ASX Announcement
11 November 2026

UPDATED LOAN FACILITIES AND TRADING UPDATE

Range International Limited (ASX:RAN, **Company** or **Range**), manufacturer of Re>Pal™ 'zero-waste' plastic pallets, is pleased to advise that it has agreed with lenders who are owed the majority of the funds under the previous Directors and management loan facility (announced on 27 December 2024) to updated terms, which includes extending the loan term until 31 January 2028.

Following the outcome of the recent Entitlement Offer undertaken by the Company which successfully raised circa. A$937K (before costs), the Board considered the most effective use of the funds raised. As part of these deliberations, the Company was able to secure agreements from lenders to updated terms, which in effect, reduces the amount that was due to mature in December 2026 from circa. A$500K to A$150K. This releases further funds to be deployed to the Company's growth initiatives as it continues to gain momentum into 2027.

The updated loan facilities will be provided by Directors (or their associated entities) and management of the Company on commercial terms.

The material terms of the updated loan facilities are as follows:

- **Loan facility amounts**: Total of A$365,000.
- **Loan term**: From 24 December 2026 until 31 January 2028.
- **Interest rate**: 18% per annum on any amounts drawn down.
- **Establishment fee**: Nil
- **Security**: Nil, unsecured.
- **Conversion rights**: Nil, there is no ability to convert to shares of the Company.
- **Termination**: The agreements will terminate on an Event of Default or a Change of Control Event.
- **Warranties and representations**: The agreements also contain warranties and representations standard for an agreement of this nature.

Trading Update

The Company refers to the earlier quarterly update on 27 October 2026 that referenced an existing client that was in the late stages of issuing a purchase order (PO) that will see the Company acquire 338 tonnes (1.5 months of the Company's total needs) of feedstock plastic on commercially attractive terms. Further to this, the

Company is pleased to confirm that the client has submitted a PO for 3,000 new pallets which will turn it into a cash-positive transaction.

This announcement has been approved for release by the Board of the Company.
