About Vitura Health Limited (ASX: VIT)

www.vitura.com.au

Vitura Health Limited is diversified digital health business listed on the ASX (ASX: VIT) and, via its subsidiaries, operates the following businesses:

www.burleighheadscannabis.com

Burleigh Heads Cannabis operates the market leading prescriber, patient, pharmacy, and supplier online ecosystem, Canview, which sells and distributes roughly 600 therapeutic product and device SKUs within Australia from roughly 70 international and domestic brands.

www.canview.com.au

Canview was developed to be a complete end-to-end healthcare ecosystem designed to provide doctors, pharmacists, and patients with a simple and cost-effective way to facilitate the treatment of patients with increased efficiency and compliance. The Canview system is based on a medicines wholesaling platform which seamlessly brings together several disparate SAAS (software-as-a-service) providers including inventory control, invoicing, customer management, reporting and analytics, all linked together through customised integration

software owned and operated by Vitura. Underpinning the suite of SAAS elements are several bespoke, internally generated operating procedures and intellectual property assets, supported by the Canview customer support and infield customer engagement teams. Through the in-house integration of the different elements which together make up Canview, the platform provides the best user experience in the industry.

Canview provides Australian doctors with the ability to integrate their patient management systems directly with the platform and to use their patient information to generate electronic prescriptions within the Canview platform, without the need to input the patient's details. Prescriptions are then sent directly to the Canview patient app where patients can manage their treatment and submit the prescription and subsequent repeats to one of the roughly 4,700 Australian pharmacies with accounts on Canview for dispensing.
