid from the assets of any interposed vehicle (such as an underlying fund) in which each Fund may invest.

The management fees and costs figure disclosed in Table 3.1 includes indirect costs of nil, which is the Responsible Entity's estimate of the amount incurred by each Fund for the previous financial year ended 30 June 2026, excepting the Betashares Space Industry ETF and the Betashares Artificial Intelligence ETF.

In respect of the Betashares Space Industry ETF, as this Fund has been on issue for less than 11 months prior to the end of the previous financial year and was not first offered in the current financial year, the nil figure in Table 3.1 reflects the indirect costs

that the Responsible Entity reasonably estimates for the 12-month period of the current financial year, as at the date of this PDS. In respect of the Betashares Artificial Intelligence ETF, as this Fund is newly established, the nil figure in Table 3.1 reflects the indirect costs that the Responsible Entity reasonably estimates that will apply for the Fund for the current financial year (adjusted to reflect a 12-month period), as at the date of this PDS.

### 3.3.5 Transaction costs

Each Fund incurs transaction costs, such as brokerage, clearing costs, transactional custodian fees and other transaction fees associated with buying and selling each Fund's assets.

Transaction costs also include costs incurred by an interposed vehicle that would be transaction costs if they had been incurred by each Fund. Transaction costs are an additional cost to investors (to the extent they are not off-set by the application and redemption fees charged by the Responsible Entity to Authorised Participants) and are not included in the management fees and costs shown in Table 3.1. Transaction costs reduce the Fund's Net Asset Value. How and when they are paid varies depending on the type of transaction cost. Certain costs, eg brokerage, are added to or deducted from the amounts payable from the Fund's assets or receivable by the Fund at the time of settlement in respect of investments purchased or sold for the Fund. Other costs, eg transactional custodian fees, are invoiced and paid from the Fund's assets according to a regular monthly or quarterly cycle.

Stamp duty, if any, forms part of transaction costs. For Australian stamp duty, if a Fund was first offered before the current financial year, stamp duty is calculated as one-seventh of the total stamp duty incurred during the applicable look-back period. The look-back period phases in progressively, from looking back one financial year (for disclosure during the year ending 30 June 2027) to seven financial years (for the years ending 30 June 2033 and onwards), or the number of financial years the Fund has been operating, if the Fund has not been in operation for the relevant number of years. If the Fund has operated for fewer financial years than the applicable look-back period, the calculation uses the financial years for which it has operated. For a Fund first offered in the current financial year, stamp duty is calculated using a reasonable estimate for that financial year, adjusted to reflect a 12-month period, and divided by seven. As at the date of this PDS, no Australian stamp duty has been incurred by any Fund.

In respect of each of the Betashares Global Robotics and Artificial Intelligence ETF, Betashares Asia Technology Tigers ETF, Betashares Global Quality Leaders ETF and Betashares S&P Global High Dividend Aristocrats ETF, the table below sets out the estimated total and net transaction costs borne by each Fund for the previous financial year ended 30 June 2026. In respect of the Betashares Space Industry ETF, as this Fund has been on issue for less than 11 months prior to the end of the previous financial year and was not first offered in the current financial year, the table below sets out the Responsible Entity's reasonable estimate for the 12-month period of the current financial year, as at the date of this PDS. In respect of the Betashares Artificial Intelligence ETF, the table below sets out the estimated total and net transaction costs for the current financial year (adjusted to reflect a 12 month period). Our estimate of the net transaction costs represents the total transaction costs minus the transaction costs reimbursed to the relevant Fund by the Responsible Entity for certain transaction costs out of the application and redemption fees it receives from Authorised Participants, as described in section 3.3.6. The net transaction costs are borne by each Fund.

| | Estimated total transaction costs per annum as a percentage of the Fund's Net Asset Value | Estimated net transaction costs per annum as a percentage of the Fund's Net Asset Value |
|---|---|---|
| Betashares Global Robotics and Artificial Intelligence ETF | 0.05% | 0.05% (or $25 for every $50,000 you have in the Fund) |
| Betashares Asia Technology Tigers ETF | 0.11% | 0.08% (or $40 for every $50,000 you have in the Fund) |
| Betashares S&P Global High Dividend Aristocrats ETF | 0.09% | 0.07% (or $35 for every $50,000 you have in the Fund) |
| Betashares Global Quality Leaders ETF | 0.03% | 0.02% (or $10 for every $50,000 you have in the Fund) |
| Betashares Space Industry ETF | 0.08% | 0.04% (or $20 for every $50,000 you have in the Fund) |
| Betashares Artificial Intelligence ETF | 0.05% | 0.03% (or $15 for every $50,000 you have in the Fund) |

The transaction costs estimate shown in the fees and costs summary in Table 3.1 is shown net of any amount for which the Responsible Entity reimburses each Fund out of the application and redemption fees it receives from Authorised Participants.

The amount of these costs can be expected to vary from year to year depending on the volume and value of transactions undertaken.

### 3.3.6 Application and redemption fees for Authorised Participants

No application fees or redemption fees are payable by investors who buy and sell Units on the ASX. However, brokerage charges may apply.

Subject to section 3.3.7 below, application fees and redemption fees will only be payable by Authorised Participants on an application for or redemption of Units directly with each Fund.

The applicable application and redemption fees are set out in Table 3.1 above and are paid by Authorised Participants to the Responsible Entity. Out of these fees, the Responsible Entity pays directly, or reimburses each Fund for, the estimated transaction costs associated with cash applications or redemptions.

The application and redemption fees payable by Authorised Participants seek to ensure that the transaction costs associated with applications and redemptions are borne by the transacting Authorised Participants and not by other investors.

### 3.3.7 Redemption fees for other Unitholders

Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.4. The redemption fee per Unit will not be greater than the redemption fee per Unit that would be payable by an Authorised Participant for a cash redemption when withdrawing the minimum parcel of Units.

### 3.3.8 Stockbroker fees

Investors may incur customary brokerage fees and commissions when buying and selling Units on the ASX, as for any listed or quoted security. Please consult a stockbroker for more information in relation to their fees and charges.

### 3.3.9 Can fees and costs change and what are the maximums?

Yes, fees and costs can change subject to maximums in each Fund's Constitution.

The Constitution limits the amount of the Responsible Entity's management fee to a maximum of 3% p.a. of each Fund's Net Asset Value (plus GST).

The Constitution of each Fund provides for the following maximum fees:

- a maximum contribution fee of 5% of the aggregate Issue Price of the Units applied for (plus GST);
- a maximum withdrawal fee of 5% of the aggregate Withdrawal Amount of the relevant Units (plus GST).

The Responsible Entity also has the right under the Constitution to recover from each Fund all expenses properly incurred in the performance of its duties.

As at the date of this PDS, the Responsible Entity does not have any intention to change the fees and costs described in this PDS, although it has the right to do so at any time without investor consent. Any increase in the fees for each Fund will be announced to the ASX via the Market Announcements Platform at least 30 days before it occurs.

Any estimates of fees and costs in this PDS are based on information available as at the date of this PDS. As such, the actual fees and costs may differ and are subject to change from time to time. Information in this PDS that is not materially adverse to investors is subject to change from time to time and may be updated by the Responsible Entity by publishing such information on the Betashares website at www.betashares.com.au. A paper copy of any updated information will be provided free of charge on request.

#### 3.3.10 Differential fees, rebates and related payments

The Responsible Entity may, from time to time, agree with wholesale clients to rebate or reduce some of the management or other fees on a case by case basis. The amount of fee reduction is at the Responsible Entity's discretion. The Responsible Entity will achieve these reductions and meet any rebates in relation to management fees by payments from its own resources. For more information, please contact the Responsible Entity at the address specified in the "Directory" section of the PDS.

Any reduction in management fees offered by the Responsible Entity to a wrap platform or master trust operator may be passed on to the clients of the operator or retained by the operator.

Subject to applicable law, the Responsible Entity may also pay one-off or annual product access payments to wrap platform or master trust operators for including each Fund in their offering. As of the date of this PDS, no product access payments have been made. The Responsible Entity would make any such payment from its own resources.

#### 3.3.11 Indirect investors

Indirect investors investing through a wrap platform or master trust should note that the fees outlined in this section 1 are in addition to any other fees and costs imposed by the wrap platform or master trust operator.

#### 3.3.12 Financial advisers

Additional fees may be paid to a financial adviser if you have consulted a financial adviser. You should refer to the Statement of Advice provided by your financial adviser in which details of the fees are set out.

#### 3.3.13 Taxation

Information in relation to taxation is set out in section 7 of this PDS.

# 4 RISKS

Unitholders in the Funds face a number of investment risks. There are risks associated with any investment. Generally, the higher the expected return of an investment, the higher the risk and the greater the variability of returns.

The market price and Net Asset Value per Unit can fluctuate within a wide range. When considering an investment in the Funds, personal tolerance for fluctuating market values should be taken into account.

The most common risks associated with investing in the Funds are described below, but there could be other risks that affect the performance of the Funds. The discussion below is general in nature. You should also read the Product Supplement for a discussion of any additional risks that are relevant to each specific Fund.

The Responsible Entity does not provide assurances or guarantees on future profitability, returns, distributions or return of capital. An investment in a Fund could lose money over short or long periods.

You should seek your own professional advice on the appropriateness of this investment to your circumstances. You should also consider how an investment in the Funds fits into your overall investment portfolio.

## 4.1 INVESTMENT OBJECTIVE RISK

There is no guarantee that a Fund's investment objective will be achieved or that an investment in a Fund will earn any positive return in the short or long-term.

## 4.2 MARKET RISK

Market risk is the risk that the value of a Fund's investment portfolio will fluctuate as a result of changes in market prices. The Funds invest in listed securities of companies that operate in global markets, each with different market risks. Changes in equity prices may result in a loss in the value of Units. Therefore, the market factors that drive changes in the prices of equities, including global events (such as natural disasters, wars and other conflicts, and outbreaks of infectious diseases), general economic conditions, investor sentiment and industry specific factors, can be expected to influence the value of Units. Share markets can be and have been volatile, and have the potential to fall by large amounts over short periods of time. This volatility may cause the value of an investment in a Fund to decrease.

## 4.3 SECURITY SPECIFIC RISK

Factors specific to a particular equity security may cause its return to differ from that of the broader market. Such factors may include changes in a company's operations, such as changes in management, or the loss of a significant customer, or changes in the market environment the company operates in, or actions by regulators or competitors. An Index that tracks the performance of a portfolio of equity securities, and hence a Fund linked to such an Index, may be sensitive to security specific risk for those securities which form a material component of the Index.

## 4.4 INDUSTRY SPECIFIC RISK

Factors specific to a particular market segment, such as an industry sector, may cause a Fund's returns to differ from that of the broader market. Such factors may include market estimations of future industry profitability, movements in input or output prices for companies operating in the industry and market sentiment.

## 4.5 INTERNATIONAL INVESTMENT RISK

International investments may be affected by political and economic uncertainties, lower regulatory supervision, different accounting and auditing standards, movements in foreign currency and interest rates, and more volatile, less liquid markets, compared with Australian investments.

A Fund may have some exposure to emerging markets. Emerging markets are generally considered riskier than developed markets due to factors such as lower liquidity, the potential for political unrest, the increased likelihood of sovereign intervention (including default and currency intervention), currency volatility, repatriation of both investment income and capital may be subject to restrictions, and increased legal risk. In addition, there may be less publicly available information about issuers, and inconsistent and potentially less stringent accounting, auditing and financial reporting requirements and standards of practice comparable to those applicable in developed markets.

Emerging market investments therefore may experience increased asset price volatility, and face higher currency, default and liquidity risk.

## 4.6 COUNTRY RISK

Country risk is the risk that the assets of a Fund may fluctuate in value due to political and/or financial events in the relevant country of domicile. The Funds invest in securities from one or more overseas countries.

## 4.7 SMALLER COMPANIES RISK

A Fund's investments may include smaller companies to a greater or lesser extent, which may be more vulnerable to adverse general market or economic developments, and their securities may be less liquid and may experience greater price volatility than larger, more established companies as a result of several factors, including limited trading volumes, products or financial resources, management inexperience, less publicly available information, and unproven business models. Accordingly, such companies are generally subject to greater market risk than larger, more established companies, and may underperform other segments of the market or the equity market as a whole.

## 4.8 CONCENTRATION RISK

A significant percentage of a Fund's underlying Index may be comprised of securities concentrated in a single industry sector or only a small group of industry sectors. Similarly, a significant percentage, or all, of a Fund's underlying Index may be comprised of securities from a single country or only a small group of countries. At times, such sector(s)/ countries may underperform other sectors/countries, causing a greater impact on the value of a Fund's Units than would be the case if the Index were more broadly diversified over numerous industry sectors/countries.

## 4.9 FOREIGN EXCHANGE RISK

Foreign exchange risk is the risk that the Australian dollar value of Fund assets denominated in foreign currencies will increase or decrease as a result of exchange rate fluctuations.

If the currency in which an investment of a Fund is denominated depreciates relative to the Australian dollar, then the value of that investment (in Australian dollar terms, and assuming no other changes) will decrease (and vice versa).

## 4.10 SAMPLING RISK

Funds that employ a sampling strategy (as specified in the relevant Product Supplement) invest in only some of the constituents of the relevant Index. For such Funds, there is a risk that the sampling strategy could result in tracking error between the performance of the sample portfolio held by the Fund, and the performance of the Index. This means there may be a difference between the performance of a Fund and the performance of the underlying Index for the Fund. See 'Risk of Index Tracking Error' for further information.

## 4.11 DERIVATIVES RISK

Derivatives will only be used in limited circumstances and will not be used to leverage a Fund. The primary risks associated with the use of derivatives are:

- the values of the derivative failing to move in line with the underlying asset;
- the potential lack of liquidity of the derivative;
- the potential to incur substantial losses in excess of the initial amount invested;
- the possibility that the derivative position is difficult or costly to manage or reverse;
- a Fund may not be able to meet payment obligations as they arise, including any requirements to make margin payments;
- the counterparty to the derivative contract may not meet its obligations under the contract (including failing to meet collateral requirements under the arrangement);
- to the extent that a Fund has unrealised gains in such instruments or has deposited collateral with its counterparty, such Fund is at risk that its counterparty will become bankrupt or otherwise fail to honour its obligations;
- Over-the-counter markets are not guaranteed by an exchange or clearing corporation;
- the collateral obligations in respect of margin requirements on derivative contracts can cause liquidity issues if insufficient collateral is available; and
- the electronic platforms on which some derivatives are traded are subject to risks related to system access, varying response times, security and system failure.

Any of the above factors could cause a Fund to incur losses, suffer increased costs, fail to realise gains or fail to achieve a high correlation with the performance of the Index.

The Responsible Entity will aim to ensure that there is sufficient cash and other liquid assets available in the Fund at all times to meet any payment obligations under derivatives.

## 4.12 GENERAL REGULATORY RISK

This is the risk that a government or regulator may introduce regulatory and/or tax changes, or a court makes a decision regarding the interpretation of the law, which affects the value of the Units or the tax treatment of a Fund and its Unitholders.

The Funds may be affected by changes to legislation or government policy in Australia or in overseas countries. These changes are monitored by the Responsible Entity and action is taken, where appropriate, to facilitate the achievement of the investment objective of each Fund. The Responsible Entity may not always be in a position to take such action.

## 4.13 TAX RISK

A Fund's returns may be affected by the deduction of withholding taxes from income payments received from offshore jurisdictions.

Taxation law is complex and subject to changes by the Australian Government, possibly with retrospective effect.

As the circumstances of each investor are different, the Responsible Entity strongly recommends that investors obtain professional independent tax advice relating to the tax implications of investing in and dealing in Units.

Unitholders redeeming their Units should note the risk of potentially adverse tax implications where the Units are not held as trading stock or as revenue assets and should seek their own advice in this regard. The tax implications of redemption may be different to selling Units on the ASX. These and other taxation matters are dealt with in section 7 of this PDS.

## 4.14 MANAGER RISK

This is the risk that the Responsible Entity's investment strategy is not successful, or not successfully implemented, resulting in a Fund failing to meet its objectives. No assurance can be given that the trading systems and strategies utilised by the Responsible Entity or any investment manager appointed by it will prove successful under all or any market conditions.

## 4.15 FUND RISK

There is a risk that a Fund could terminate, that the Fund's investment objective or investment strategy or fees and expenses could change or that the Responsible Entity may not be able to continue to act, for example if it loses its Australian financial services licence (in which case it could be replaced as responsible entity of a Fund or a Fund could be wound up). Any replacement responsible entity might achieve different results for investors, positive or negative, than would otherwise be the case.

There is also a risk that investing in a Fund may give a different result than investing directly into the constituents or assets that make up the Fund's underlying Index.

## 4.16 OPERATIONAL RISK

A Fund's day to day operations may be adversely affected by circumstances beyond the reasonable control of the Responsible Entity, such as failure of technology or infrastructure, or natural disasters. A breakdown in administrative procedures and risk control measures implemented by the Responsible Entity or its service providers may also adversely affect the operation and performance of the Fund.

## 4.17 EFFECT OF APPLICATIONS AND REDEMPTIONS ON DISTRIBUTIONS

The distribution per Unit amount for a distribution period may be affected by application and redemption activity during the period and therefore there is no assurance that the yield on a Fund's Units will be same as the yield on the securities in the Fund's underlying Index. The issue of Units during a distribution period will tend to reduce the amount of the distribution per Unit for that period (which will be associated with a smaller decline in the NAV per Unit at the time of the distribution). Conversely, the redemption of Units during a distribution period will tend to increase the amount of the distribution per Unit for that period (which will be associated with a larger decline in the NAV per Unit at the time of the distribution).

## 4.18 TRADING RISK

In certain circumstances, the ASX may suspend trading of the Units of a Fund and in that event Unitholders would not be able to buy or sell Units of that Fund on the ASX. In these circumstances, the Responsible Entity may suspend the application and redemption process.

There may be other occasions where the Responsible Entity may suspend the application and redemption process, such as around the end of a distribution period or where other factors prevent the accurate calculation of Unit prices, such as the suspension or restriction of trading in securities that form part of the Index. This may cause a Fund's Units to be suspended from trading on the ASX. Cash applications and redemptions may further be suspended where a national holiday applies for one or more countries in the Index. Although it should be possible for investors to trade in Units in each Fund on ASX at such times, the suspension may affect the relationship between the market price of Units and their underlying value.

The ASX also imposes certain requirements for Units to continue to be quoted. The Responsible Entity will endeavour to meet these requirements at all times to ensure the Units remain quoted, although there can be no assurance that Units will remain quoted on the ASX. Under these circumstances, the Responsible Entity may take measures such as suspending the application and redemption process or potentially terminating a Fund.

## 4.19 LIQUIDITY RISK

Although the Units will be quoted on the AQUA market of the ASX there can be no assurances that there will be a liquid market for Units. The Responsible Entity has in place market making arrangements to assist in maintaining liquidity for the Funds on the ASX. The Responsible Entity cannot guarantee that a market maker will fulfil its obligations or that a market maker will continue to be appointed. The market making arrangements agreed by the Responsible Entity with each market maker also specify certain permitted circumstances where the market making obligations may be suspended (such as operational disruptions, market disruptions or unusual conditions (including those which make the market maker's ability to perform the market making function impossible, impracticable or unduly onerous such as an unusually volatile or "fast market"), other events set out in the ASX Operating Rules, the suspension or rejection of applications for Units or redemption requests, or the market maker not having ASIC relief to allow short selling of Units). If a market maker defaults on its obligations, the Responsible Entity may seek to replace the market maker, although the arrangements with the market maker may limit or exclude any liability on the part of the market maker.

In addition, there is the risk that one or more assets held by a Fund may suffer from restricted or limited liquidity, which may be associated with wider than usual bid-offer spreads for such assets, preventing the Fund from closing out certain positions or rebalancing in a timely manner and at a fair price. The bid-offer spread for Units can be expected to increase if there is decreased liquidity for underlying securities and/or their bid-offer spreads widen due to market conditions.

A Fund's monthly average bid-offer spread will be reported in the ASX Investment Products Monthly Update, which can be viewed on the ASX's website at www.asx.com.au.

## 4.20 TRADING PRICE OF UNITS MAY DIFFER FROM NET ASSET VALUE PER UNIT

As with any exchange traded fund, it is possible that the trading price of Units on the ASX may differ from the Net Asset Value per Unit. The trading price is dependent on a number of factors including the demand for and supply of Units, investor confidence, the availability of market maker services during the course of the trading day, the bid-offer spread charged by a market maker and how closely the value of the assets of the Fund tracks the performance of the relevant Index. The trading price may be affected if there is a suspension of the application and redemption process. The application and redemption facility is designed to reduce the likelihood of Units trading at a significant discount or premium to the Net Asset Value per Unit. If the application or redemption facility for a Fund is closed on a particular day, the trading price might diverge further from the Net Asset Value per Unit.

If the trading of securities or assets which form part of an Index is suspended or restricted, the Net Asset Value of a Fund that tracks such an Index may also be affected.

The Net Asset Value per Unit of a Fund may be calculated as at a time that is significantly later than the ASX market close. As a consequence, there is an increased risk of a divergence between the last trade price for Units and the Net Asset Value per Unit for that day.

Periods of increased market volatility or disruptions to the market making function may result in wider bid-offer spreads for Units and trading prices that differ significantly from a Fund's Net Asset Value per Unit. This risk may be higher in the period shortly after the ASX opens for trading and near the close of trading. If an investor purchases Units at a time when the market price is at a premium to the Net Asset Value per Unit or sells at a time when the market price is at a discount to the Net Asset Value per Unit, then the investor may sustain losses. Investors should consider placing "limit orders" to reduce the risk of trading at unfavourable prices.

## 4.21 SETTLEMENT RISK

The application and redemption processes associated with the issue or redemption of Units are subject to settlement procedures through CHESS. A Fund is exposed to some risk if an Authorised Participant or other market participant fails to comply with its settlement obligations. These risks are mitigated by the fact that Authorised Participants and other market participants are subject to usual CHESS trading practices including sanctions for failure to comply with obligations. A Fund may also suffer loss if an Authorised Participant fails to deliver the application consideration for Units, or redeliver Units in relation to a redemption, by the settlement time and the Fund has entered into transactions in reliance on delivery occurring.

## 4.22 INDEX RISK

Each Fund aims to provide Unitholders with a return that tracks the return of the relevant Index before fees and expenses. Each Fund will therefore employ a "passive" management approach, which means that the Responsible Entity will not seek to reposition investments in an attempt to avoid or limit any underperformance of a security held in the portfolio.

Occasionally, the published Index return may differ from what would be expected under the accepted index calculation methodology. The Index provider may or may not re-publish, restate, or advise market participants of an adjusted or corrected figure.

As described in section 6.2.7, the sponsor of an Index may change the Index methodology or stop publishing the Index, or the Responsible Entity's licence to use the Index may terminate, in which case the Responsible Entity may change the index for a Fund. The Net Asset Value of a Fund may be adversely affected by such adjustments.

## 4.23 RISK OF INDEX TRACKING ERROR

A Fund should not be expected to track the performance of an Index exactly, automatically and continuously. A Fund's returns may not match the returns of the underlying Index for various reasons. For example, a Fund will incur fees, operating expenses and transaction costs in buying and selling securities, which are not applicable to the underlying Index. In addition, performance may differ due to differences between a Fund's portfolio and the underlying Index resulting from regulatory or other investment restrictions, liquidity or other constraints, differences between the timing of investment transactions and the valuation time for determining a Fund's net asset value, a Fund's need to hold an amount of cash to pay fees and expenses, a Fund employing a sampling strategy, or other factors.

## 4.24 EARLY CLOSING RISK

Unanticipated early closings of a securities exchange on which securities held by a Fund are traded may result in a Fund being unable to sell or buy securities on that day. If the relevant exchange closes early on a day when a Fund needs to execute a high volume of securities trades late in the trading day (in order to implement application or redemption requests), the Fund may incur trading losses or fail to replicate the relevant Index.

## 4.25 COUNTERPARTY RISK

Counterparties used in connection with a Fund's investment activities may default on their obligations, for instance by failing to make a payment when due. This may be due to insolvency or other events of default. Such counterparties may include service providers and derivatives counterparties, as well as the Fund's custodian. Default on the part of a counterparty could result in financial loss to the Fund.

## 4.26 CYBER-SECURITY RISK

With the increased use of technology to conduct business, the Responsible Entity, the Funds and their service providers can be susceptible to information security and related risks including cyber-security attacks or incidents.

Cyber incidents can result from deliberate attacks or unintentional events, and include gaining unauthorised access to digital systems, networks or devices for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorised access, such as causing denial-of-service attacks on websites (i.e. efforts to make network services unavailable to intended users).

Cyber-security breaches may cause disruptions to the Funds' operations, potentially resulting in financial loss.

# 5 HOW TO BUY AND SELL UNITS

**Only Authorised Participants may apply for Units directly through this PDS.**

**Other investors cannot apply for Units through this PDS. Such investors may buy and sell Units by trading on the ASX through a stockbroker or via a financial adviser.**

Prior to being issued Units, an Authorised Participant must execute an Authorised Participant Agreement that deals with, amongst other things, the rights and obligations of the Authorised Participant in relation to applying for Units. See "Applications and Redemptions" below for further information about the Authorised Participant Agreement.

Unitholders who are not Authorised Participants may only redeem Units in the special circumstances described in section 5.4. However, all Unitholders may normally sell their Units by trading on the ASX.

To effect an application or redemption, Authorised Participants must complete the Application Form or Redemption Form that accompanies this PDS or is available from www.betashares.com.au/authorised-participants or by calling Client Services on +1300 487 577 (within Australia) +61 2 9290 6888 (outside Australia).

Applications for, and redemptions of, Units will be settled through the CHESS system.

## 5.1 MINIMUM APPLICATIONS AND REDEMPTIONS

The minimum application and redemption amount is one Creation Unit, unless otherwise agreed with the Responsible Entity. The number of Units that constitute a Creation Unit for each Fund is determined by the Responsible Entity and notified to Authorised Participants.

Applications and redemptions must be for whole multiples of Creation Units, unless otherwise agreed with the Responsible Entity.

Application and redemption amounts are payable or receivable (as applicable) in cash in Australian dollars, unless otherwise agreed with the Responsible Entity.

## 5.2 PROCESSING OF APPLICATIONS AND REDEMPTIONS

Application/Redemption forms received from Authorised Participants before the Dealing Deadline on a Dealing Day are processed at the Issue Price/Withdrawal Amount (being the Net Asset Value per Unit) for the Fund applicable to that day.

Application/Redemption forms received from Authorised Participants on or after the Dealing Deadline on a Dealing Day, or on a non-Dealing Day, will be treated as being received on the next Dealing Day.

## 5.3 APPLICATIONS AND REDEMPTIONS

For applications, Authorised Participants must deliver to the Responsible Entity or custodian an amount of Australian dollars equal to the Issue Price for the relevant Units, plus the application fee. In return, they will receive the relevant Units.

For redemptions, Authorised Participants must deliver, or arrange for delivery of, the relevant Units to the Responsible Entity or custodian. In return, they will receive an amount of Australian dollars equal to the Withdrawal Amount for the relevant Units, less the redemption fee.

Details of the amounts payable pursuant to applications, or receivable upon redemptions, will be notified to the Authorised Participant by the ASX Business Day following the effective date of the application or redemption.

An Australian dollar cash application received by the Dealing Deadline (on day T) will generally enable the Authorised Participant to receive the new Units in its CHESS account one ASX Business Day later (T+1), provided the Authorised Participant has paid the application consideration and application fee by no later than the standard CHESS settlement cut-off time (11:30am as at the date of this PDS) on that settlement day or as otherwise agreed with the Authorised Participant. Units will generally be issued on the ASX Business Day after the trade date and quoted with effect from the settlement of the issue of the relevant Units through CHESS.

A redemption request received by the Dealing Deadline (on day T) will generally enable the Authorised Participant to receive the redemption payment (less the redemption fee) four ASX Business Days later (T+4), provided the Authorised Participant has transferred the Units by no later than the standard CHESS settlement cut-off time (11:30am as at the date of this PDS) on T+4 or as otherwise agreed with the Authorised Participant.

The relevant settlement period for applications and redemptions may be extended to accommodate applicable overseas public holidays or other days on which an exchange, on which the Fund's portfolio of investments is traded, is closed on the Dealing Day or during the settlement period.

By signing an Authorised Participant Agreement, an Authorised Participant agrees to be bound by certain execution and settlement procedures in relation to applications for and redemptions of Units which are set out in the Authorised Participant Agreement. Settlement failure procedures apply if an Authorised Participant does not comply with its obligations under the procedures. The procedures allow the Responsible Entity to cancel an application or redemption in certain circumstances and to take certain other action. The Responsible Entity may also reject any application in whole or in part at any time, without giving reasons.

## 5.4 UNITHOLDER REDEMPTIONS IN SPECIAL CIRCUMSTANCES

All Unitholders may normally sell their Units by trading on the ASX. Unitholders who are not Authorised Participants will not normally have a right to redeem their Units directly with the Fund. However, all Unitholders will have a right to a cash redemption and to

receive payment within a reasonable time if Units are suspended from quotation on the ASX for more than five consecutive trading days, unless:

- the Fund is being wound up;
- the Fund is not "liquid" as defined in the *Corporations Act*; or
- the Responsible Entity has suspended redemptions in accordance with the Constitution.

Unitholders may redeem in these circumstances by completing the Redemption Form attached to this PDS. They will receive cash in Australian dollars equal to the aggregate Withdrawal Amount for the relevant Units (less any redemption fee).

No minimum redemption amount will apply.

## 5.5 SUSPENSIONS OF APPLICATIONS AND REDEMPTIONS

There may be occasions where the Responsible Entity may suspend the issue of units or delay or reject redemption requests. This may occur, for example, around the end of a distribution period when the Responsible Entity is calculating and paying the distributable income for the relevant period or where there are factors, as determined by the Responsible Entity, which prevent the accurate calculation of Unit prices. The Responsible Entity will advise Unitholders of any suspension of applications or delay or rejection of redemptions.

Where the Responsible Entity cannot accurately determine the Net Asset Value per Unit, the Responsible Entity may suspend applications for Units and/or delay or reject redemptions of Units.

The Responsible Entity may also scale down redemptions in certain circumstances.

See section 6.2.8 and 6.2.9 for further information.

## 5.6 VALUATIONS AND PRICING

The amount per Unit payable by an Authorised Participant upon an application for Units is known as the Issue Price, and is equal to the Net Asset Value per Unit.

The amount per Unit to which an Authorised Participant (or other Unitholder as described in section 5.4) is entitled on the redemption of Units is known as the Withdrawal Amount, and is equal to the Net Asset Value per Unit.

The Issue Price and the Withdrawal Amount are calculated in the same manner and will have the same value at any time. This value is determined by dividing the Net Asset Value of the Fund by the number of Units on issue in the Fund at the time the Issue Price and/or Withdrawal Amount are determined (the valuation time).

The assets held by the Fund are normally valued at the "closing price" for the day for the relevant security on its relevant market and converted to Australian dollars using 4pm London time exchange rates for currency markets, unless otherwise determined by the Responsible Entity.

The Withdrawal Amount paid to a Unitholder on the redemption of Units may include a distribution of the distributable income of the Fund. Please refer to section 7.1.6 for information regarding how this entitlement is determined.

The Net Asset Value of a Fund is calculated by deducting from the aggregate value of the assets of the Fund all liabilities such as accrued fees and other costs, and provisions relating to the Fund. Fees and other costs, including the Responsible Entity's fees, are normally accrued daily. A Fund's assets reflect their market value. The valuation methods applied by the Responsible Entity to value the Fund's assets and liabilities must be consistent with the range of ordinary commercial practice for valuing them.

Details of the daily Net Asset Value per Unit (and hence the Issue Price and Withdrawal Amount) will be made available on the Betashares website at www.betashares.com.au.

# 6 ADDITIONAL INFORMATION

## 6.1 THE ROLE OF CERTAIN ENTITIES IN REGARD TO BETASHARES FUNDS

There are a number of parties, in addition to the Responsible Entity, involved in the ongoing operation and administration of the Funds or who otherwise provide services in connection with the Funds:

### 6.1.1 Custodian and Administrator

The custodian provides custodial services to the Responsible Entity, including holding the assets of the Funds. The custodian may, from time to time, appoint sub-custodians. The custodian has a limited role and has no obligation to monitor whether the Responsible Entity is complying with its obligations as responsible entity of the Fund.

The administrator provides administration services to the Responsible Entity. These services include fund accounting, maintenance of books and records, calculating distribution amounts, valuing the Fund's assets and liabilities, calculating the Issue Price and Withdrawal Amount, and taxation and other services. The Responsible Entity may change the custodian and administrator without prior notice to Unitholders.

As of the date of this PDS, the custodian and administrator is:

Citigroup Pty Limited
Level 23
2 Park Street
Sydney NSW 2000

### 6.1.2 Registrar

As for any quoted security, the role of the Registrar is to keep a record of the Unitholders in the Funds. This includes details such as the quantity of Units held, tax file numbers (if provided) and details of distribution reinvestment plan participation. The Responsible Entity may change the Registrar without prior notice to Unitholders.

As of the date of this PDS, the registrar is:

MUFG Corporate Markets
Level 41
Liberty Place, 161 Castlereagh Street
Sydney NSW 2000

### 6.1.3 Market maker

The role of a market maker is to provide liquidity in the market for Units and to satisfy supply and demand for Units. They do this by:

- Subject to certain conditions, providing liquidity to the market through acting as the buyer and seller of Units during a significant part of the trading day; and
- Creating and redeeming Units in the primary market pursuant to this PDS, which helps to ensure the number of Units on issue matches supply and demand.

The Responsible Entity seeks to appoint market making firms: that have experience in making markets in exchange-traded securities in Australia or internationally; that have the necessary skill and expertise to perform market making functions; and that are ASX participants (or trade through an ASX participant). To qualify for admission as an ASX participant, a firm must meet admission requirements set out in the ASX Operating Rules, which require the firm to hold an Australian financial services licence that authorises it to carry on its business as a market participant and to satisfy the ASX of various matters including organisational competence and business integrity.

Information about the market maker(s) selected by the Responsible Entity from time to time can be obtained by contacting the Responsible Entity.

The arrangements with the market maker specify certain permitted circumstances where the market making obligations may be suspended (such as operational disruptions, market disruptions or unusual conditions (including those which make the market maker's ability to perform the market making function impossible, impracticable or unduly onerous such as an unusually volatile or "fast market"), other events set out in the ASX Operating Rules, the suspension or rejection of applications for Units or redemption requests, or the market maker not having ASIC relief to allow short selling of Units). If a market maker defaults on its obligations, the Responsible Entity may seek to replace the market maker, although the arrangements with the market maker may limit or exclude any liability on the part of the market maker. The arrangements with the market maker may also provide that the market maker has no liability or responsibility to Unitholders for any act or omission made in connection with the market making arrangements.

Unitholders should be aware that a market maker will retain for its own account any trading profit and bear any loss which may be generated by its market making activities. Subject to the AQUA Rules and the agreement with the market maker, the Responsible Entity may appoint or terminate a market maker in respect of a Fund. The Responsible Entity may determine to no longer appoint a market maker in respect of a Fund in circumstances where it is no longer required to do so under the AQUA Rules.

### 6.1.4 Auditor

The Responsible Entity has appointed KPMG as the auditor of the financial statements of the Funds and of the Responsible Entity's compliance plan for the Funds.

### 6.1.5 Monitoring of service providers

The Responsible Entity has procedures in place to monitor the performance of those service providers to whom functions have been outsourced. Monitoring methods include, where appropriate, daily observation of service provider performance, review of regular compliance and audit reports, regular meetings with service providers and performance assessments.

## 6.2 OTHER INFORMATION YOU NEED TO KNOW

### 6.2.1 Betashares as the responsible entity

Betashares, as the responsible entity, is responsible for the management and administration of the Funds. The Responsible Entity holds an Australian Financial Services Licence (AFSL 341181) that authorises it to act as the responsible entity of the Funds. The powers and duties of the Responsible Entity are set out in the Constitution of each Fund, the *Corporations Act* and general trust law.

The Responsible Entity has the power to appoint an agent, or otherwise engage a person, to do anything that it is authorised to do in connection with a Fund and, for the purpose of determining whether the Responsible Entity has properly performed its duties as responsible entity, the Responsible Entity is taken to have done (or failed to do) anything that the agent or person has done (or failed to do) because of the appointment or engagement, even if they were acting fraudulently or outside the scope of their authority or engagement.

### 6.2.2 The Constitution

Each Fund is a registered managed investment scheme governed by a Constitution. Under the Constitution of each Fund, the Responsible Entity has all the powers it is possible to confer on a trustee as though it were the absolute owner of the Fund's assets and acting in its personal capacity. The Constitution for each Fund sets out the rights of the Unitholders and the obligations of the Responsible Entity, as responsible entity of the Fund. This PDS outlines some of the more important provisions of the Constitutions of the Funds, all of which are substantially identical in terms of their material provisions.

A copy of the Constitution in relation to a Fund may be inspected by Unitholders at the Responsible Entity's office, during business hours. The Responsible Entity will provide Unitholders with a copy of the relevant Constitution upon request.

### 6.2.3 Amendments to the Constitution

The Responsible Entity may amend the Constitution of a Fund from time to time, subject to the provisions of the Constitution and the *Corporations Act.* Generally, the Responsible Entity can only amend the Constitution where the Responsible Entity reasonably considers that the change will not adversely affect the rights of Unitholders. Otherwise, the Constitution can only be amended if approved at a meeting of Unitholders by a resolution approved by at least 75% of the votes cast by Unitholders entitled to vote on the resolution.

### 6.2.4 The compliance plan

The Responsible Entity has prepared and lodged a compliance plan for each Fund with ASIC. The compliance plan sets out the key criteria that the Responsible Entity will follow to ensure that it is complying with the *Corporations Act* and the Constitutions of the Funds. Each year the compliance plan, and the Responsible Entity's compliance with the compliance plan, will be independently audited, as required by the *Corporations Act,* and the auditor's report will be lodged with ASIC.

### 6.2.5 The compliance committee

The Responsible Entity has established a compliance committee with a majority of members that are external to the Responsible Entity. The compliance committee's functions include:

- monitoring the Responsible Entity's compliance with the compliance plans and reporting its findings to the Responsible Entity;
- reporting breaches of the *Corporations Act* or the Constitution to the Responsible Entity;
- reporting to ASIC if the committee is of the view that the Responsible Entity has not taken or does not propose to take appropriate actions to deal with breaches reported to it by the committee; and
- assessing the adequacy of the compliance plan, recommending any changes and reporting these to the Responsible Entity.

### 6.2.6 Unit pricing policy

The Responsible Entity has documented its policy on how it exercises discretions when determining Unit prices for the Funds. The policy has been designed to meet the ASIC requirements and is available on request to all Unitholders and prospective Unitholders at no charge.

### 6.2.7 Change of Index

Subject to the contractual arrangements with any Index provider, it is possible that the Responsible Entity may change the Index applicable to a Fund. This may be for reasons such as (but not limited to):

i. the Index provider ceases to publish the particular Index or materially changes the methodology or constituents of the Index;

ii. a new index becomes available which supersedes the existing Index;

iii. a new index becomes available which is, in the opinion of the Responsible Entity, more cost effective for a Fund and/or is regarded as the market standard for investors in the particular market and/or would be regarded as of greater benefit to the Unitholders (for reasons including a reduction in transaction costs) than the existing Index;

iv. it becomes difficult to invest in securities comprised within the particular Index;

v. the Index provider increases its charges to a level which the Responsible Entity considers too high or if any Index licence provided by an Index provider in connection with the use of the Index is terminated; or

vi. the quality (including accuracy and availability of data) of a particular Index has, in the opinion of the Responsible Entity, deteriorated.

### 6.2.8 Suspensions of applications and redemptions

The Constitution of each Fund allows the Responsible Entity to suspend the issue of Units in the Fund by publishing a notice to that effect. Application forms received during a period of suspension may be rejected or treated as received when the period of suspension ceases. The Responsible Entity may also reject any application in whole or in part at any time without giving reasons.

The Constitution of each Fund provides that, in some circumstances, the period for satisfaction of redemption requests (generally four ASX Business Days) may be extended, or that redemption requests may be suspended or rejected for as long as the relevant circumstances apply. Those circumstances are where:

i. the Responsible Entity has taken all reasonable steps to realise sufficient assets to pay amounts due in respect of Units to which a redemption request applies and is unable to do so due to circumstances outside its control, such as restricted or suspended trading in the market for an asset;

ii. the Responsible Entity believes that it is impracticable or not possible to transfer, in the manner acceptable to the Responsible Entity, sufficient assets to satisfy the redemption request (for example, because of disruption to a settlement or clearing system);

iii. the Responsible Entity believes that it is not practicable to determine the redemption securities or carry out the calculations necessary to satisfy the redemption request (for example, because an index on which the redemption securities component is to be based is not compiled or published, or it is impracticable to calculate the Net Asset Value because of restricted or suspended trading in the market for an asset or because the value of any asset cannot otherwise promptly or accurately be ascertained);

iv. the quotation of any Units on the ASX is suspended or the trading of any Units is otherwise halted, interrupted or restricted by the ASX, or the trading of any Units is subject to a period of deferred settlement, or there is a period during which the Units are subject to a consolidation or division;

v. the Units cease to be admitted to trading status on the ASX;

vi. a redemption request is received in a financial year and the Responsible Entity determines that the date on which the completion of the redemption of the Units would otherwise occur would be in the next financial year;

vii. a redemption request is received during any period before or after a distribution date which period the Responsible Entity determines to be necessary or desirable to facilitate the calculation and distribution of distributable income;

viii. the Responsible Entity does not consider that it is in the best interests of Unitholders of the Fund taken as a whole to transfer or realise sufficient assets to satisfy the redemption request; or

ix. the Responsible Entity believes that assets cannot be realised at prices that would be obtained if assets were realised in an orderly fashion over a reasonable period in a stable market.

### 6.2.9 Spreading redemption requests

The Constitution of each Fund provides that, if the Responsible Entity receives one or more redemption requests in respect of a particular valuation time that seek the redemption in aggregate of more than 10% of the total number of Units on issue, the Responsible Entity may scale down pro rata each redemption request so that no more than 10% of the number of Units on issue will be redeemed in respect of that valuation time. If a redemption request is scaled down in this way, the relevant Unitholder shall be deemed to have made a redemption request with respect to the unsatisfied balance of the Units the subject of the redemption request and that request will be deemed to have been received immediately following the first valuation time. The balance of such unsatisfied redemption request will be satisfied in priority to any subsequently received redemption request and will generally be satisfied in full no later than the 10th valuation time following the first valuation time.

### 6.2.10 Non-Authorised Participant redemption request

If there are no Authorised Participants, the Responsible Entity may accept a redemption request from a person who is not an Authorised Participant, provided such person is an Australian resident at the time of giving the redemption request.

### 6.2.11 Information relating to redemptions

The information in section 5 relating to redemptions assumes that each Fund is liquid within the meaning of section 601KA of the *Corporations Act*. A Fund will be liquid if at least 80% of its assets, by value, are liquid assets under the *Corporations Act*. Broadly, liquid assets include money in an account or on deposit with a bank, bank accepted bills, marketable securities and other property which the Responsible Entity reasonably expects can be realised for its market value within the period specified in the Constitution for satisfying redemption requests. At the date of this PDS, the Responsible Entity expects that each Fund will be liquid under the *Corporations Act*. If a Fund is not liquid, a Unitholder will not have a right to redeem Units and can only redeem where the Responsible Entity makes a withdrawal offer to Unitholders in accordance with the *Corporations Act*. The Responsible Entity is not obliged to make such offers.

### 6.2.12 Rights of a Unitholder

A Unit confers a beneficial interest on a Unitholder in the assets of a Fund but not an entitlement or interest in any particular part of the Fund or any asset.

The terms and conditions of the Fund's Constitution are binding on each Unitholder in the Fund and all persons claiming through them respectively, as if the Unitholder or person were a party to the Constitution.

### 6.2.13 Reimbursement of expenses

In addition to any other indemnity which the Responsible Entity may have under a Fund's Constitution or at law, the Responsible Entity is indemnified and entitled to be reimbursed out of, or paid from, the assets of the relevant Fund for all liabilities, losses and expenses incurred in relation to the proper performance of its duties as responsible entity of that Fund.

### 6.2.14 Retirement of Betashares

Betashares may retire as responsible entity of a Fund by calling a meeting of Unitholders to enable Unitholders to vote on a resolution to choose a company to be the new responsible entity. The Responsible Entity may be removed from office by an extraordinary resolution (i.e. a resolution passed by at least 50% of the total votes that may be cast by Unitholders entitled to vote on the resolution) passed at a meeting of Unitholders, in accordance with the *Corporations Act.*

### 6.2.15 Termination

The Responsible Entity may wind up a Fund at any time. Following winding up, the net proceeds will be distributed to Unitholders pro-rata according to the number of Units they hold.

### 6.2.16 Limitation of liability of Unitholders

The Constitution of each Fund provides that the liability of each Unitholder is limited to the amount subscribed, or agreed to be subscribed, by the Unitholder, subject to:

i. the indemnities each Unitholder gives the Responsible Entity for losses or liabilities incurred by the Responsible Entity:

   a. in relation to the Unitholder's failure to provide requested information;

   b. for tax or user pays fees as a result of a Unitholder's action or inaction, any act or omission by the Unitholder or any matter arising in connection with the Units held by the Unitholder;

c. in relation to the Unitholder paying or failing to pay the issue price or application or redemption fees in accordance with the constitution or otherwise failing to comply with the constitution; and

ii. execution and settlement procedures prescribed by the Responsible Entity that relate to the issue and redemption of Units.

Subject to the matters described above, a Unitholder is not required to indemnify the Responsible Entity or a creditor of the Responsible Entity against any liability of the Responsible Entity in respect of the Fund. However, no complete assurance can be given in this regard, as the ultimate liability of a Unitholder has not been finally determined by the courts.

### 6.2.17 Meeting of Unitholders

The Responsible Entity may convene a meeting of Unitholders of a Fund at any time, (e.g. to approve certain amendments to a Fund's Constitution or to wind up the Fund). The *Corporations Act* provides that Unitholders also have limited rights to call meetings and have the right to vote at any Unitholder meetings. Except where that Fund's Constitution provides otherwise, or the *Corporations Act* requires otherwise, a resolution of Unitholders must be passed by Unitholders who hold Units exceeding 50% in value of the total value of all Units held by Unitholders who vote on the resolution.

A resolution passed at a meeting of Unitholders held in accordance with a Fund's Constitution binds all Unitholders of the Fund.

### 6.2.18 Indemnities and limitation of liability of the Responsible Entity

The Responsible Entity is indemnified out of the assets of each Fund for any liability incurred by it in properly performing or exercising any of its powers or duties in relation to the Fund. To the extent permitted by the *Corporations Act*, the indemnity includes any liability incurred by the Responsible Entity as a result of any act or omission of a delegate or agent appointed by the Responsible Entity.

The Responsible Entity is not liable in contract, tort or otherwise to Unitholders for any loss suffered in any way relating to the Fund except to the extent that the *Corporations Act* imposes such liability.

### 6.2.19 Defective applications

The Constitution of each Fund allows the Responsible Entity to cancel Units in certain circumstances including where the Responsible Entity determines that the applicant was not entitled to apply for or hold the Units, the application form was incorrectly executed or was otherwise defective or where the execution and settlement procedures were not complied with.

### 6.2.20 Discretionary redemptions

The Constitution of each Fund allows the Responsible Entity to redeem some or all of a Unitholder's Units at any time. The Responsible Entity will give the Unitholder at least 60 days' notice of such redemption, unless the Unitholder is not entitled to hold Units under any applicable law.

### 6.2.21 Information from Unitholders

The Constitution of each Fund provides that the Responsible Entity may request any information from Unitholders where it believes that such information is necessary to (a) comply with any law or regulatory request; or (b) lessen the risk of the Fund or any Unitholder suffering a material detriment. If a Unitholder fails to provide the requested information, the Unitholder must indemnify the Responsible Entity for any loss suffered by the Responsible Entity in relation to such failure.

### 6.2.22 Borrowings

Each Fund's Constitution places no formal limits on borrowing. It is not the Responsible Entity's intention to enter into borrowing for a Fund, except that temporary borrowings may be used occasionally to manage certain cash flows. Any borrowing may be on a secured or unsecured basis and any borrowing costs would be borne by the Fund.

### 6.2.23 If you have a complaint

If a Unitholder has a complaint regarding a Fund or services provided by the Responsible Entity, please contact Client Services on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia) from 9:00 am to 5:00 pm Sydney time, Monday to Friday, or refer the matter in writing to:

complaints@betashares.com.au; or

Manager Client Services
Betashares Capital Ltd
Level 46, 180 George Street
Sydney NSW 2000

A copy of the complaints handling policy can be obtained at no charge by contacting the Responsible Entity.

To expedite a resolution of the matter, copies of all relevant documentation and other information supporting the complaint should be provided when making the complaint.

The Responsible Entity will try to resolve complaints as soon as possible, but in any event, will inform the Unitholder in writing of its determination regarding the complaint within 30 days of receiving the initial complaint.

In the event that a Unitholder is not satisfied with the outcome of a complaint, the Unitholder has the right to request the Responsible Entity to review its decision or to refer the matter to an external complaints resolution scheme. The Responsible Entity is a member of the Australian Financial Complaints Authority ("AFCA"). AFCA provides fair and independent financial services complaint resolution that is free to consumers. Unitholders can contact AFCA as follows:

| | |
|---|---|
| Website: | www.afca.org.au |
| Email: | info@afca.org.au |
| Phone: | 1800 931 678 (free call) |
| In writing to: | Australian Financial Complaints Authority Limited<br>GPO Box 3, Melbourne VIC 3001 |

Certain eligibility requirements apply for AFCA to hear a complaint, as set out in AFCA's complaint resolution scheme rules. AFCA is only available to retail clients.

### 6.2.24 Protecting your privacy

Privacy laws regulate, among other matters, the way organisations collect, use, disclose, keep secure and give people access to their personal information.

The Responsible Entity is committed to respecting the privacy of a Unitholder's personal information. The Responsible Entity's privacy policy states how the Responsible Entity manages personal information.

The Responsible Entity may collect personal information in the course of managing a Fund. Some information must be collected for the purposes of compliance with the *Anti-Money Laundering and Counter Terrorism Financing Act 2006*.

The Responsible Entity may provide personal information to a Unitholder's adviser if written consent is provided to the Responsible Entity. The Responsible Entity may disclose personal information to authorities investigating criminal or suspicious activity and to the Australian Transaction Reports and Analysis Centre (AUSTRAC) in connection with anti-money laundering and counter-terrorism financing.

The Responsible Entity may provide a Unitholder's personal information to its service providers for certain related purposes (as described under the *Privacy Act* 1988) such as account administration and the production and mailing of statements. The Responsible Entity may also use a Unitholder's personal information and disclose it to its service providers to improve customer service (including companies conducting market research) and to keep Unitholders informed of the Responsible Entity's or its partners' products and services, or to their financial adviser or broker to provide financial advice and ongoing service.

The Responsible Entity will assume consent to personal information being used for the purposes of providing information on services offered by the Responsible Entity and being disclosed to market research companies for the purposes of analysing the Responsible Entity's investor base unless otherwise advised.

Unitholders may request access to the personal information held about them at any time and ask the Responsible Entity to correct this information if it is incomplete, incorrect or out of date.

To obtain a copy of the privacy policy, contact the Responsible Entity on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia).

### 6.2.25 Anti-money laundering

The Responsible Entity is bound by laws regarding the prevention of money laundering and the financing of terrorism, including the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (AML/CTF Laws). By completing the Application or Redemption form, the Unitholder agrees that:

- it does not subscribe to the Fund under an assumed name;
- any money used to invest in the Units is not derived from or related to any criminal activities;
- any proceeds of the investment will not be used in relation to any criminal activities;
- if the Responsible Entity requests, the Unitholder will provide to it any additional information that is reasonably required for the purposes of AML/CTF Laws (including information about the investor, any beneficial interest in the Units, or the source of funds used to invest);
- the Responsible Entity may obtain information about the Unitholder or any beneficial owner of a Unit from third parties if it is believed this is necessary to comply with AML/CTF Laws; and
- in order to comply with AML/CTF Laws, the Responsible Entity may be required to take action, including:
  - delaying or refusing the processing of any application or redemption; or
  - disclosing information that the Responsible Entity holds about the Unitholder or any beneficial owner of the Units to the Responsible Entity's related bodies corporate or service providers, or relevant regulators of AML/CTF Laws (whether in or outside of Australia).

### 6.2.26 Foreign Account Tax Compliance Act (FATCA) & OECD Common Reporting Standard (CRS)

FATCA was enacted by the US Congress to target non-compliance by US taxpayers using foreign accounts. In order to prevent FATCA withholding tax being applied to any US connected payments made to the Fund in Australia, the Fund is required to collect and report information to the Australian Taxation Office relating to certain US accounts, which may be exchanged with the US Internal Revenue Service.

Similar to FATCA, the CRS is the single global standard for the collection, reporting and exchange of financial account information on foreign tax residents. Australian financial institutions need to collect and report financial account information regarding non-residents to the Australian Taxation Office.

Accordingly, the Fund may request that you provide certain information about yourself (for individual investors) or your controlling persons (where you are an entity) in order for the Fund to comply with its FATCA or CRS compliance obligations.

### 6.2.27 Other services

The Responsible Entity in its personal capacity, or companies related to the Responsible Entity, may invest in or provide services to a Fund. Any such services will be provided on terms that would be reasonable if the parties were dealing at arm's length.

### 6.2.28 Warning statement for New Zealand investors

The following disclosure is made to enable a Fund's Units to be offered by the Responsible Entity in New Zealand under the mutual recognition scheme between Australia and New Zealand:

1. This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

2. This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.

3. There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

4. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

5. Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (http://www.fma.govt.nz). The Australian and New Zealand regulators will work together to settle your complaint.

6. The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

7. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.

### Currency exchange risk

1. The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

2. If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

### Trading on financial product market

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

### Dispute resolution process

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

### 6.2.29 No minimum Unit holding requirement

The Responsible Entity does not require an investor who invests through an Australian securities exchange to hold a minimum number of Units in a Fund and therefore permits such an investor to establish a holding in a Fund of one Unit or more. The Responsible Entity may, after giving at least 60 days' notice to Unitholders, update this PDS to specify a minimum number of Units which must be held at any time. Where a minimum holding amount has been set in respect of a Fund and an existing Unitholder's holding is below the minimum holding amount, in accordance with that Fund's Constitution we may choose to redeem that Unitholder's holding, after giving 60 days' notice to the Unitholder.

This does not affect the minimum application and redemption amounts applicable to Authorised Participants who apply for, or redeem, Units directly with a Fund.

## 6.3 MATERIAL CONTRACTS

The Responsible Entity (or the Responsible Entity's holding company) has entered into a number of contracts in relation to the offer of each Fund, as set out below.

TABLE 6.3: MATERIAL CONTRACTS

| CONTRACT AND PARTY | DESCRIPTION |
|---|---|
| **Index Licence Agreement** | The Index provider in relation to each Fund is set out in the Product Supplement. There is an Index Licence Agreement in relation to each Fund that allows the Responsible Entity to use the relevant Index in the operation of the Fund. |
| **Custody agreement**<br><br>Citigroup Pty Limited | This agreement sets out the services provided by the custodian on an ongoing basis together with service standards. |
| **Administration services agreement**<br><br>Citigroup Pty Limited | This agreement sets out the services provided by the administrator (accountancy services, tax services and fund administration services including Unit price calculations), together with service standards. |
| **Registry agreement**<br><br>MUFG Corporate Markets (AU) Limited | This agreement sets out the services provided by the Registrar on an ongoing basis together with service standards. |
| **Authorised participant agreement**<br><br>Authorised Participants | An Authorised Participant Agreement deals with execution and settlement procedures in relation to the application for and redemption of Units. The terms of each Authorised Participant Agreement may vary and each may be amended from time to time.<br><br>Under the Authorised Participant Agreement, the Authorised Participant makes certain representations to the Responsible Entity about its status as an appropriately licensed entity and agrees to comply with the Constitution and with the execution and settlement procedures. |
| **Nominee deed poll**<br><br>Citigroup Pty Limited | Under this document, if applicable, the Applicant Nominee agrees to hold Units the subject of an application by an Authorised Participant as nominee for the Authorised Participant pending settlement. |
| **Nominee terms**<br><br>Authorised Participants | By signing the Application Form, if applicable, the Authorised Participant covenants for the benefit of the Applicant Nominee to be bound by the Nominee Terms under which the Applicant Nominee will hold application Units for the Authorised Participant subject to a security interest in favour of the Responsible Entity pending settlement of the application. Under the Nominee Terms, if the Authorised Participant does not comply with its obligations relating to the issue of Units, the Responsible Entity may direct the Applicant Nominee that the Units not be transferred to the Authorised Participant, in which case the Units are to be held solely for the Responsible Entity. |

## 6.4 ASIC RELIEF

### Equal Treatment Relief

ASIC Corporations (Relief to Facilitate Admission of Exchange Traded Funds) Instrument 2024/147 exempts the Responsible Entity from the equal treatment requirement in section 601FC(1)(d) of the *Corporations Act*, to the extent necessary to allow the Responsible Entity to restrict eligibility to submit redemption requests in relation to Units to Authorised Participants. The Responsible Entity will not treat Unitholders of the same class equally to the extent that it restricts redemptions from a Fund to such Authorised Participants.

Relief is granted subject to certain conditions, including the condition that all Unitholders will have a right to a cash redemption if Units are suspended from trading on the ASX for more than five consecutive trading days, unless:

- the relevant Fund is being wound up;
- the relevant Fund is no longer a liquid scheme; or
- the Responsible Entity has suspended redemptions in accordance with the relevant Fund's constitution.

If such a redemption occurs, any redemption fee per Unit payable by Unitholders who are not Authorised Participants must not be greater than the redemption fee per Unit that would generally be payable on redemption by an Authorised Participant for a cash redemption when withdrawing the minimum parcel of Units.

### Ongoing Disclosure Relief

ASIC Corporations (Relief to Facilitate Admission of Exchange Traded Funds) Instrument 2024/147 exempts the Responsible Entity from the ongoing disclosure requirements in section 1017B of the Corporations Act on the condition that the Responsible Entity complies with the continuous disclosure provisions of the Corporations Act that apply to an unlisted disclosing entity as if a Fund was an unlisted disclosing entity. The Responsible Entity will comply with these continuous disclosure provisions as if a Fund was an unlisted disclosing entity.

### Periodic Statements Relief

ASIC Corporations (Periodic Statement Relief for Quoted Securities) Instrument 2024/14 exempts the Responsible Entity from certain periodic statement requirements. In particular, the Responsible Entity is not required (and does not propose) to include in periodic statements details of the price at which an investor transacts in Units on the ASX, or information on the return on an investment in Units acquired on the ASX (for the year in which the Units are acquired), if the Responsible Entity is not able to calculate this and the periodic statement explains why the information was not included and how it can be obtained.

## 6.5 DOCUMENTS LODGED WITH ASIC

The Responsible Entity is subject to certain regular reporting and disclosure obligations in relation to each Fund as if it were an unlisted "disclosing entity" under the Corporations Act. We will comply with our continuous disclosure obligations under the law by publishing material information on our website in accordance with ASIC's good practice guidance for website disclosure.

As an investor in a Fund, a Unitholder may obtain the following documents from the Responsible Entity:

- the annual report most recently lodged with ASIC in respect of the Fund;
- any half-year financial report lodged with ASIC in respect of the Fund after the lodgement of the abovementioned annual report and before the date of this PDS; and
- any continuous disclosure notices given in respect of the Fund after the lodgement of the abovementioned annual report and before the date of this PDS.

The Responsible Entity will send a requesting Unitholder a printed or electronic copy of any of the above documents free of charge within 5 business days of the request.

Copies of documents lodged with ASIC in relation to each Fund may be obtained from, or inspected at, an ASIC office.

## 6.6 COOLING OFF

There is no cooling off period in relation to the subscription for Units in any of the Funds. This means that once an application form is submitted, an applicant cannot decide to withdraw the application.

## 6.7 INDIRECT INVESTORS

When an investor invests through a master trust or wrap platform or an IDPS, the operator of the trust, platform or IDPS is investing on the investor's behalf. Consequently the operator (or the custodian of the platform), and not the investor as an indirect investor, holds the Units and therefore has the rights of a Unitholder in the relevant Fund. For example, if an investor is an indirect investor they will not have rights to attend and vote at Unitholder meetings, to withdraw Units or receive distributions. Instead the platform operator will exercise those rights in accordance with their arrangements with the investor. For information about their investment, an investor should contact their platform operator.

## 6.8 INFORMATION AVAILABLE FROM BETASHARES

The Responsible Entity is subject to regular reporting and disclosure obligations, in its capacity as responsible entity of the Funds and issuer of the Units. The following information can be obtained from the Responsible Entity by visiting the Betashares website at www.betashares.com.au or by contacting Betashares on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia):

- the daily Net Asset Value (NAV) for the Funds;
- the daily NAV per Unit for the Funds;
- the Funds' portfolio holdings, updated daily;
- the Responsible Entity's Unit pricing policy;
- the latest PDS for the Funds;
- copies of announcements made to the ASX via the ASX Market Announcements Platform (including continuous disclosure notices and distribution information);
- information about distributions as soon as possible after they are declared;
- annual and any half-year reports and financial statements for the Funds;
- details of any Distribution Reinvestment Plan;
- information in relation to the Funds to enable Authorised Participants and market makers to estimate the Net Asset Value per Unit of the Funds during the course of a trading day; and
- the Target Market Determination for each Fund prepared by the Responsible Entity pursuant to the "design and distribution" obligations set out in Part 7.8A of the Corporations Act, which sets out the class of consumers that comprise the target market for the Fund.

## 6.9 DISCLAIMERS

Citigroup Pty Limited ("Citigroup") has been appointed as the custodian and administrator for the Funds. Citigroup's role as custodian is limited to holding the assets of each Fund. As administrator, Citigroup is responsible for the day to day administration of each Fund. Citigroup has no supervisory role in relation to the operation of the Funds and has no liability or responsibility to Unitholders for any act done or omission made in accordance with the custody and investment administration agreements.

Citigroup and the Funds' registrar, MUFG Corporate Markets, were not involved in preparing, nor take any responsibility for this PDS and Citigroup and MUFG Corporate Markets make no guarantee of the success of a Fund nor the repayment of capital or any particular rate of capital or income return.

# 7 TAXATION

The taxation information in this PDS is provided for general information only. It is a broad overview of some of the Australian tax consequences associated with investing in the Funds for a potential Australian resident investor.

It does not take into account the specific circumstances of each person who may invest in a Fund. It should not be used as the basis upon which potential investors make a decision to invest.

As the circumstances of each investor are different, the Responsible Entity strongly recommends that investors obtain professional independent tax advice relating to the tax implications of investing in and dealing in Units.

The taxation information in this PDS has been prepared based on tax laws and administrative interpretations of such laws available at the date of this PDS. Further details about the changes to the operation of the CGT regime are outlined in the Tax Reform section. These laws and interpretations may change.

### 7.1.1 Taxation of the Funds

The Responsible Entity intends to manage the Funds such that the Funds are not subject to Australian tax. The AMIT regime is an elective taxation regime that is available to certain eligible management investment trusts. It became generally available from 1 July 2016, with the existing tax rules for managed funds applying unless an election is made to enter the regime.

The Responsible Entity intends that an irrevocable election for each Fund to enter the AMIT regime will be in effect from the financial year in which the relevant Fund is launched.

The Responsible Entity does not generally expect the Funds to be subject to tax on the income of the Funds, as it is intended that:

- for eligible funds that enter the AMIT regime: all taxable income and other relevant amounts will be "attributed'' to the unitholders in each financial year; and
- for funds that have not entered the AMIT regime or cease to be eligible to be AMITs: Unitholders will be presently entitled to all the income of a fund in each financial year, with the existing non-AMIT tax rules for managed funds continuing to apply.

Instead, Unitholders pay tax on their share of the Fund's income. Under the AMIT regime, each Fund may make cash distributions that differ from taxable income attributed by the Fund to Unitholders.

### 7.1.2 Taxation of Australian resident Unitholders

The taxable income of a Fund which is attributed to Unitholders, or to which a Unitholder becomes entitled, during a financial year forms part of the Unitholder's assessable income for that year, even if payment of the entitlement does not occur until after the end of the financial year, or the proceeds are reinvested in more of the Fund's Units.

A Unitholder may receive an entitlement to the assessable income of a Fund for a financial year if the Unitholder holds Units at the end of a distribution period, or if the Unitholder redeems any Unit during the financial year.

### 7.1.3 Taxable income of the Funds

The tax impact for a Unitholder of receiving an entitlement to the income of a Fund depends upon the nature of the Fund's income.

**Types of income**

A Fund can derive various types of income, depending on the types of investments it makes. A Fund can derive income in the form of dividends, interest, gains on the disposal of investments and other types of income.

Generally, such income derived by a Fund is taxable, although tax credits may be available to Unitholders to offset some or all of any resulting tax liability. For example, income received by a Fund from foreign sources may be subject to tax in the country of source, and Australian tax resident investors may be entitled to claim a foreign income tax offset against their Australian tax liability in respect of their share of the foreign tax paid.

Similarly, where a Fund invests in Australian shares which pay franked dividends, a Unitholder may receive distributions from the Fund which include franking credits. Subject to certain legislative restrictions (such as the 45 day holding period rule), franking credits may be available to offset the Australian income tax liability, and some investors (eg complying superannuation funds) may have an entitlement to a tax refund in respect of the franking credits to the extent they exceed the Australian income tax payable in the relevant year.

**Capital gains and losses**

A trust that qualifies as a managed investment trust ("MIT") can elect to treat its gains and losses on disposal of certain investments as capital gains and losses. The Funds have made, or will make, this election.

Any assessable capital gains derived by a Fund to which a Unitholder becomes entitled or which is attributed to a Unitholder forms part of the Unitholder's assessable income.

Under the current tax rules, a Unitholder may be eligible for the 50% CGT discount (where the Unitholder is an individual or trust) or a 33 1/3% CGT discount (where the Unitholder is a complying superannuation fund) in respect of the gain that forms part of that Unitholder's assessable income, depending on the Unitholder's circumstances. Unitholders should seek professional advice in relation to the availability of any CGT concession.

For changes affecting capital gains and losses from 1 July 2027, refer to the Tax Reform section.

**Tax deferred / non-assessable amounts**

A Fund may distribute "tax deferred amounts" for non-AMITs, or other non-assessable amounts (other non-attributable amounts) for AMITs, relating to distributions of capital by the Fund, which are generally non-assessable for tax purposes. Where non-assessable, tax deferred amounts / non-assessable amounts reduce the capital gains tax ("**CGT**") cost base of a Unitholder's Units, and may increase the capital gain or reduce the capital loss subsequently realised on disposal of the Units. Where the total tax deferred amounts / non-assessable amounts received by a Unitholder have exceeded the cost base of their Units, the excess is treated as a capital gain to the Unitholder.

For Unitholders who hold Units as trading stock, distributions from the Funds, including capital gains and tax deferred / non-assessable amounts may be fully taxable as ordinary income, depending on the Unitholder's particular circumstances.

Unitholders will be provided with statements after the end of each financial year detailing the components, for tax purposes, of any distributions or attribution of income received from a Fund during the financial year, including on the redemption of Units.

**Taxation of Financial Arrangements (TOFA)**

The TOFA rules may apply to "financial arrangements" (e.g. cash settled futures and debt securities) held by a Fund. Under the TOFA rules, there are different methods available for a Fund to recognise gains and losses from financial arrangements in its taxable income calculation. A Fund may determine an appropriate method to use on the basis of its investment strategy.

### 7.1.4 Selling or transferring Units

If a Unitholder disposes of Units by selling or transferring the Units to another person (e.g. selling on-market), the Unitholder may be liable for tax on any gains realised on that disposal of Units.

If a Unitholder is assessed otherwise than under the CGT provisions on a disposal of Units (e.g. if the Unitholder is in the business of dealing in securities like Units), any profits made on the disposal of the Units should be assessable as ordinary income. Such Unitholders may be able to deduct any losses made on the disposal of Units.

If a Unitholder is assessed under the CGT provisions on disposal of Units, the Unitholder may, under the current CGT regime, make a capital gain or loss on the disposal of those Units, in the year in which the contract for the disposal is entered into. Some Unitholders may be eligible for the CGT discount upon disposal of Units if the Units have been held for at least 12 months (excluding the acquisition and disposal dates) and the relevant requirements are satisfied. Unitholders should obtain professional independent tax advice about the availability of the CGT discount.

Any capital loss arising on a disposal of Units may be able to be offset against capital gains made in that year or in subsequent years.

### 7.1.5 Goods and Services Tax (GST)

The issue and redemption of Units should not be subject to GST. However, fees and expenses, such as management costs, incurred by a Fund would likely attract GST (at the rate of 10%).

Given the nature of the activities of the Funds, the Funds may not be entitled to claim input-tax credits for the full amount of the GST incurred. However, for the majority of the expenses, a Reduced Input-Tax Credit (RITC) may be able to be claimed.

The GST and expected RITC relating to fees and expenses is incorporated in the management cost for the Funds.

### 7.1.6 Applications and redemptions

A person will generally only be eligible to apply for and redeem Units if they are an Authorised Participant.

This section seeks to provide a summary of the tax consequences for Authorised Participants who are assessed on the disposal of Units otherwise than under the CGT provisions (e.g. because they are in the business of dealing in securities like Units).

Authorised Participants should obtain professional independent tax advice regarding the tax consequences of applying for and the redemption of their Units, particularly if they are assessed on the disposal of Units under the capital gains provisions.

**Applications**

The Units which an Authorised Participant acquires on an application for Units should be taken to have been acquired at a cost equal to the purchase price of those Units.

**Redemptions**

An Authorised Participant who redeems Units will become entitled to receive the Withdrawal Amount on the redemption (this may be reduced by the redemption fee).

The redemption of Units by an Authorised Participant may result in the Authorised Participant being assessed on some of the taxable income of the Fund, through a distribution of income or an attribution under the AMIT regime. This includes, but is not limited to, income and other gains realised by the Fund to fund the redemption of Units by the Authorised Participant, and where fair and reasonable, a portion of undistributed income or gains for the year as at the time of the redemption.

The Withdrawal Amount may therefore comprise a share of the income of the Fund as well as the payment of the redemption price for the Units which are to be redeemed.

An Authorised Participant whose Units are redeemed should be assessed on any profit arising on the redemption of the Units. An Authorised Participant who redeems Units may be entitled to a deduction for any loss arising on the redemption of Units.

For the purposes of determining the profit or loss arising on the redemption, the redemption price (being the Withdrawal Amount less the share of income provided as part of the Withdrawal Amount) should be regarded as the proceeds received in respect of the disposal.

That part of the Withdrawal Amount that is a share of income should also be assessable, based on the components of the distribution of income.

The Responsible Entity will notify persons who have redeemed Units during a financial year of the composition of the Withdrawal Amount, including the composition of any income entitlement they received in connection with the redemption of Units during that year, following the end of the financial year, once that information becomes available.

### 7.1.7 Tax reform

Tax reform activity that affects trusts is generally ongoing, and such reforms may impact on the tax position of a Fund and its investors. Accordingly, Unitholders should monitor the progress of any proposed legislative changes or judicial developments, and seek their own professional advice, specific to their own circumstances, in relation to the taxation implications of investing in the Funds.

The Australian Government has passed legislation to enact changes to the operation of the CGT regime from 1 July 2027. Some aspects of the new law remain subject to further legislative instruments and ATO guidance. They will affect the taxation outcomes for investors, including in respect of capital gains arising on the disposal of Units (including on-market disposals) and any capital gains attributed to investors by the Fund. The 50% CGT discount for individuals and trusts will be replaced by cost base indexation for capital gains accruing on or after 1 July 2027, with pre-2027 gains continuing to be eligible for the 50% discount under transitional arrangements. A 30% minimum tax will also apply to

post-1 July 2027 capital gains of individual investors. Recipients of certain government payments are fully exempt from the 30% minimum tax, and individuals who make deductible charitable donations in the same income year may reduce their exposure.

The impact of these changes will depend on each investor's individual circumstances, including their income level and portfolio composition. Investors should obtain independent professional tax advice in relation to the application of these changes to their own circumstances.

#### 7.1.8 Tax File Number ("TFN") or Australian Business Number ("ABN")

Unitholders will be requested by the Funds to provide their TFN or ABN (if applicable) or claim an exemption in relation to their investment in the Fund. It should be noted that there is no obligation to provide a TFN, however, Unitholders who do not provide their TFN or ABN or claim an exemption may have tax deducted from distributions at the highest marginal rate.

#### 7.1.9 Other comments

In cases where Units are to be redeemed by a Unitholder that is an Australian resident for tax purposes, a Fund should generally not be required to withhold any amounts from the Withdrawal Amount paid on redemption of Units.

Distributions to non-resident Unitholders (including on redemption) may have tax withheld by the Responsible Entity.

# 8 GLOSSARY

These definitions are provided to assist investors in understanding some of the expressions used in this PDS:

| | |
|---|---|
| **Applicant Nominee** | An entity which holds Units pending settlement on behalf of Authorised Participants applying for Units. As at the date of this PDS the Applicant Nominee is Citigroup Pty Limited. The Responsible Entity may determine that the Applicant Nominee is no longer to be appointed to hold Units pending settlement on behalf of Authorised Participants applying for Units. |
| **AQUA Product** | A product admitted under the ASX Operating Rules to the AQUA market of the ASX. |
| **AQUA Rules** | Schedule 10A of the ASX Operating Rules and related rules and procedures, as amended, varied or waived from time to time. |
| **ASIC** | Australian Securities and Investments Commission. |
| **ASX** | ASX Limited or the Australian Securities Exchange, as the case requires. |
| **ASX Business Day** | A "Business Day" as defined in the ASX Operating Rules, unless determined otherwise by the Responsible Entity. |
| **ASX Listing Rules** | The listing rules of the ASX as amended, varied or waived from time to time. |
| **ASX Operating Rules** | The operating rules of the ASX as amended, varied or waived from time to time. |
| **Authorised Participant** | A financial institution which is a participant in relation to a financial market (or which has engaged a participant to act on its behalf), which has entered into an Authorised Participant Agreement with the Responsible Entity. |
| **Authorised Participant Agreement** | An agreement between the Responsible Entity and an Authorised Participant in relation to Unit applications and redemptions. |
| **CHESS** | The Clearing House Electronic Sub-Register System or any system that replaces it. |
| **Constitution** | In relation to a particular Fund, means the constitution governing the Fund, as amended or replaced from time to time. |
| **Corporations Act** | Corporations Act 2001 (Cth). |
| **Creation Unit** | A particular number of Units of the Fund, as determined by the Responsible Entity from time to time and notified to Authorised Participants. |
| **Dealing Day** | A day that is both (a) an ASX Business Day and (b) a day on which exchanges, on which at least 80% of the Fund's assets or derivatives are traded, are open for trading, unless the Responsible Entity determines otherwise. |
| **Dealing Deadline** | For a cash application/redemption 2:00 pm, and for an in-kind application/redemption (if agreed to by the Responsible Entity) 4:00 pm, Sydney time on each Dealing Day (or such other time advised by the Responsible Entity to Authorised Participants), being the time by which an Application/Redemption form must be received by the Responsible Entity to be processed for that Dealing Day. |
| **ETF** | Exchange traded fund. |
| **Fund or Betashares Fund** | The relevant Betashares exchange traded fund offered under this PDS, as the context requires. |
| **Index** | In relation to a particular Fund, the index of securities or other assets whose performance the Fund will aim to track, before fees and expenses, as set out in the Product Supplement. |
| **Issue Price** | The Net Asset Value divided by the number of Units on issue in the relevant Fund. |
| **Net Asset Value or NAV** | The net asset value for a Fund calculated in accordance with section 5.6. |

| | |
|---|---|
| **Nominee Terms** | In relation to an application for Units, the nominee terms made available by the Responsible Entity to the applicant, as described in section 6.3. |
| **PDS** | Product Disclosure Statement. |
| **Product Supplement** | The part of this PDS appearing after section 8 that contains information specific to each Fund. |
| **Registrar** | MUFG Corporate Markets (AU) Limited (ABN 54 083 214 537), or any other registry that the Responsible Entity appoints to maintain the register. |
| **Unit** | A unit in the relevant Fund. |
| **Unitholder** | A holder of a Unit. |
| **Withdrawal Amount** | The Net Asset Value divided by the number of Units on issue in the relevant Fund. |

## PRODUCT SUPPLEMENT

# BETASHARES GLOBAL ROBOTICS AND ARTIFICIAL INTELLIGENCE ETF

### INVESTMENT OBJECTIVE

The investment objective of the Betashares Global Robotics and Artificial Intelligence ETF is to provide an investment return that aims to track the performance of the Indxx Global Robotics & Artificial Intelligence Thematic Index (the "Index"), before taking into account fees and expenses.

The Index is designed to track the performance of equity securities of companies listed in developed markets and China that are expected to benefit from the increased adoption and utilisation of robotics and artificial intelligence ("AI"), including companies involved in industrial robotics and automation, non-industrial robots, artificial intelligence and unmanned vehicles (collectively, "Robotics and Artificial Intelligence Companies").

### INVESTMENT STRATEGY

The Fund will seek to achieve the investment objective by adopting a "full replication" strategy. See section 2.1.2 for further information.

### SUITABILITY

The Fund is intended for use as a satellite or minor allocation to global equities for investors seeking capital growth and who have a very high risk and return profile for that portion of their investment portfolio. A minimum investment timeframe of 5 years or more is suggested.

### GENERAL INFORMATION

| | |
|---|---|
| **ASX code** | RBTZ |
| **Periodic distributions** | The Responsible Entity intends to make annual distributions in respect of periods ending 30 June of each year. Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.<br><br>For further information, see "Distributions" in section 2.2 of the PDS. |
| **Distribution Reinvestment Plan** | Available.<br><br>For further information, see "Distribution Reinvestment Plan" in section 2.2.3 of the PDS. |
| **Fees and other costs** | See "Fees and Other Costs" in section 3 of the PDS. |
| **Minimum application / redemption amount for Authorised Participants** | One Creation Unit (unless the Responsible Entity agrees otherwise). |

### FURTHER INFORMATION ABOUT THE INDEX

The index sponsor is Indxx, LLC ('Indxx'). Founded in 2005, Indxx specializes in the development and publishing of custom indices.

To be eligible for initial inclusion in the Index, a security must meet certain criteria, including:

- Companies must have a minimum market capitalisation of US$300 million and a minimum average daily turnover for the last 6 months greater than or equal to US$2 million;
- The security must have traded on 90% of the eligible trading days in the last 6 months (or meet certain other minimum trading requirements when the company does not have a 6-month trading history);
- The security must have a minimum free float equivalent to 10% of shares outstanding;
- The security must have its primary listing in either developed markets as defined by Indxx or in China. Companies listed in China include (i) China A-shares listed on the Shanghai Stock Exchange and Shenzhen Stock Exchange accessed through the Hong Kong Stock Connect program (ii) ADRs and GDRs where the country of domicile or primary listing is China.

From the eligible universe, Indxx identifies Robotics and Artificial Intelligence Companies by applying a proprietary analysis that consists of two primary components: industry/segment identification and company analysis.

(i) **Industry/segment identification**. As of the date of this PDS, Indxx has identified the following industries and business

segments (or "themes") as being those expected to provide the most exposure to the growth of the robotics and artificial intelligence industry:

a. **Industrial Robotics and Automation**: Companies that provide robots and robotic automation products and services with a focus on industrial applications;

b. **Unmanned Vehicles and Drones**: Companies that are involved in the development and production of unmanned vehicles (including hardware and software for autonomous cars), drones and robots for both military and consumer markets;

c. **Non-Industrial Robotics**: Companies that are involved in developing robots and AI that are used for non-industrial applications, including but not limited to agriculture, healthcare, consumer applications and entertainment;

d. **Artificial Intelligence**: Companies that develop AI chips, software, or platforms specifically designed to enable robotics, robotic process automation and physical AI applications. This includes technologies such as computer vision, motion planning, real-time inference and autonomy stacks that power robotics systems. Companies focused solely on software automation or enterprise AI without direct integration into physical or robotic systems are excluded;

e. **Humanoid Technology**: Companies involved in the development of humanoid robots and related technology designed to replicate human form and movement for use in non-industrial applications such as healthcare, consumer services, entertainment and other environments built for human interaction.

(ii) **Company analysis**. In order to be included in the Index, a company must fall within one of following three categories:

a. **Pure Play Companies**: A company is deemed to have this exposure if it derives a significant portion (greater than 50%) of its revenues from the specified industries/segments or if it has stated that its primary business is to be in products and services focused on those industries/segments;

b. **Pre-Revenue Companies**: A company is deemed to have this exposure if it has not yet commenced revenue generation but is actively developing products, technologies, or services aligned specifically with the specified industries/segments. Inclusion in this category is based on a demonstrated focus through continuous innovation, strategic investments, research and development, or commercial partnerships that reflect a strong commitment to these areas. Such companies must operate exclusively within the specified industries/segments and not engage in business activities outside of this scope;

c. **Diversified Revenue Companies**: A company is deemed to have this exposure if it generates less than 50% of its revenues from the specified industries/segments but is recognised as a significant contributor in this area. This includes firms with notable and sustained activities across two or more specified industries/segments, demonstrated through key business units, acquisitions, partnerships, or leadership in enabling technologies.

The largest Pure Play Companies, Pre-Revenue Companies and Diversified Revenue Companies by market capitalisation are included in the Index. The Index is capped at 100 companies. The number of Diversified Revenue Companies is capped at 10.

Upon Index reconstitution, a market cap-weighted approach is applied to determine the weights of each security in the Index. A cap of 8% is applied on the weight of Pure Play Companies and Pre-Revenue Companies. Each Diversified Revenue Company is subject to a 2% weight cap with the total allocation to all Diversified Revenue Companies capped at 10%.

The aggregate weight of Chinese companies is capped at 10%.

The aggregate weight of all the components with weight greater than 5% is capped at 40%. A cap of 4.5% on the weight of a single security is then applied to all remaining securities with weight greater than 5%, with the excess weight distributed proportionally across the remaining Index securities to derive their final weights.

The Index is normally reconstituted and rebalanced semi-annually in March and September. The new portfolio becomes effective at the close of the second Friday of March and September each year. Any new addition to or deletion from the Index becomes effective at the close of the second Friday for March or September.

Buffer rules are employed to reduce portfolio turnover.

The Index is a net total return index, which means that it reinvests cash dividends on the relevant ex-dividend date (the date on which the relevant shares no longer come attached with the right to receive the declared dividend) and adjusts for an Index security's country of incorporation withholding rate.

The nature and method of calculation of the Index may change from time to time.

Further information about the Index can be found on the Fund's product page at www.betashares.com.au.

Neither the Responsible Entity nor any other company in the Betashares group has any control over, or responsibility for, the composition, calculation or availability of the Index. The Index Provider is not a related company of the Responsible Entity.

Past performance information about the Index is available from various sources, including stockbrokers, financial information websites and major data providers such as Bloomberg or Reuters. Any past performance information about the Index does not take into account fees, costs or taxes that may be incurred as a result of investing in the Fund. Past performance of the Index is not a reliable guide to future performance of the Index or the Fund.

A listing of the Fund's portfolio holdings, updated daily, will be available at www.betashares.com.au.

## SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following additional risks are relevant to the Fund.

### Concentration risk

Further to the description of concentration risk in section 4 of the PDS, the Index, and therefore the Fund, will have a high degree of exposure to securities concentrated within a relatively new and niche market of the information technology sector, as well as within the industrials sector, particularly in Japan and the U.S. This concentration may cause the Fund to experience higher volatility of returns compared to a fund that has more diverse exposure to a variety of sectors.

### Robotics & artificial intelligence companies risk

Robotics and artificial intelligence companies may have limited product lines, markets, financial resources or personnel. These companies typically face intense competition and potentially rapid product obsolescence. These companies are also heavily dependent on intellectual property rights and may be adversely affected by loss or impairment of those rights. There can be no assurance these companies will be able to successfully protect their intellectual property to prevent the misappropriation of their technology, or that competitors will not develop technology that is substantially similar or superior to such companies' technology. Robotics and artificial intelligence companies typically engage in significant amounts of spending on research and development, and there is no guarantee that the products or services produced by these companies will be successful. Robotics and artificial intelligence companies, especially smaller companies, may be more volatile than companies that do not rely heavily on technology.

### Smaller companies risk

Further to the description of smaller companies risk in section 4 of the PDS, the Index, and therefore the Fund, is expected to have some exposure to small companies and a high degree of exposure to medium sized companies, as measured by market capitalisation. This may cause the Fund to experience higher volatility of returns compared to a fund that invests in larger, more established companies.

### China investments risk

The Index, and therefore the Fund, is expected to have exposure to companies listed in China. The primary risks associated with investing in Chinese securities are:

- Emerging markets risk: Further to the description of international investment risk in section 4 of the PDS, the Fund will be exposed to China, which is an emerging market. Emerging markets are generally considered riskier than developed markets due to factors such as lower liquidity, the potential for political unrest, the increased likelihood of sovereign intervention (including default and currency intervention), currency volatility, repatriation of both investment income and capital may be subject to restrictions and increased legal risk. In addition, there may be less publicly available information about issuers, and inconsistent and potentially less stringent accounting, auditing and financial reporting requirements and standards of practice comparable to those applicable in developed markets. Emerging market investments therefore may experience increased asset price volatility, and face higher currency, default and liquidity risk.

- China A-shares risk: Investments in China-A shares may be subject to additional liquidity, volatility and regulatory risks. Trading in China A-shares may be suspended without notice or for an extended period, and daily price limits may restrict price movements, delay price discovery and increase volatility. These factors may adversely affect the Fund's performance.

- Stock Connect Risk: The Fund will use the Hong Kong Stock Connect program to access China A-Shares listed on the Shanghai Stock Exchange and Shenzhen Stock Exchange. Investments in China A-shares are subject to foreign ownership limits and daily quota restrictions under the Stock Connect program, which may restrict the Fund's ability to acquire or retain certain securities at desired times and could affect the implementation of the Fund's investment strategy. Additional risks include clearing and settlement risk, operational and counterparty risk, and regulatory risk.

- Tax risk: There are risks associated with the tax laws, regulations and practice of the People's Republic of China in respect of capital gains and interest on investments in China. Any change to these tax laws could increase the tax liability of the Fund, which may result in the Net Asset Value of the Fund being adversely affected.

## DISCLAIMER

“Indxx” is a service mark of Indxx LLC and has been licensed for use for certain purposes by the Responsible Entity. The Betashares Global Robotics and Artificial Intelligence ETF is not sponsored, endorsed, sold or promoted by Indxx. # PRODUCT SUPPLEMENT
# BETASHARES ASIA TECHNOLOGY TIGERS ETF

## INVESTMENT OBJECTIVE

The investment objective of the Betashares Asia Technology Tigers ETF is to provide an investment return that aims to track the performance of the Solactive Asia ex-Japan Technology & Internet Tigers Index (the "Index"), before taking into account fees and expenses.

The Index seeks to track the price movements of a portfolio containing the top 50 technology and online retail stocks, by free float market capitalization, that have their main area of business in Asia excluding Japan.

## INVESTMENT STRATEGY

The Fund will seek to achieve the investment objective by adopting a "full replication" strategy. See section 2.1.2 for further information.

## SUITABILITY

The Fund is intended for use as a satellite or minor allocation to global equities for investors seeking capital growth and who have a very high risk and return profile for that portion of their investment portfolio. A minimum investment timeframe of 5 years or more is suggested.

## GENERAL INFORMATION

| | |
|---|---|
| **ASX code** | ASIA |
| **Periodic distributions** | The Responsible Entity intends to make at least annual distributions in respect of periods ending 30 June of each year. Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.<br><br>For further information, see "Distributions" in section 2.2 of the PDS. |
| **Distribution Reinvestment Plan** | Available.<br><br>For further information, see "Distribution Reinvestment Plan" in section 2.2.3 of the PDS. |
| **Fees and other costs** | See "Fees and Other Costs" in section 3 of the PDS. |
| **Minimum application / redemption amount for Authorised Participants** | One Creation Unit (unless the Responsible Entity agrees otherwise). |

## FURTHER INFORMATION ABOUT THE INDEX

The index sponsor is Solactive AG ("Solactive"), a leading global provider of index solutions.

To be eligible for initial inclusion in the Index, a security must meet certain criteria, including:

- Companies must be classified as members of one of the following industry groups (pursuant to the FactSet industry classification system):
    - Data processing services;
    - Information technology services;
    - Packaged software;
    - Internet software/services;
    - Semiconductors;
    - Telecommunications equipment;
    - Computer peripherals;
    - Computer communications;

- Electronic production equipment;
- Internet retail.

- Companies must be assigned a country classification by the Index provider from within the Asia ex-Japan region (being China, Hong Kong, India, Indonesia, Malaysia, Pakistan, Philippines, Singapore, South Korea, Taiwan, Thailand and Vietnam).
- Only securities (which may include ADRs) that have a listing on an exchange in the following countries are eligible:
  - Hong Kong;
  - Singapore;
  - South Korea;
  - Taiwan;
  - United States.
- Securities must have a minimum average daily turnover, and minimum median daily turnover, for the last one and six months of greater than or equal to US$1 million;

Where a company maintains a listing on more than one eligible exchange, the security with the highest liquidity is selected.

The Index comprises the largest 50 companies based on free float market capitalisation, with Index weights determined by market capitalisation. No stock may have an Index weight that exceeds 10% as at the time it is rebalanced.

The Index is normally reconstituted and rebalanced semi-annually, with the new portfolio becoming effective at the close of trading on the first Wednesday in May and November each year.

Buffer rules are employed to reduce portfolio turnover.

The Index is a net total return index, which means that it reinvests cash dividends on the relevant ex-dividend date (the date on which the relevant shares no longer come attached with the right to receive the declared dividend) and adjusts for an Index security's country of incorporation withholding rate.

The nature and method of calculation of the Index may change from time to time.

Further information about the Index can be found on the Fund's product page at www.betashares.com.au.

Neither the Responsible Entity nor any other company in the Betashares group has any control over, or responsibility for, the composition, calculation or availability of the Index. The Index Provider is not a related company of the Responsible Entity.

Past performance information about the Index is available from various sources, including stockbrokers, financial information websites and major data providers such as Bloomberg or Reuters. Any past performance information about the Index does not take into account fees, costs or taxes that may be incurred as a result of investing in the Fund. Past performance of the Index is not a reliable guide to future performance of the Index or the Fund.

A listing of the Fund's portfolio holdings, updated daily, will be available at www.betashares.com.au.

## SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following additional risks are relevant to the Fund.

### Information technology sector risk

Information technology companies face intense competition and potentially rapid product obsolescence. They are also heavily dependent on intellectual property rights and may be adversely affected by loss or impairment of those rights. There can be no assurance these companies will be able to successfully protect their intellectual property to prevent the misappropriation of their technology, or that competitors will not develop technology that is substantially similar or superior to such companies' technology.

### Concentration risk

Further to the description of concentration risk in section 4 of the PDS, the Index, and therefore the Fund, is expected to have a high degree of exposure to securities concentrated in the information technology sector, particularly the software and services segment (and particularly in Taiwan, South Korea and China). As a result, the Fund will be more vulnerable to adverse market, economic, regulatory, political or other developments affecting such sectors than a fund that invests its assets more broadly.

For example, the prices of the securities of companies in the software and services segment may fluctuate widely due to competitive pressures, increased sensitivity to short product cycles and aggressive pricing, changing demand and heavy expenses incurred for research and development of

products that prove unsuccessful. Furthermore, the market for products produced by companies in this segment is characterised by rapidly changing technology, rapid product obsolescence, and cyclical market patterns, all of which may affect the success of such companies.

This concentration may cause the Fund to experience higher volatility of returns compared to a fund that has diverse exposure to a variety of sectors.

The industries in which the Index components, and thus the Fund's investments, may be concentrated may vary as the composition of the Index changes over time.

### Emerging markets risk

Further to the description of international investment risk in section 4 of the PDS, the Index, and therefore the Fund, is expected to have a high degree of exposure to companies in emerging markets, particularly in Taiwan, South Korea and China. This may cause the Fund to experience higher volatility of returns compared to a fund that invests in companies in developed markets.

### DISCLAIMER

The Betashares Asia Technology Tigers ETF is not sponsored, promoted, sold or supported in any other manner by Solactive AG nor does Solactive AG offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or the Index Price at any time or in any other respect. The Index is calculated and published by Solactive AG. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards the issuer, Solactive AG has no obligation to point out errors in the Index to third parties including but not limited to investors and/or financial intermediaries of the Fund. Neither publication of the Index by Solactive AG nor the licensing of the Index or Index trade mark for the purpose of use in connection with the Fund constitutes a recommendation by Solactive AG to invest capital in the Fund nor does it in any way represent an assurance or opinion of Solactive AG with regard to any investment in the Fund.

## PRODUCT SUPPLEMENT

# BETASHARES S&P GLOBAL HIGH DIVIDEND ARISTOCRATS ETF

### INVESTMENT OBJECTIVE

The investment objective of the Betashares S&P Global High Dividend Aristocrats ETF is to provide an investment return that aims to track the performance of the S&P World Ex-Australia High Dividend Aristocrats Select Index (the "Index"), before taking into account fees and expenses.

The Index is designed to provide exposure to global companies which have increased dividends or maintained stable dividends every year for at least 10 consecutive years within developed markets outside of Australia.

### INVESTMENT STRATEGY

The Fund will seek to achieve the investment objective by adopting a "full replication" strategy. See section 2.1.2 for further information.

### SUITABILITY

The Fund is intended for use as a satellite, minor or core allocation to global equities for investors seeking capital growth and regular income, and who have a high to very high risk and return profile for that portion of their investment portfolio. A minimum investment timeframe of 5 years or more is suggested.

### GENERAL INFORMATION

| | |
|---|---|
| **ASX code** | INCM |
| **Periodic distributions** | The Responsible Entity intends to make quarterly distributions in respect of periods ending in or about March, June, September and December of each year. Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.<br><br>For further information, see "Distributions" in section 2.2 of the PDS. |
| **Distribution Reinvestment Plan** | Available.<br><br>For further information, see "Distribution Reinvestment Plan" in section 2.2.3 of the PDS. |
| **Fees and other costs** | See "Fees and Other Costs" in section 3 of the PDS. |
| **Minimum application / redemption amount for Authorised Participants** | One Creation Unit (unless the Responsible Entity agrees otherwise). |

### FURTHER INFORMATION ABOUT THE INDEX

The Index provider is a subsidiary of S&P Dow Jones Indices LLC ("S&P").

To be eligible for inclusion in the Index at each rebalance, a security must meet certain criteria, including:

- be a member of the S&P Broad Market Index, excluding Australian and South Korean domiciled companies;
- have a float-adjusted market capitalisation of at least US$1 billion;
- have an average daily value traded of at least US$5 million for the three months prior to the rebalancing reference date;
- be ordinary shares (preference shares are not eligible);
- have increased dividends or maintained stable dividends every year for at least 10 consecutive years;
- have a dividend payout ratio between 0 and 100%; and
- have a maximum of 10% p.a. indicated dividend yield as of the rebalancing reference date.

Securities meeting the eligibility criteria are placed into subgroups based on their region (North America, Europe and Asia Pacific) and 4 mega sector classifications yielding a total of 12 subgroups.

The 4 mega sector classifications consist of (i) financials and real estate (ii) consumer discretionary, consumer staples and health care (iii) information technology and communication services (iv) industrial, materials, energy and utilities.

Securities within each subgroup are then ranked by their dividend selection score, derived by multiplying each security's respective float adjusted market capitalisation by its indicated annual dividend yield.

Securities within the top 20% of each subgroup are selected for inclusion in the Index such that the total number of stocks is no less than 100 or no more than 200.

Individual security weights are capped at 6%. Subgroup weightings are set at the same level as the index universe. The Index is reconstituted annually on the last business day in January and rebalanced semi-annually at the end of January and July.

As at the date of this PDS, the Index had over 150 holdings. Further information about the Index can be found on the Fund's product page at www.betashares.com.au.

Neither the Responsible Entity nor any other company in the Betashares group has any control over, or responsibility for, the composition, calculation or availability of the Index. The Index Provider is not a related company of the Responsible Entity.

Past performance information about the Index is available from various sources, including stockbrokers, financial information websites and major data providers such as Bloomberg or Reuters. Any past performance information about the Index does not take into account fees, costs or taxes that may be incurred as a result of investing in the Fund. Past performance of the Index is not a reliable guide to future performance of the Index or the Fund.

A listing of the Fund's portfolio holdings, updated daily, will be available at www.betashares.com.au.

## SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following additional risks are relevant to the Fund.

### Small and medium sized companies risk

The Index, and therefore the Fund, may have a relatively high degree of exposure to small and medium sized companies, as measured by market capitalisation (in addition to exposure to large cap companies). Such companies may be more vulnerable to adverse general market or economic developments, and their securities may be less liquid and may experience greater price volatility than larger, more established companies as a result of several factors, including limited trading volumes, products or financial resources, and less publicly available information. Accordingly, such companies are generally subject to greater market risk than larger, more established companies, and may underperform other segments of the market or the equity market as a whole. This may cause the Fund to experience higher volatility of returns compared to a fund that invests solely in larger, more established companies.

## DISCLAIMER

The S&P World Ex-Australia High Dividend Aristocrats Select Index (the "Index") is a product of S&P Dow Jones Indices LLC or its affiliates ("SPDJI"), and has been licensed for use by Betashares. Standard & Poor's® and S&P® are registered trademarks of Standard & Poor's Financial Services LLC ("S&P"). Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones"). It is not possible to invest directly in an index. The Fund is not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P, any of their respective affiliates (collectively, "S&P Dow Jones Indices"). S&P Dow Jones Indices makes no representation or warranty, express or implied, to the owners of the Fund or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Index to track general market performance. Past performance of an index is not an indication or guarantee of future results. S&P Dow Jones Indices' only relationship to Betashares with respect to an Index is the licensing of the Index and certain trademarks, service marks and/or trade names of S&P Dow Jones Indices and/or its licensors. # PRODUCT SUPPLEMENT

# BETASHARES GLOBAL QUALITY LEADERS ETF

## INVESTMENT OBJECTIVE

The investment objective of the Betashares Global Quality Leaders ETF is to provide an investment return that aims to track the performance of the iSTOXX MUTB Global ex-Australia Quality Leaders 150 Index (the "Index"), before taking into account fees and expenses.

The Index is designed to track the performance of quality companies with high profitability, low leverage and sustainable cash flows, excluding companies listed in Australia. The Index components are selected based on a combined ranking of four fundamentals ratios - return on equity, debt-to-capital, cash flow generation ability and business stability.

## INVESTMENT STRATEGY

The Fund will seek to achieve the investment objective by adopting a "full replication" strategy. See section 2.1.2 for further information.

## SUITABILITY

The Fund is intended for use as a satellite, minor or core allocation to global equities for investors seeking capital growth and who have a high to very high risk and return profile for that portion of their investment portfolio. A minimum investment timeframe of 5 years or more is suggested.

## GENERAL INFORMATION

| | |
|---|---|
| **ASX code** | QLTY |

| **Fees and other costs** | See "Fees and Other Costs" in section 3 of the PDS. |
| **Minimum application / redemption amount for Authorised Participants** | One Creation Unit (unless the Responsible Entity agrees otherwise). |

## FURTHER INFORMATION ABOUT THE INDEX

The index sponsor is STOXX Ltd ("STOXX"), a leading global provider of index concepts. STOXX is wholly owned by Deutsche Borse AG.

The Index is derived from the STOXX Global 1800 ex-Australia Index. The universe is divided into three regions: North America, Europe and Asia/Pacific. An initial screen is applied to each of the three regions to select only stocks within the region ranking within the top 50% by return on equity and within the top 95% by financial health (measured by the debt-to-capital ratio), profitability (measured by cash flow generation) and business stability (measured by the volatility of historical net income). For all stocks that remain, a composite quality score is calculated, based on the percentile rankings (calculated on the full universe) achieved in relation to the four measures described above. All eligible companies are ranked by the composite quality score in descending order, and the top 150 stocks are selected as components of the Index.

The Index includes a liquidity screen, as well as buffer rules to reduce portfolio turnover.

The Index is weighted by free-float market capitalisation and rebalanced on a quarterly basis in March, June, September and December. Each component's weight is capped on a quarterly basis, based on the close prices from the second Thursday of the rebalancing month. The applicable single component cap is determined as the greater of:

- 2%; and
- the highest average constituent weight observed in the developed market universe applicable to the Index, where, for each constituent, the average weight is calculated using its month-end weight history over the preceding 24 months, or the longest available weight history where a full 24-month history is not available.

The resulting cap is applied uniformly to all components.

The Index is reconstituted semi-annually in June and December.

Between the reconstitutions of the Index, if an Index constituent security no longer meets the eligibility criteria, or is otherwise determined to have become ineligible for inclusion in the Index, the security is removed from the Index and not replaced.

The Index is a net total return index, which means that it reinvests cash dividends on the relevant ex-dividend date (the date on which the relevant shares no longer come attached with the right to receive the declared dividend) and adjusts for an Index security's country of incorporation withholding rate.

The nature and method of calculation of the Index may change from time to time.

Further information about the Index can be found on the Fund's product page at www.betashares.com.au.

Neither the Responsible Entity nor any other company in the Betashares group has any control over, or responsibility for, the composition, calculation or availability of the Index. The Index Provider is not a related company of the Responsible Entity.

Past performance information about the Index is available from various sources, including stockbrokers, financial information websites and major data providers such as Bloomberg or Reuters. Any past performance information about the Index does not take into account fees, costs or taxes that may be incurred as a result of investing in the Fund. Past performance of the Index is not a reliable guide to future performance of the Index or the Fund.

A listing of the Fund's portfolio holdings, updated daily, will be available at www.betashares.com.au.

## SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following additional risks are relevant to the Fund.

### Index methodology risk

The equities included in the Index are not selected based on their market capitalisation (although they are weighted by free-float market capitalisation). There is no assurance that an Index that uses fundamental measures to select securities will outperform an index that uses market capitalisation or any other methodology for selecting index constituents, over any time period.

### Concentration risk

Further to the description of concentration risk in section 4 of the PDS, the Index, and therefore the Fund, is expected to have a high degree of exposure to securities concentrated in the information technology sector, particularly in the US. This concentration may cause the Fund to experience higher volatility of returns compared to a fund that has more diverse exposure to a variety of sectors.

The industries in which the Index components, and thus the Fund's investments, may be concentrated may vary as the composition of the Index changes over time.

## DISCLAIMER

STOXX Limited, Deutsche Börse Group and their licensors, research partners or data providers have no relationship to Betashares, other than the licensing of the iSTOXX MUTB Global ex-Australia Quality Leaders Index® and the related trademarks for use in connection with the Betashares Global Quality Leaders ETF.

iSTOXX indices are tailored to a customer request or market requirement based on an individualized rulebook which is not integrated into the STOXX Global index family.

**STOXX, Deutsche Börse Group and their licensors, research partners or data providers do not:**

- sponsor, endorse, sell or promote the Fund;
- recommend that any person invest in the Fund or any other securities;
- have any responsibility or liability for or make any decisions about the timing, amount or pricing of the Fund;
- have any responsibility or liability for the administration, management or marketing of the Fund;
- consider the needs of the Fund or the owners of the Fund in determining, composing or calculating the iSTOXX MUTB Global ex-Australia Quality Leaders Index® or have any obligation to do so.

**STOXX, Deutsche Börse Group and their licensors, research partners or data providers give no warranty, and exclude any liability (whether in negligence or otherwise), in connection with the Fund or its performance.**

STOXX does not assume any contractual relationship with the purchasers of the Fund or any other third parties.

**Specifically,**

- STOXX, Deutsche Börse Group and their licensors, research partners or data providers do not give any warranty, express or implied, and exclude any liability about:
  - The results to be obtained by the Fund, the owner of the Fund or any other person in connection with the use of the iSTOXX MUTB Global ex-Australia Quality Leaders Index® and the data included in the index;
  - The accuracy, timeliness, and completeness of the iSTOXX MUTB Global ex-Australia Quality Leaders Index® and its data;
  - The merchantability and the fitness for a particular purpose or use of the iSTOXX MUTB Global ex-Australia Quality Leaders Index® and its data;
  - The performance of the Fund generally.
- STOXX, Deutsche Börse Group and their licensors, research partners or data providers give no warranty and exclude any liability, for any errors, omissions or interruptions in the iSTOXX MUTB Global ex-Australia Quality Leaders Index® or its data;
- Under no circumstances will STOXX, Deutsche Börse Group or their licensors, research partners or data providers be liable (whether in negligence or otherwise) for any lost profits or indirect, punitive, special or consequential damages or losses, arising as a result of such errors, omissions or interruptions in the iSTOXX MUTB Global ex-Australia Quality Leaders Index® or its data or generally in relation to the Fund, even in circumstances where STOXX, Deutsche Börse Group or their licensors, research partners or data providers are aware that such loss or damage may occur.

The licensing Agreement between Betashares and STOXX is solely for their benefit and not for the benefit of the owners of the Fund or any other third parties.

# PRODUCT SUPPLEMENT

# BETASHARES SPACE INDUSTRY ETF

## INVESTMENT OBJECTIVE

The investment objective of the Betashares Space Industry ETF is to provide an investment return that aims to track the performance of the Solactive Space Industry Index (the "Index"), before taking into account fees and expenses.

The Index is designed to provide exposure to leading companies involved in space launches and transportation, space infrastructure and manufacturing, as well as satellite communications, connectivity and data services.

## INVESTMENT STRATEGY

The Fund will seek to achieve the investment objective by adopting a "full replication" strategy. See section 2.1.2 for further information.

## SUITABILITY

The Fund is intended for use as a satellite allocation to global equities for investors seeking capital growth, and who have a very high risk and return profile for that portion of their investment portfolio. A minimum investment timeframe of 5 years or more is suggested.

## GENERAL INFORMATION

## FURTHER INFORMATION ABOUT THE INDEX

The index sponsor is Solactive AG ("Solactive"), a leading global provider of index solutions.

To be eligible for initial inclusion in the Index, a security must meet certain criteria, including:

- Companies must have, or be expected to have, significant exposure to the provision of products and/or services that contribute to the space industry, such as those involved with satellite communications, connectivity and data services; launch and space transportation; and space infrastructure and manufacturing (the specific industry classifications used are further described in the Index methodology).
    - Satellite communications, connectivity and data services comprises companies whose principal business is the provision, enablement, or monetisation of satellite-based communications, connectivity and data services. This includes operators of satellite constellations and communications networks, providers of ground segment and gateway infrastructure, and other communication platforms that rely primarily on space-based assets for the delivery of voice, data, broadband, Internet-of-Things and related connectivity solutions. It also includes companies that generate geospatial intelligence, and satellite enabled data platforms;
    - Launch and space transportation comprises companies that are primarily engaged in the design, manufacture or operation of launch vehicles and related systems used to transport payloads or crew into space or to sub-orbital trajectories. This includes providers of orbital and sub-orbital launch services, reusable launch systems, in-space transportation and transfer vehicles, and associated launch support infrastructure;
    - Space infrastructure and manufacturing comprises companies whose core activities relate to the design, manufacture, integration or operation of space-related infrastructure and hardware. This includes manufacturers of satellites, spacecraft, mission and

payload systems, propulsion and power systems, as well as providers of critical components, platforms and on-orbit infrastructure used to build, operate and maintain space assets.

- Companies must be a constituent of the Solactive GBS Global Developed Markets All Cap Index, or Solactive GBS South Korea All Cap Index.
- Securities must have a minimum free float market capitalisation of US$100m and average daily turnover of at least US$1m over the prior 3 months to be included.
- Securities may be fast-tracked into the Index where they have exposure to the space and satellite industry and their total market capitalisation is above US$100b. Any such company will remain in the Index even if it is not part of the GBS Index Universe, provided that all other selection criteria continue to be met.

Each company is assigned a score that reflects its exposure to the space industry, with the top ranked companies included in the Index.

If any companies in the Index have a total market capitalisation of US$250b (known as Mega-Cap companies), the single largest security in this subset group's weight in the Index will be weighted by its total market capitalisation with a maximum weight of 25%. Otherwise, each security is weighted in the Index by its float adjusted market cap, with a maximum weight of 10%.

The Index holds a maximum of 30 securities at each rebalance.

The Index is rebalanced quarterly, with the new portfolio normally becoming effective at the close of trading on the second Friday in February, May, August and November each year. Companies that are fast tracked will be introduced into the Index two trading days post their listing. Should that listing date occur between the selection and rebalance dates the inclusion will occur shortly after the rebalance date.

Buffer rules are employed to reduce portfolio turnover.

The Index is a net total return index, which means that it reinvests cash dividends on the relevant ex-dividend date (the date on which the relevant shares no longer come attached with the right to receive the declared dividend) and adjusts for an Index security's country of incorporation withholding rate.

The nature and method of calculation of the Index may change from time to time.

Further information about the Index can be found on the Fund's product page at www.betashares.com.au.

Neither the Responsible Entity nor any other company in the Betashares group has any control over, or responsibility for, the composition, calculation or availability of the Index. The Index Provider is not a related company of the Responsible Entity.

Past performance information about the Index is available from various sources, including stockbrokers, financial information websites and major data providers such as Bloomberg or Reuters. Any past performance information about the Index does not take into account fees, costs or taxes that may be incurred as a result of investing in the Fund. Past performance of the Index is not a reliable guide to future performance of the Index or the Fund.

A listing of the Fund's portfolio holdings, updated daily, will be available at www.betashares.com.au.

## SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following additional risks are relevant to the Fund.

### Space industry risk

Companies associated with space operate in a capital-intensive, complex and high risk industry that generally faces long development cycles and uncertain levels of demand. The industry depends on successful launches and rapid innovation. Factors such as unsuccessful launches, in-orbit malfunctions and incidents, project delays, product obsolescence, cost overruns, a lack of commercialisation and changes in regulation or government and defence spending can materially affect business performance. The space industry is characterised by rapid technological change, competitive pressure and uncertain paths to profitability for some market participants. Regulatory developments may increase costs or restrict commercial activity. Accordingly, such companies are generally subject to greater market risk, and may underperform other segments of the market or the equity market as a whole. This may cause the Fund to experience higher volatility of returns compared to a fund that invests across a broader equity market.

### Small and medium sized companies risk

The Index, and therefore the Fund, may have a relatively high degree of exposure to small and medium sized companies, as measured by market capitalisation (in addition to exposure to large cap companies). Such companies may be more vulnerable to adverse general market or economic developments, and their securities may be less liquid and may experience greater price volatility than larger, more established companies as a result of several factors, including limited trading volumes, products or financial resources, and less publicly available information. Accordingly, such companies are generally subject to greater market risk than larger, more established companies, and may underperform other segments of the market or the equity market as a whole. This may cause the Fund to experience higher volatility of returns compared to a fund that invests solely in larger, more established companies.

### Fast track risk

The Index may include recently listed companies under its fast track rule, which allows eligible companies to be added to the Index shortly after their initial public offering and listing. These companies will have limited trading and performance history, and limited information available about their operations. Accelerated index inclusion may require the Fund to acquire securities at a time when supply is constrained or market demand is elevated. This may increase the risk that securities are acquired at prices that do not fully reflect longer-term fundamentals and may be followed by periods of price correction or underperformance. Such companies may experience heightened price volatility, speculative trading and volatility, and reduced liquidity compared to more established constituents. These factors may cause the Fund to experience higher volatility of returns.

### Concentration risk

Further to the description of concentration risk in section 4 of the PDS, the Index, and therefore the Fund, will have a high degree of exposure to securities concentrated within a specalised market, being the space industry. There are a limited number of listed companies operating in the space industry, which may further concentrate the Fund's exposure at the individual security level. This concentration may cause the Fund to experience higher volatility of returns compared to a fund that has more diverse exposure to a variety of sectors.

Additionally, the Fund may have significant exposure to any single security that qualifies as a Mega-Cap company (being up to 25%). When applicable, the Fund’s returns will be materially influenced by the performance of such security.

### Liquidity risk

The Fund's holdings may face lower trading volumes or wider bid-ask spreads than securities of larger, more established companies, particularly smaller constituents and recently listed companies. Investor sentiment toward emerging or thematic industries such as space can also shift materially, and sustained reductions in investor interest may result in prolonged periods of reduced liquidity across space-related securities. These conditions could affect the Fund's ability to transact at desired prices.

### DISCLAIMER

The Betashares Space Industry ETF is not sponsored, promoted, sold or supported in any other manner by Solactive AG nor does Solactive AG offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or the Index Price at any time or in any other respect. The Index is calculated and published by Solactive AG. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards the issuer, Solactive AG has no obligation to point out errors in the Index to third parties including but not limited to investors and/or financial intermediaries of the Fund. Neither publication of the Index by Solactive AG nor the licensing of the Index or Index trade mark for the purpose of use in connection with the Fund constitutes a recommendation by Solactive AG to invest capital in the Fund nor does it in any way represent an assurance or opinion of Solactive AG with regard to any investment in the Fund.

## PRODUCT SUPPLEMENT

# BETASHARES ARTIFICIAL INTELLIGENCE ETF

### INVESTMENT OBJECTIVE

The investment objective of the Betashares Artificial Intelligence ETF is to provide an investment return that aims to track the performance of the Nasdaq CTA Artificial Intelligence Select Index (the "Index"), before taking into account fees and expenses.

The Index is designed to track the performance of companies engaged in the artificial intelligence ("AI") segment of the technology, industrial, medical and other economic sectors, as classified by the Consumer Technology Association ("CTA"), for which AI is a core element of their business.

### INVESTMENT STRATEGY

The Fund will seek to achieve the investment objective by adopting a "full replication" strategy. See section 2.1.2 for further information.

### SUITABILITY

The Fund is intended for use as a satellite or minor allocation to global equities for investors seeking capital growth, and who have a very high risk and return profile for that portion of their investment portfolio. A minimum investment timeframe of 5 years or more is suggested.

### GENERAL INFORMATION

| | |
|---|---|
| **ASX code** | CHAT |
| **Periodic distributions** | The Responsible Entity intends to make at least annual distributions in respect of periods ending 30 June of each year. Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.<br><br>For further information, see "Distributions" in section 2.2 of the PDS. |
| **Distribution Reinvestment Plan** | Available.<br><br>For further information, see "Distribution Reinvestment Plan" in section 2.2.3 of the PDS. |
| **Fees and other costs** | See "Fees and Other Costs" in section 3 of the PDS. |
| **Minimum application / redemption amount for Authorised Participants** | One Creation Unit (unless the Responsible Entity agrees otherwise). |

### FURTHER INFORMATION ABOUT THE INDEX

The Index sponsor is Nasdaq, Inc. ("Index Provider").

To be eligible for inclusion in the Index, a security must meet the following criteria:

- be a common stock, ordinary share, depository receipt, depository share, share of beneficial interest of a REIT, limited partnership interest or tracking stock, listed on an Index-eligible exchange. Index-eligible exchanges include developed markets as defined by the Index Provider and emerging markets limited to Brazil, Mexico, South Africa, Malaysia, Taiwan and China. Chinese companies listed on mainland China stock exchanges, including China A-shares listed on the Shanghai Stock Exchange or Shenzhen Stock Exchange, are eligible only if they are accessible through the Hong Kong Stock Connect program;
- be classified by the Consumer Technology Association ("CTA") as an AI company fitting the classification of either an Enabler or Engager, as determined by the CTA;
- have a market capitalisation of at least US$2 billion and a free-float market capitalisation of at least US$500 million;
- have a six-month median daily value traded of at least US$3 million; and
- only one security per issuer may be included in the Index.

"Enabler" companies are companies that develop the building block components for AI, such as advanced machinery, autonomous systems/self-driving vehicles, semiconductors or databases used for machine learning.

“Engager” companies are companies that design, create, integrate or deliver AI in the form of products, software or systems.

At each semi-annual reconstitution, eligible securities are ranked within the Enabler and Engager categories based on their AI Intensity Rating, as determined by CTA. The Intensity Ratings capture the perceived degree of a company’s AI sector involvement within each category. The top 20 ranked companies in each category, including ties, are selected for inclusion in the Index. The Index will hold a maximum of 50 securities at each rebalance, with no more than 25 constituents from either category. Where ties would result in a category exceeding the 25-security limit, securities are ranked by Free Float Market Capitalisation, with the largest companies selected for inclusion.

The Index employs a modified AI Intensity Rating-weighted methodology. Each classification group is allocated a fixed weight, being 60% to Enablers and 40% to Engagers and each security’s initial weight within its group is determined by dividing its AI Intensity Rating by the aggregate AI Intensity Rating of all Index securities in that group. Initial weights are then adjusted so that no security’s weight exceeds 4%, and no security’s weight exceeds 25% of the ratio between its six-month median daily value traded and US$150 million. Classification group weights are only adjusted where those security-level constraints require. In each classification group, up to three of the largest qualifying companies by full market capitalisation are assigned a 4% Index weight. To qualify, a company must have an AI Intensity Rating of 100% and a full market capitalisation of at least US$250 billion. The liquidity cap still applies.

The Index is reconstituted and rebalanced semi-annually, with changes taking effect at the market open on the first trading day following the third Friday of March and September each year. In addition to the semi-annual reconstitution process, a newly listed security may be added to the Index through a monthly extraordinary addition process. To qualify, the security must satisfy the applicable security eligibility requirements, other than the ordinary market-capitalisation criteria, have commenced trading within the applicable monthly assessment period, have a full market capitalisation of at least US$250 billion and have an AI Intensity Rating of 100%. An extraordinary addition will also trigger a rebalance of the Index and may generate an Index consisting of more than 50 securities.

The nature and method of calculation of the Index may change from time to time.

Further information about the Index can be found on the Fund’s product page at www.betashares.com.au.

Neither the Responsible Entity nor any other company in the Betashares group has any control over, or responsibility for, the composition, calculation or availability of the Index. The Index Provider is not a related company of the Responsible Entity.

Past performance information about the Index is available from various sources, including stockbrokers, financial information websites and major data providers such as Bloomberg or Reuters. Any past performance information about the Index does not take into account fees, costs or taxes that may be incurred as a result of investing in the Fund. Past performance of the Index is not a reliable guide to future performance of the Index or the Fund.

A listing of the Fund’s portfolio holdings, updated daily, will be available at www.betashares.com.au.

## SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following additional risks are relevant to the Fund.

### AI industry risk

AI companies operate in rapidly evolving, competitive markets where products, models and strategies can quickly become obsolete. Heavy research and development spending may not deliver commercial success, broad adoption or adequate returns. Companies may also face intellectual property disputes, open-source competition or superior technologies. Their valuations may reflect high expectations for future growth, profitability and demand for AI products and services. If these expectations are unmet or sentiment towards AI or growth-oriented technology shifts, company values may fall significantly and rapidly.

Governments and regulators are developing and implementing rules for AI development, deployment and use. These may restrict applications, set transparency, accountability, data-use or algorithmic decision-making requirements, and impose significant compliance costs. Rules vary across jurisdictions and change rapidly. Companies in which the Fund invests may need to modify products, services or practices, increasing costs or limiting revenue. Non-compliance may result in penalties, litigation or reputational damage.

AI companies depend on specialised computing resources, including GPUs, hardware, cloud and data-centre capacity, electricity and related services, often supplied by a few providers, countries and facilities. High demand, limited capacity, and power, cooling or network constraints may make computing costly, price-volatile or difficult to access. Companies may need ongoing infrastructure investment or rely on third parties, exposing them to pricing, capacity and service risks. Slower adoption or efficiency gains may reduce computing demand. Component or raw-material shortages, higher energy prices, geopolitical tensions, trade restrictions, export controls, sanctions, natural disasters, cyber incidents or supplier or service-provider failures may further constrain supply or raise costs. These risks may increase capital and operating costs, disrupt supply chains, limit market or technology access, or delay development or delivery of AI products and services.

These risks may reduce the revenue, profitability or competitiveness of companies in which the Fund invests and the value of the Fund’s investments. The Fund’s returns may be more volatile than those of a fund investing across a broader range of industries.

### AI output, liability and public sentiment risk

AI systems may generate inaccurate, incomplete, misleading, biased, discriminatory, harmful or otherwise inappropriate outputs, including as a result of limitations in their design or operation, deficiencies in training data, insufficient testing or oversight. AI systems may also be used for unintended, harmful or malicious purposes, or be subject to manipulation, cyberattacks or other interference that compromises their operation or outputs.

Companies that develop, provide or use these systems may face legal claims, regulatory investigations, remediation costs and reputational damage. Public, investor and stakeholder concerns regarding matters such as privacy, data security, safety, intellectual property, employment impacts, energy use or the responsible use of AI may also lead to negative publicity, reduced demand for AI products and services or increased regulatory scrutiny. Actual or alleged harm, even where liability is not ultimately established, may adversely affect customer adoption, business prospects, financial performance or the market value of companies in which the Fund invests, and therefore the Fund's returns.

### Recent IPO inclusion risk

The Index may include recently listed companies under its extraordinary monthly additions process, which allows eligible companies to be added to the Index shortly after their initial public offering and listing. These companies will have limited trading and performance history, and limited information available about their operations. Accelerated index inclusion may require the Fund to acquire securities at a time when supply is constrained or market demand is elevated. This may increase the risk that securities are acquired at prices that do not fully reflect longer-term fundamentals and may be followed by periods of price correction or underperformance. Such companies may experience heightened price volatility, speculative trading and volatility, and reduced liquidity compared to more established constituents. These factors may cause the Fund to experience higher volatility of returns.

### China investments risk

The Index, and therefore the Fund, is expected to have exposure to companies listed in China. The primary risks associated with investing in Chinese securities are:

- China A-shares risk: Investments in China-A shares may be subject to additional liquidity, volatility and regulatory risks. Trading in China A-shares may be suspended without notice or for an extended period, and daily price limits may restrict price movements, delay price discovery and increase volatility. These factors may adversely affect the Fund's performance.

- Stock Connect Risk: The Fund will use the Hong Kong Stock Connect program to access China A-Shares listed on the Shanghai Stock Exchange and Shenzhen Stock Exchange. Investments in China A-shares are subject to foreign ownership limits and daily quota restrictions under the Stock Connect program, which may restrict the Fund's ability to acquire or retain certain securities at desired times and could affect the implementation of the Fund's investment strategy. Additional risks include clearing and settlement risk, operational and counterparty risk, and regulatory risk.

- Tax risk: There are risks associated with the tax laws, regulations and practice of the People's Republic of China in respect of capital gains and interest on investments in China. Any change to these tax laws could increase the tax liability of the Fund, which may result in the Net Asset Value of the Fund being adversely affected.

### Emerging markets risk

Further to the description of international investment risk in section 4 of the PDS, the Fund will be exposed to Brazil, Mexico, South Africa, Malaysia, Taiwan and China, which are emerging markets. Emerging markets are generally considered riskier than developed markets due to factors such as lower liquidity, the potential for political unrest, the increased likelihood of sovereign intervention (including default and currency intervention), currency volatility, repatriation of both investment income and capital may be subject to restrictions and increased legal risk. In addition, there may be less publicly available information about issuers, and inconsistent and potentially less stringent accounting, auditing and financial reporting requirements and standards of practice comparable to those applicable in developed markets. Emerging market investments therefore may experience increased asset price volatility, and face higher currency, default and liquidity risk.

### Small and medium sized companies risk

The Index, and therefore the Fund, may have a relatively high degree of exposure to small and medium sized companies, as measured by market capitalisation (in addition to exposure to large cap companies). Such companies may be more vulnerable to adverse general market or economic developments, and their securities may be less liquid and may experience greater price volatility than larger, more established companies as a result of several factors, including limited trading volumes, products or financial resources, and less publicly available information. Accordingly, such companies are generally subject to greater market risk than larger, more established companies, and may underperform other segments of the market or the equity market as a whole. This may cause the Fund to experience higher volatility of returns compared to a fund that invests solely in larger, more established companies.

### Concentration risk

Further to the description of concentration risk in section 4 of the PDS, the Index, and therefore the Fund, will have a high degree of exposure to companies for which artificial intelligence is a core element of their business. The Fund is expected to have significant exposure to the information technology sector and to companies involved in semiconductors, computing infrastructure, software, databases, advanced machinery and autonomous systems. This concentration may cause the Fund to experience higher volatility of returns compared to a fund that has more diverse exposure to a variety of sectors.

### DISCLAIMER

The Fund is not sponsored, endorsed, sold or promoted by Nasdaq, Inc. or its affiliates (Nasdaq, Inc, with its affiliates, are referred to as the "Corporations"). The Corporations have not passed on the legality or suitability of, or the accuracy or adequacy of descriptions and disclosures relating to, the Fund.
