PALADIN ANNOUNCES A$525 MILLION FULLY UNDERWRITTEN EQUITY RAISING TO ACCELERATE PALADIN'S GROWTH STRATEGY

Paladin Energy Ltd (ASX:PDN, TSX:PDN) (**Paladin** or the **Company**) announces it has launched a fully underwritten equity raising, comprising (i) an A$474 million ASX institutional placement of new Paladin fully paid ordinary shares (**Shares**) (**ASX Placement**), and (ii) a Canadian "bought deal" private placement to raise C$50 million (~A$51 million) pursuant to the Listed Issuer Financing Exemption (as defined herein) (**TSX Bought Deal**), to raise a total amount of A$525 million (together, the **Offer**).[1]

Additionally, Paladin intends to invite Eligible Shareholders (as defined herein) to participate in a non-underwritten Share Purchase Plan to acquire Shares at the same price as the ASX Placement to raise up to a further A$50 million (before costs) (**SPP**).

The equity raising positions Paladin for its next phase of growth, funding the ongoing development of the Patterson Lake South Project (**PLS Project**), potential resource growth and mine life extension at Triple R, and advancing exploration opportunities across the broader Athabasca Basin region portfolio.

Highlights

- A fully underwritten equity raising to raise A$525 million (before costs), comprising:
    - A fully underwritten ASX Placement to raise A$474 million (before costs); and
    - A fully underwritten TSX Bought Deal to raise ~A$51 million (C$50 million) (before costs)
- Opportunity for Eligible Shareholders with registered addresses in Australia and New Zealand to participate via a non-underwritten SPP to raise up to a further A$50 million (before costs)
- All Shares under the ASX Placement and SPP will be issued at a fixed price of A$7.80 per new Share (**Offer Price**)
- Shares issued under the TSX Bought Deal will be issued at a fixed price of C$7.62 per new Share, being the approximate C$ equivalent of the Offer Price based on current exchange rates[1]
- The Offer Price of A$7.80 per Share represents a 10.3% discount to the last close of A$8.70 on the ASX on 11 November 2026
- Equity raising net proceeds will be used to fund:
    - the PLS Project's planning and execution of the CY2027 and CY2028 capital works program and early mobilisation, procurement and site readiness activities, helping protect the critical path and maintain momentum ahead of the principal construction program;[2]
    - potential Triple R mine life extension and resource growth;
    - acceleration of Athabasca Basin region exploration and growth including follow-up drilling at Atlas and Saloon East and testing of high-priority regional targets across Paladin's broader Athabasca Basin region tenure package; and
    - balance sheet flexibility by establishing a clear platform through the repayment of existing debt to support the advancement of a funding solution for the PLS Project.

Paladin MD and CEO Paul Hemburrow said:

"This equity raising allows us to accelerate Paladin's growth strategy in the Athabasca Basin region and advance a range of value-accretive initiatives across both development and exploration. With the PLS Project now firmly established as one of the most significant undeveloped uranium projects globally, we believe this capital positions us to unlock substantial value through project advancement, maintain momentum towards targeted first production in 2031 and capitalise on the long-term outlook for the uranium market.

"Recent exploration success at Atlas and Saloon East has reinforced our confidence in the broader district potential and supports an expanded exploration strategy aimed at growing and enhancing the already compelling PLS Project development opportunity, while continuing to demonstrate the significant upside across our broader Athabasca Basin portfolio."
