24 Zeus Electric Van Orders received as Sales Momentum Builds

More Orders Secured:

- **Further 24 orders secured for Pure One's Zeus electric van range.**
- **Brings total Zeus orders to 33 vehicles since launch in September**
- **Pricing to range between A$70,000 and A$100,000 per vehicle, consistent with pricing announced in October 2026.**
- **Delivery of the additional 24 vehicles is expected during 2027.**

Dealer Network Expansion & New Market Opportunities

- **Two additional dealers appointed in Victoria and Western Australia.**
- **Pure One on track towards its target of appointing 10 dealers by mid-2027.**
- **AdventureEV joins Pure One as a VIP customer, with orders for Zeus electric vans intended for recreational vehicle (RV) and campervan conversion applications.**

Sydney 23 November 2026: Australian clean technology company Pure One Corporation Limited (ASX: P1E) ("Pure One" or "the Company") is pleased to announce that it has secured a further 24 orders for its Zeus electric van range, building on the initial nine vehicle orders announced in October following the range's Australian launch.

The additional orders, comprising a combination of dealers and end-customer purchases, represent another important commercial milestone for Pure One as it advances the rollout of its electric commercial vehicle range across Australia.

The latest orders would bring the Company's total Zeus electric van order book to 33 vehicles. The additional 242 vehicles are expected to be delivered during 2027.

The latest orders reflect growing interest and market engagement as Pure One progresses its strategy to establish a national distribution network and grow sales of its electric commercial vehicle range.

New Dealers Appointed

Pure is also pleased to confirm that it has signed another dealer as it pushes to establish a national distribution network for the Zeus electric van range. The newly appointed dealers are:

- Car Sales Express Pty Limited – Victoria.
- Londy Pty Limited trading as Purely Commercials

These appointments bring Pure One's dealer network to five, building on the three dealers announced in October 2026.

The expansion of the dealership network strengthens Pure One's distribution presence across key Australian markets, providing additional sales channels and improving access to the Zeus electric van range for commercial customers and fleet operators.

With four dealers now appointed, Pure One has achieved 50% of its targeted 10-dealer network and remains on track to reach its objective by mid-2027. The Company will continue to pursue further dealership appointments as part of its strategy to expand national market coverage and support future vehicle sales.

AdventureEV Joins as VIP Customer with Growing Interest in Lifestyle Applications

Pure One is also pleased to welcome AdventureEV as a significant new customer. AdventureEV is an Australian specialist in the design and manufacture of premium electric campervan fit-outs and customised EV van conversions. AdventureEV intends to utilise Pure One’s Zeus electric vans as one of their the base platform for its recreational vehicle (RV) and campervan conversions, opening up new opportunities for the Zeus range in Australia’s growing electric recreational vehicle market.

AdventureEV's interest in the Zeus platform highlights an emerging application for the Company's electric commercial vehicles beyond traditional cargo and passenger transport.

The Zeus range offers one of the highest payload configurations (1,890kg) in the EV van sector, which is attractive and provides custom fit-out companies with flexibility.

With growing domestic interest in the nomad and recreational travel lifestyle, Pure One and AdventureEV are well positioned to meet increase demand through the distribution and conversion of leading EV vehicles.

Comment

Pure One Managing Director Scott Brown said: *"Securing an additional 24 Zeus van orders is a significant achievement for Pure One and demonstrates the momentum we are quickly establishing following the September launch of the range in Australia."*

"We are already seeing that momentum translate into additional vehicle orders and an expanding dealer network, resulting in a material contribution to group revenues. With five dealers now appointed, we are progressing well towards our target of 10 dealers by mid-2027."

"What is particularly encouraging is the diversity of applications being considered for the Zeus range. Alongside traditional cargo and commercial transport, we are receiving interest in mobile food vending and recreational vehicle conversions. This represents a significant addressable market opportunity for Pure, leveraging the unique specifications of the Zeus range to generate sales through different market segments."

"Our focus is now on maintaining this sales momentum, expanding our national distribution network and progressing vehicle deliveries in 2027."

Zeus Van Range

Image 2: Pure One Zeus Van Range

About Pure One Corporation Limited

Pure One Corporation Limited (ASX: P1E) is a clean technology company focused on delivering zero-emission mobility and energy solutions. Building on its legacy in hydrogen technologies, Pure One has expanded into battery-electric vehicles and battery-swap solutions, creating commercial and sustainable value for customers across Australia and beyond.

The Company continues to support hydrogen fuel as a domestically sourced clean energy option while offering innovative multi-technology solutions that enable commercial fleets to transition to zero-emission operations.

Concurrently, the Company is developing natural gas projects in Australia through Eastern Gas Corporation Limited (ASX: EGA) and indirectly in Botswana through its strategic investment in Botala Energy (ASX: BTE), a Botswana-focused energy company listed on the ASX.

Strategically, Pure One will also prioritise incubation for early-stage companies or projects within the clean energy sector, with the aim of realising profits from those investments. For further information, see www.pure1corp.com.

Forward-Looking Statements

This announcement may contain 'forward looking statements' concerning the financial conditions, results of operations and business of the Company. All statements other than statements of fact are or may be deemed to be 'forward looking statements'. Often, but not always, 'forward looking statements' can be identified by the use of forward looking words such as 'may', 'will', 'expect', 'intend', 'plan', 'estimate', 'anticipate', 'continue', 'outlook', and 'guidance' or other similar words, and may include, without limitation, statements regarding plans, strategies and objectives of management, future or anticipated production or construction commencement date and expected costs, resources and reserves, exploration results or production outputs. Forward looking statements are statements of future expectations that are based on management's current expectations and assumptions, but known and unknown risks and uncertainties could cause the actual results, performance or events to differ materially from those expressed or implied in these statements. These risks include, but are not limited to, price fluctuations, actual demand, currency fluctuations, drilling and production results, resource and reserve estimates, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory developments, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimates.
