2.1. Basis of Preparation

These condensed interim consolidated financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") applicable to the preparation of interim financial statements under International Accounting Standard ("IAS") 34, *Interim Financial Reporting*. These condensed interim consolidated financial statements do not include all of the information required for full financial statements and should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2025, which have been prepared in accordance with IFRS.

The accounting policies applied in these condensed interim consolidated financial statements are consistent with those applied in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2025, except for the adoption of the new IFRS amendments effective January 1, 2026 (*note 2.2*).

These condensed interim consolidated financial statements were approved by the Board of Directors on November 12, 2026.

2.2. New IFRS Amendments Adopted

Effective January 1, 2026, the Company adopted amendments to IFRS 9, *Financial Instruments*, and IFRS 7, *Financial Instruments: Disclosures*, providing clarifications for, among other things, the date of recognition and derecognition of financial assets and liabilities, and updating the disclosures for equity instruments designated at fair value through other comprehensive income. These amendments did not have a material impact on the Company's condensed interim consolidated financial statements.

2.3. New Accounting Pronouncements Not Yet Adopted

IFRS 18, *Presentation and Disclosure in Financial Statements*

Effective for annual reporting periods beginning on or after January 1, 2027, IFRS 18 will replace IAS 1, *Presentation of Financial Statements*, and is to be applied retrospectively. While IFRS 18 will not affect the recognition or measurement of items in the financial statements, it introduces a defined structure for the statement of profit or loss to increase comparability of similar entities and the disclosure of management-defined performance measures ("MPMs") within the financial statements.

The Company is currently assessing the detailed implications of applying the standard to its consolidated financial statements and has identified the following primary impacts based on its preliminary assessment:

- Income and expenses will be grouped into new categories including operating, investing and financing activities, as well as income taxes, resulting in the introduction of new subtotals including operating profit (loss) and earnings (loss) before financing and income taxes; and
- MPMs identified to date include adjusted net earnings (loss) and adjusted earnings (loss) before interest, taxes, depreciation and amortization ("adjusted EBITDA"), as these measures represent subtotals of income and expenses that DPM currently uses in public communications outside the financial statements to communicate management's view of the financial performance of the Company as a whole.

The Company intends to apply IFRS 18 effective January 1, 2027 with the comparative information for the year ending December 31, 2026 restated to conform to the presentation requirements under the new standard.

3. Acquisition of Adriatic Metals plc ("Adriatic")

On September 3, 2025, the Company completed the acquisition of Adriatic, adding the Vareš operation, a producing silver-lead-zinc-gold underground mine in Bosnia and Herzegovina, to its operating portfolio. The financial results of Vareš have been included in the Company's consolidated financial statements since the date of acquisition.

On August 10, 2026, DPM declared commercial production at Vareš. From that date, the mine was accounted for as a producing mine.

4. Financial Instruments

Set out below is a comparison, by category, of the carrying amounts of the Company's financial instruments that are recognized in the condensed interim consolidated statements of financial position:

	Financial instrument classification	Carrying Amount	
		September 30, 2026	December 31, 2025
Financial assets			
Cash and cash equivalents	Amortized cost	**839,180**	497,797

Other accounts receivable	Amortized cost	**60,552**	92,039
Restricted cash	Amortized cost	**602**	602

Financial liabilities			
Accounts payable and accrued liabilities	Amortized cost	**124,010**	201,863
Commodity swap contracts *(a)*	Derivatives for fair value hedges	**961**	4,270
Copper stream liability *(b)*	Fair value through profit or loss	**54,531**	45,565

The carrying values of all the financial assets and liabilities measured at amortized cost approximate their fair values as at September 30, 2026 and December 31, 2025.

(a) Commodity swap contracts

The Company enters into cash settled commodity swap contracts from time to time to swap future contracted monthly average metal prices for fixed metal prices to eliminate or substantially reduce the metal price exposure associated with the time lag between the provisional and final determination of concentrate sales.

As at September 30, 2026, the Company's outstanding commodity swap contracts, all of which mature within four months from the reporting date, are summarized in the table below:

Commodity hedged	Volume hedged	Weighted average fixed hedging price
Payable gold	13,750 ounces	$4,212/ounce
Payable copper	4,598,837 pounds	$6.34/pound

The Company designates the spot component of commodity swap contracts as fair value hedges.

The fair value gain or loss on commodity swap contracts is calculated based on the corresponding London Metal Exchange ("LME") forward copper prices and New York Commodity Exchange forward gold prices, as applicable. As at September 30, 2026, the net fair value loss on all outstanding commodity swap contracts was $0.2 million (December 31, 2025 – $3.5 million), of which $0.8 million (December 31, 2025 – $0.8 million) was included in other current assets and $1.0 million (December 31, 2025 – $4.3 million) in accounts payable and accrued liabilities.

For the three and nine months ended September 30, 2026, the Company recognized, in revenue, net losses of $0.5 million (2025 – $5.8 million) and net losses of $6.1 million (2025 – $16.8 million), respectively, on commodity swap contracts.

(b) Copper stream agreement

As part of the Adriatic acquisition (*note 3*), the Company assumed a copper stream agreement with Gold Royalty Corp. ("Gold Royalty"). Under the assumed terms of this agreement, the Company is required to deliver, on a monthly basis, copper warrants purchased on the LME, with the volume equivalent to 24.5% of the contained copper in concentrates produced at the Vareš mine. The value of the copper warrants is determined based on the official LME copper cash price at the time of delivery. In exchange, Gold Royalty is required to make a cash payment equal to 30% of the value of each copper warrant delivered. The remaining 70% of the warrant value is applied as a repayment against a $22.5 million prepayment. The agreement will remain in effect for the life of the Vareš mine, unless terminated earlier upon mutual consent of the parties or in the event of default.

As at September 30, 2026, the fair value of the copper stream liability was $54.5 million (December 31, 2025 – $45.6 million), of which $8.8 million (December 31, 2025 – $4.0 million) was included in current portion of long-term liabilities and $45.7 million (December 31, 2025 – $41.6 million) in other long-term liabilities in the condensed interim consolidated statements of financial position. Certain assumptions in the fair value included forecast copper price per pound of $6.23 to $6.57 (December 31, 2025 – $5.50 to $5.60) between 2026 and 2039, and a discount rate of 14.60% (December 31, 2025 – 13.63%). For the three and nine months ended September 30, 2026, the Company recognized a fair value loss of $5.8 million (2025 – $0.7 million) and $12.1 million (2025 – $0.7 million), respectively, in other (income) expense.

(c) Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: based on quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: based on inputs which have a significant effect on fair value that are observable, either directly or indirectly from market data; and
- Level 3: based on inputs which have a significant effect on fair value that are not observable from market data.

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at September 30, 2026 and December 31, 2025:

			As at September 30, 2026	
	Level 1	**Level 2**	**Level 3**	**Total**

During the nine months ended September 30, 2026 and the year ended December 31, 2025, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements.

5. Debt

(a) DPM Revolving Credit Facility

DPM has a committed revolving credit facility (the "RCF") with a consortium of five banks that matures in February 2030. The facility is secured by pledges of DPM's investments in Ada Tepe, Chelopech, and Čoka Rakita project and by guarantees from certain subsidiaries that hold these assets. Initially, DPM is permitted to borrow up to an aggregate principal amount of $400.0 million, which can be increased pursuant to an accordion feature that permits, subject to certain conditions, the facility to be increased to $550.0 million. The cost of borrowing is based on the Secured Overnight Financing Rate ("SOFR"), plus a spread, which is currently 2.00%, and can range between 2.00% and 3.25% depending upon DPM's leverage. The RCF contains financial covenants that require DPM to maintain: (i) a Debt Leverage Ratio below 3.75:1, and (ii) a minimum net worth equal to $1,600 million plus (minus) 50% of ongoing net earnings (loss) plus 50% of all equity raised by DPM, in each case, after December 31, 2025, as defined under the RCF.

As at September 30, 2026 and December 31, 2025, DPM was in compliance with all financial covenants and $nil was drawn under the RCF.

(b) Other credit agreements and guarantees

Chelopech and Ada Tepe have a $15.0 million multi-purpose credit facility that matures on November 30, 2026 and is guaranteed by DPM. As at September 30, 2026, $12.8 million (December 31, 2025 – $9.6 million) had been utilized in the form of letters of credit and letters of guarantee, primarily in respect of concession contracts with the Bulgarian Ministry of Energy.

Chelopech and Ada Tepe also have a Euro 38.0 million ($43.1 million) credit facility to support mine closure and rehabilitation obligations in respect of concession contracts with the Bulgarian Ministry of Energy. This credit facility matures on November 30, 2026 and is guaranteed by DPM. As at September 30, 2026, $38.3 million (December 31, 2025 – $30.3 million) had been utilized in the form of letters of guarantee.

Ada Tepe also has a $10.3 million multi-purpose credit facility that matures on November 30, 2026 and is guaranteed by DPM. As at September 30, 2026, $5.2 million (December 31, 2025 – $10.2 million) had been utilized in the form of letters of credit and letters of guarantee, primarily in respect of exploration contracts with the Bulgarian Ministry of Energy.

Advances under these facilities at Chelopech and Ada Tepe bear interest at a rate equal to the one month SOFR plus 2.5%. The letters of credit and guarantee bear a fee of 0.6% based on the amounts issued.

All these facilities are in the process of being renewed to November 30, 2027.

6. Share-Based Compensation Plans

The following is a summary of the new grants under the Company's share-based compensation plans during the nine months ended September 30, 2026:
