## Shareholder Outreach

PMET is also pleased to announce its participation in a series of conferences and investor events through the end of 2026. The program will provide opportunities to engage with institutional investors, analysts and industry participants across Australia, Canada and Europe as the Company prepares to release its updated lithium-tantalum Feasibility Study for the CV5 Pegmatite at its 100%-owned Shaakichiuwaanaan Project in Quebec, Canada.

"With the release of the updated Feasibility Study, this is an opportunity to bring investors up to date on Shaakichiuwaanaan and the work advancing the project toward development," said Ken Brinsden, President, CEO and Managing Director of PMET. "These events will allow us to meet with existing shareholders and introduce the project to new investors across several of our key markets. Additionally, these conferences will be supported with extensive virtual or in-person non-deal roadshows."
