BRIGHTSTAR
RESOURCES LIMITED

Building a Multi-Asset +5Moz Western Australian Gold Producer

2026 Annual General Meeting

NOVEMBER 2026
ASX : BTR

Important Notices & Disclaimers

Important Notices

- This presentation (**Presentation**) has been prepared by Brightstar and has been authorised for release by the Board of Directors of Brightstar on the basis it is to be read in conjunction with these important notices and disclaimers.
- This Presentation dated 24 November 2026 has been prepared by the management of Brightstar Resources Limited (ACN 100 727 491) ("BTR", "Brightstar" or "Company").

Disclaimer

- This Presentation has been prepared by Brightstar based on information from its own and third-party sources and is not a disclosure document. No party other than Brightstar has authorised or caused the issue, lodgement, submission, despatch or provision of this Presentation, or takes any responsibility for, or makes or purports to make any statements, representations or undertakings in this Presentation. Except for any liability that cannot be excluded by law, Brightstar and its respective related bodies corporate, directors, employees, advisers and agents disclaim and accept no responsibility or liability for any expenses, losses, damages or costs incurred by any party relating in any way to this Presentation including, reliance without limitation, the information contained in or provided in connection with it, any errors or omissions from it however caused, lack of accuracy, completeness, currency or reliability or you or any other person placing any on this Presentation, its accuracy, completeness, currency or reliability.
- This Presentation is not a prospectus, disclosure document or other offering document under Australian law or under any other law. It is provided for information purposes and is not an invitation nor offer of shares or recommendation for subscription, purchase or sale in any jurisdiction. This Presentation does not purport to contain all the information that a prospective investor may require in connection with any potential investment in Brightstar. Each recipient must make its own independent assessment of Brightstar before making an investment decision.

Forward-Looking Statements

- This Presentation contains certain "forward-looking statements". The words "expect", "anticipate", "estimate", "intend", "believe", "guidance", "should", "could", "may", "will", "predict", "plan" and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future financial position or performance are also forward-looking statements. Forward-looking statements, opinions and estimates provided in this Presentation are based on assumptions and contingencies which are subject to change without notice and involve known and unknown risks and certainties and other factors which are beyond the control of Brightstar and its directors and management. Forward-looking statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Actual results, performance or achievements may differ materially from those expressed or implied in such statements and any projections and assumption on which these statements are based. These statements may assume the success of Brightstar business strategies. The success of any of those strategies will be realised in the period for which the forward-looking statement may have been prepared or otherwise. Readers are cautioned not to place undue reliance on forward-looking statements, particularly in light of the current economic climate and the significant volatility, and except as required by law or regulation, none of Brightstar or their respective representatives or advisers assumes any obligation to update these forward-looking statements. No representation or warranty, express or implied, is made as to the accuracy, likelihood of achievement or reasonableness of any forecasts, prospects, or statements in relation to future matters contained in this Presentation. The forward-looking statements are based on information available to Brightstar as at the date of this Presentation. Except as required by law or regulation (including the ASX Listing Rules), none of Brightstar and their respective representatives or advisers undertakes any obligation to provide any additional or updated information whether as a result of a change in expectations or assumptions, new information, future events, or results or otherwise. Indications of, and guidance or outlook on future financial position or performance are also forward-looking statements.

Aspirational Statements

- The statements which may appear in this Presentation regarding the aspirations for Brightstar to undertake construction of a Sandstone processing plant in 2H'CY27 for first gold production in 2H'CY28, aligning with continued planned production growth from Brightstar's Laverton and Menzies hubs to aspirationally target Group production profile of +200koz p.a. by 2029, are aspirational statements. These statements are not production targets as Brightstar does not yet have sufficient objective reasonable grounds to believe that the statements can be achieved.
- Importantly, the statements are considered aspirational because, as disclosed in its ASX announcement dated 30 April 2025 titled 'Sandstone gold project accelerating towards development' (**April 2025 Announcement**), Brightstar has not yet completed a pre-feasibility study for Sandstone, noting that Sandstone has a long operating history with detailed information available on historical performance across the majority of deposits, ore mineralisation styles and operating parameters (i.e. open pit mining and conventional carbon-in-leach processing conducted in the recent past). While preliminary assessments have been undertaken, as disclosed in the April 2025 Announcement, substantial further work is required before Brightstar will be in a position to have sufficient objective reasonable grounds to publish production targets or forecast financial information relating to the Sandstone Project.
- The study will need to consider a number of variables and focus areas which are expected to include, but are not limited to items within the following feasibility study workstreams: preparing robust update Mineral Resource Estimates for each deposit based on geological models generated by existing and new geological information informed by Brightstar's current drilling programs; applying current (CY26) mining cost and operational parameters to delineate economic mining optimisations, open pit mine designs and schedules that encapsulates geotechnical and metallurgical recovery information from third party test work; assessments into approvals and permitting processes, along with detailed engineering design work, optimal processing flowsheets and requisite infrastructure that delivers the best outcome of recovered metal, operating costs and capital costs which supports these aspirations.
- Brightstar confirms that the inclusion of Aspirational Statements in this presentation are based entirely on the April Announcement and contains no new information.

Important Notices & Disclaimers

Not Investment Advice

- Each recipient of the Presentation should make its own enquiries and investigations regarding all information in this Presentation including but not limited to the assumptions, uncertainties and contingencies which may affect future operations of Brightstar and the impact that different future outcomes might have. Information in this Presentation is not intended to be relied upon as advice to investors or potential investors and has been prepared without taking account of any person's individual investment objectives, financial situation or particular needs. Before making an investment decision, prospective investors should consider the appropriateness of the information having regard to their own investment objectives, financial situation and needs and seek legal, accounting and taxation advice appropriate to their jurisdiction. Brightstar are not licensed to provide financial product advice in respect of their securities.

Feasibility Study - Cautionary Statement

Goldfields Project Feasibility Study

- The production targets and forecast financial information disclosed in this presentation were first announced in accordance with ASX Listing Rules 5.16 and 5.17 in the Company's announcement 'Updated Goldfields Feasibility Study" dated 29 January 2026.
- Unless otherwise stated, the Company confirms that all material assumptions underpinning the production targets and forecast financial information derived from the production targets in the original DFS release[1] continue to apply and have not materially changed.
- The Company cautions that a portion of the production target (27%) is based on Inferred Mineral Resources. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the production targets themselves will be realised.

Production Target

- The Production Target (and forecast financial information derived from the Production Target) referred to in this announcement is underpinned by Measured and Indicated Mineral Resources of approximately 73% and Inferred Mineral Resources of approximately 27% over the DFS period.
- The total Life of Mine Production Target includes 27% Inferred Resources, 3% Indicated Resource outside of Reserve and the remaining 70% is underpinned by Proven and Probable Ore Reserves. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the Production Target itself (or the forecast financial information) will be realised.

Competent Persons Statements

- The Mineral Resources and Ore Reserves estimates disclosed in this Presentation were first disclosed in accordance with ASX Listing Rules 5.8 and 5.9 in the announcements as cross-referenced. Brightstar confirms that it is not aware of any new information or data that materially affects the information included in the relevant announcement and that all material assumptions and technical parameters underpinning the estimates in the previous announcements continue to apply and have not materially changed.

Currency

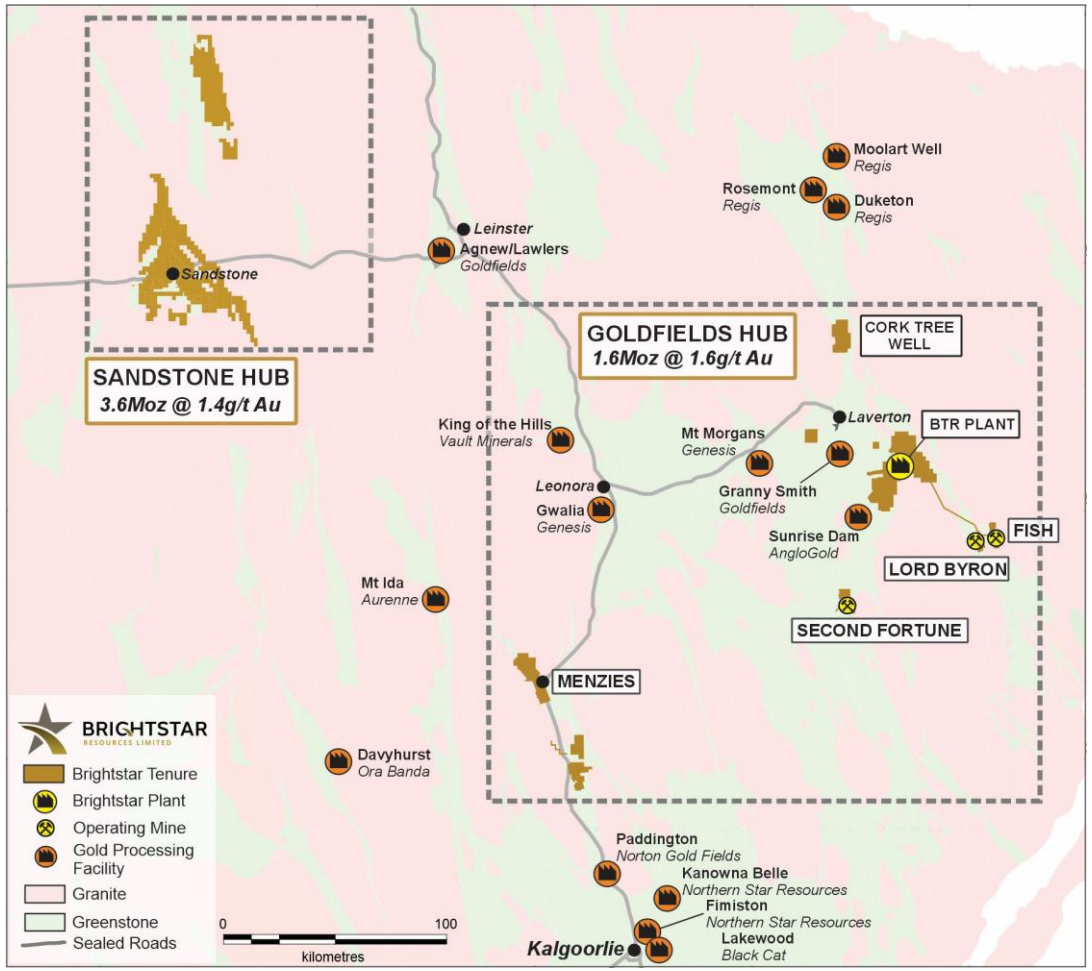

- Unless otherwise stated, all dollar values in this Presentation are reported in Australian dollars.

Compliance Statement – Production Target / Forecast Financial Information

- Brightstar's production target/forecast financial information referred to in this announcement was first disclosed in the Company's announcement titled 'Updated Goldfields Feasibility Study' released on ASX on 29 January 2026. The Company confirms that all material assumptions underpinning the production target and forecast financial information contained in the original announcement 'Updated Goldfields Feasibility Study' continue to apply and have not materially changed.

WA gold developer | 5.2Moz in Mineral Resources | Two production hubs

Goldfields first gold June 2027 with Sandstone to deliver scale; targeting **Top 10 Australian gold producer**[1]

Goldfields *Near-term production: first gold targeted June 2027*[3]

Mineral Resource[2]	1.6Moz @ 1.6g/t Au
Processing[3]	New 1.5Mtpa CIL plant, upgradeable to 2.5Mtpa
Production[3]	6-year plan averaging 75koz p.a.
Economics[3,4]	Pre-tax NPV A$606M | IRR 74% | Avg FCF A$163M p.a.

Updated DFS complete | **First gold JunQ'27** | **Plant construction underway**

Sandstone *A potential Tier-1 development: FID targeted early CY28*[2]

Mineral Resource[2]	3.6Moz @ 1.4g/t Au
Maiden Study	Pre-Feasibility Study due December Quarter
Scale	Distinct scale, long-life production centre
Funding[3]	Goldfields cash flow to contribute to delivery

Two MRE upgrades CY26 | **PFS due December 2026** | **FID targeted early CY28**

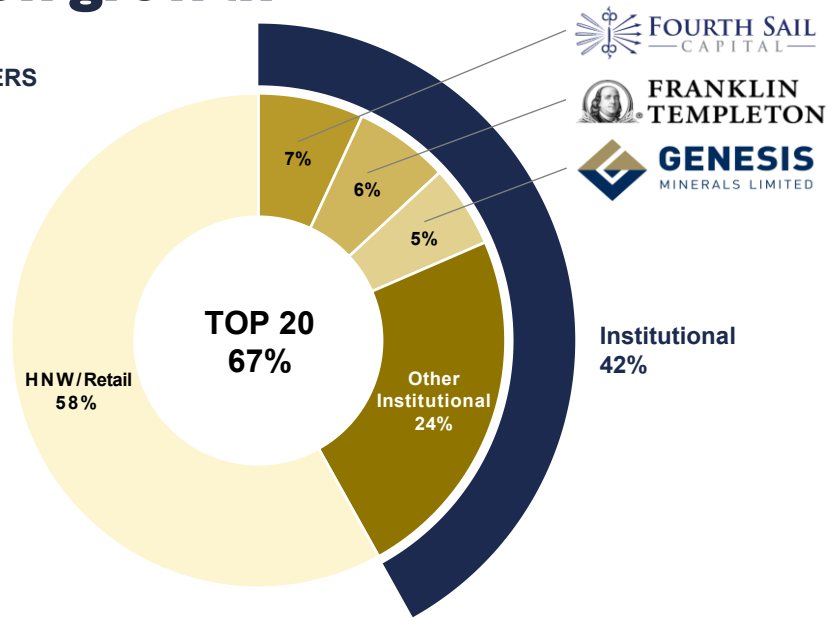

1. Refer to the Aspirational Statements disclaimer on page 2. 2. Refer to Appendices 2-4 for Mineral Resource estimates and Ore Reserve statement. 3. Refer ASX announcement 'Updated Goldfields Feasibility Study' dated 29 January 2026.
4. Assuming A$6,000/oz. Financial metrics are presented on a pre-tax basis; as at 31 December 2025, Brightstar had $209M of Group tax losses which are anticipated to be utilised for minimising ultimate tax expense.

Team & funding in place – platform for major production growth

Visible Gold in Two Mile Hill diamond core (TMHRCD26020)

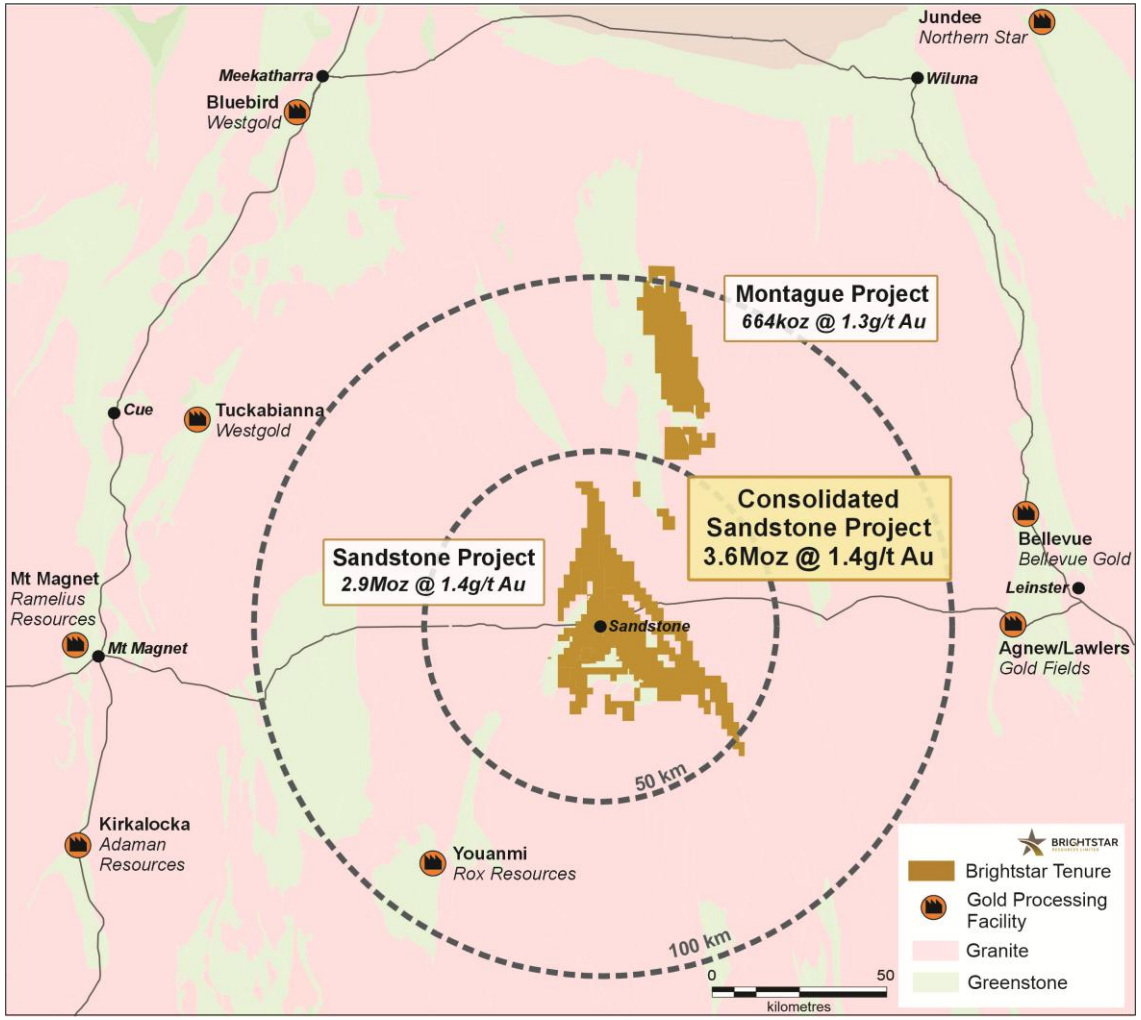

Sandstone Project

Emerging district-scale Western Australian gold development

BRIGHTSTAR
RESOURCES LIMITED

The Sandstone Value Proposition

Emerging district-scale WA gold development opportunity

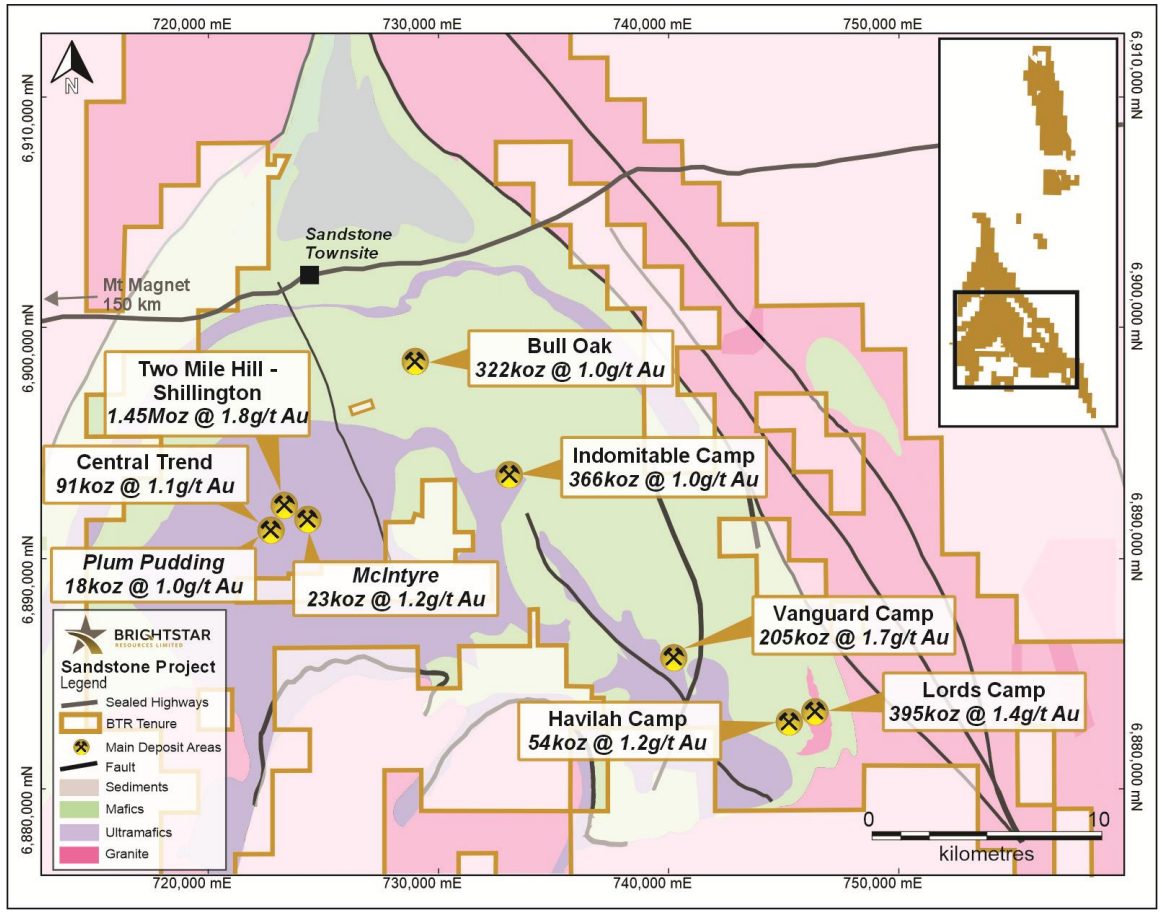

Current MRE: 3.6Moz @ 1.4g/t Au, 1.5Moz Indicated[1]

- **Tier 1 jurisdiction**
- **District-scale development opportunity**
- **Granted Mining Leases**
- **Existing processing plant site**
- **+90% metallurgical recoveries**
- **Critical mass for a major mining centre achieved**
- **Material exploration upside for Resource growth**
- **Platform is set for value creation & project de-risking**

1. *Refer to Appendix 3 for Sandstone Mineral Resource estimates.*
2. *Refer ASX announcement "Genesis Leads $82m Placement to Accelerate Sandstone Growth" dated 27 October 2026.*

Critical Mass for development

Existing Mineral Resource of **3.6Moz** Au provides critical mass for PFS evaluation and future development

1 Scale for development delivered:

- Current Mineral Resource provides **sufficient scale** for feasibility studies, permitting/approvals and a **pathway to Sandstone development**

2 Robust technical work de-risks development:

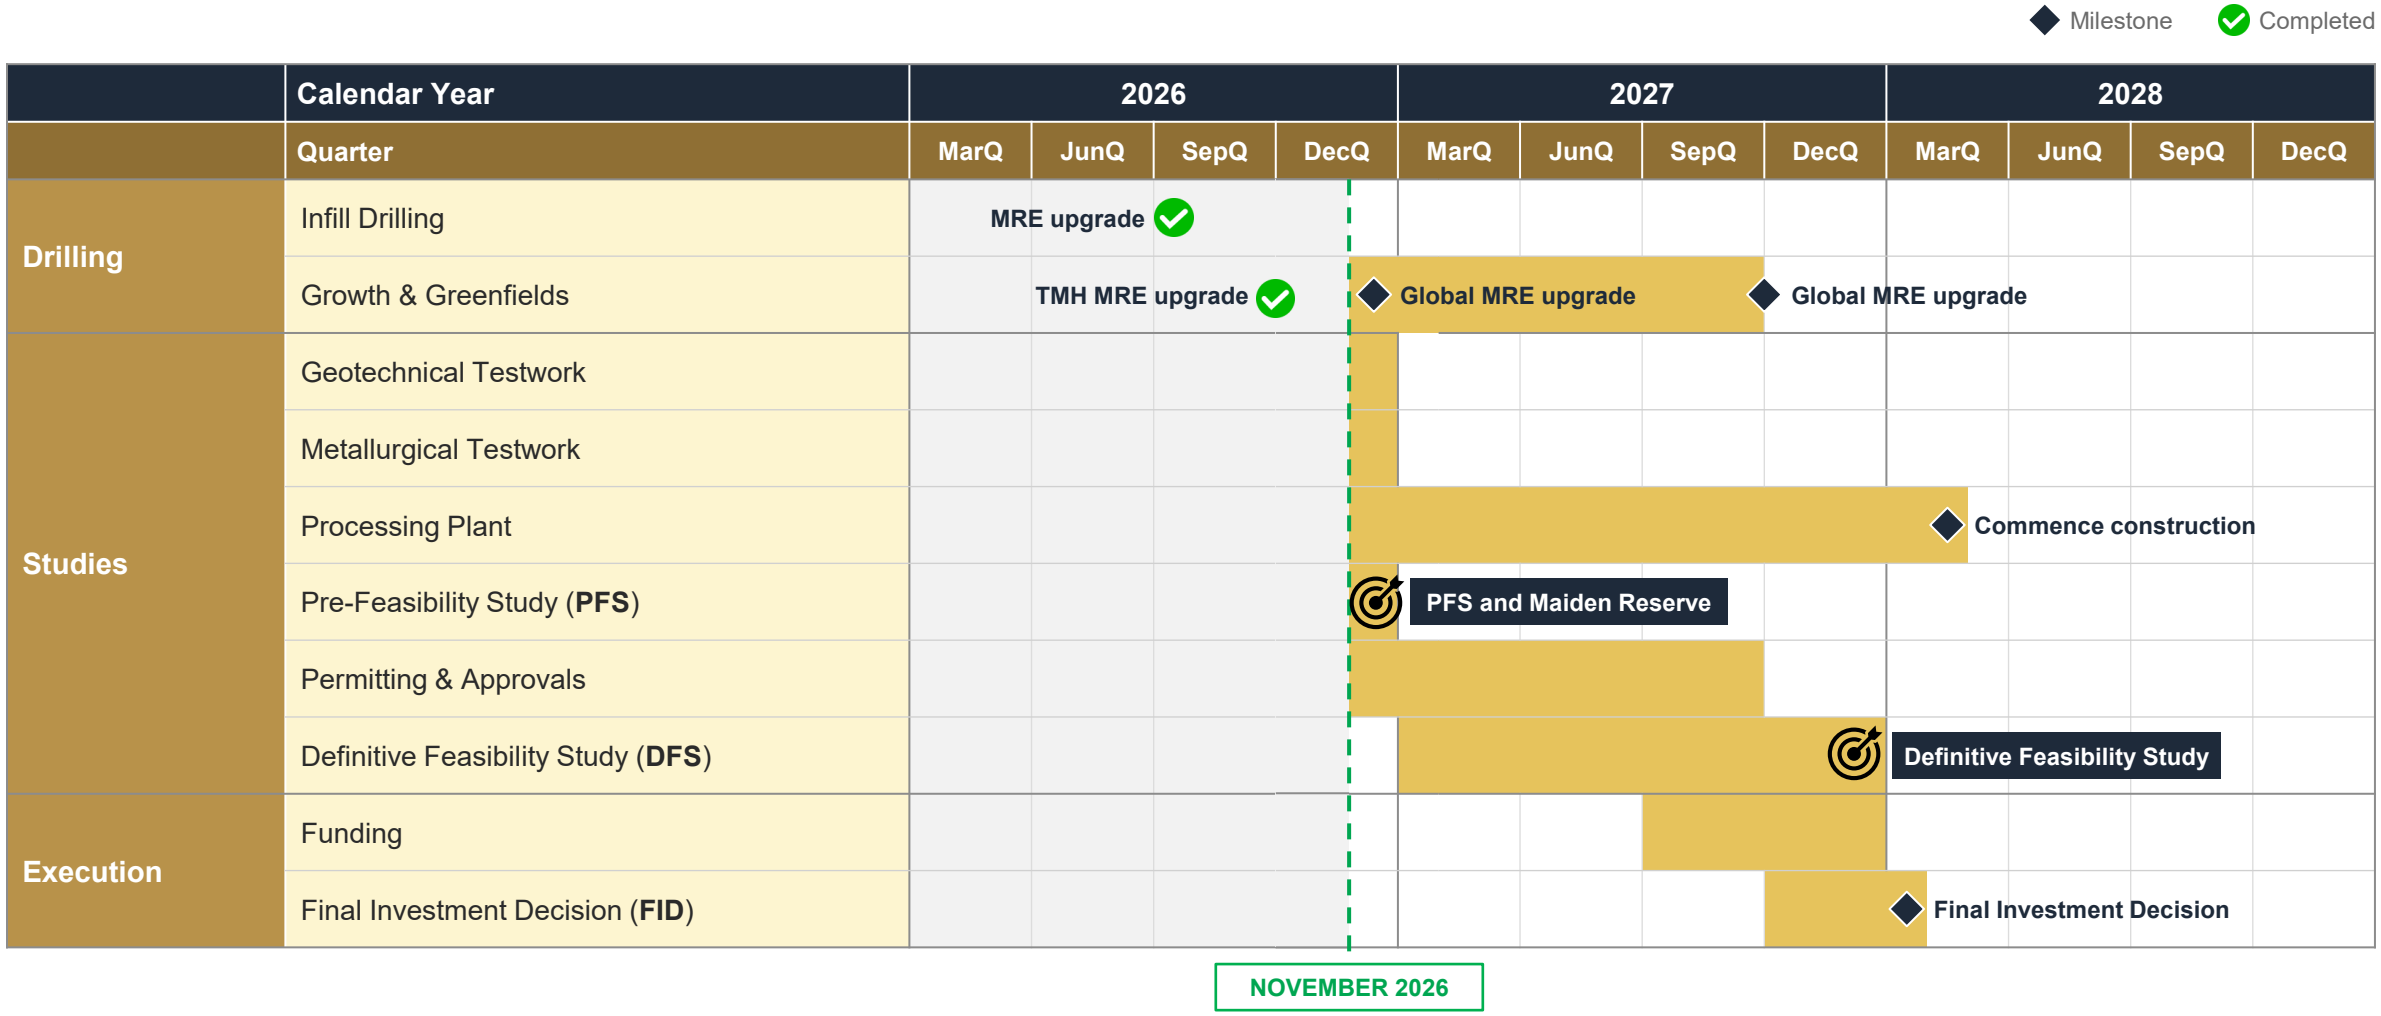

- Brightstar's technical strategy to date has **focused on improving the quality of the Mineral Resource** to de-risk future development
  - Sandstone MRE has grown by **1.2Moz Au (50%)** under Brightstar ownership to 3.6Moz Au
  - **Includes 1.5Moz @ 1.5g/t Au in Measured & Indicated category**
- Final PFS-infill programs completed
  - Focus has now pivoted to growth and planning 2027 DFS drilling programs

3 Platform set for material growth:

- **Significant exploration potential for ongoing discoveries and Mineral Resource growth**

Delivering on a district-scale opportunity

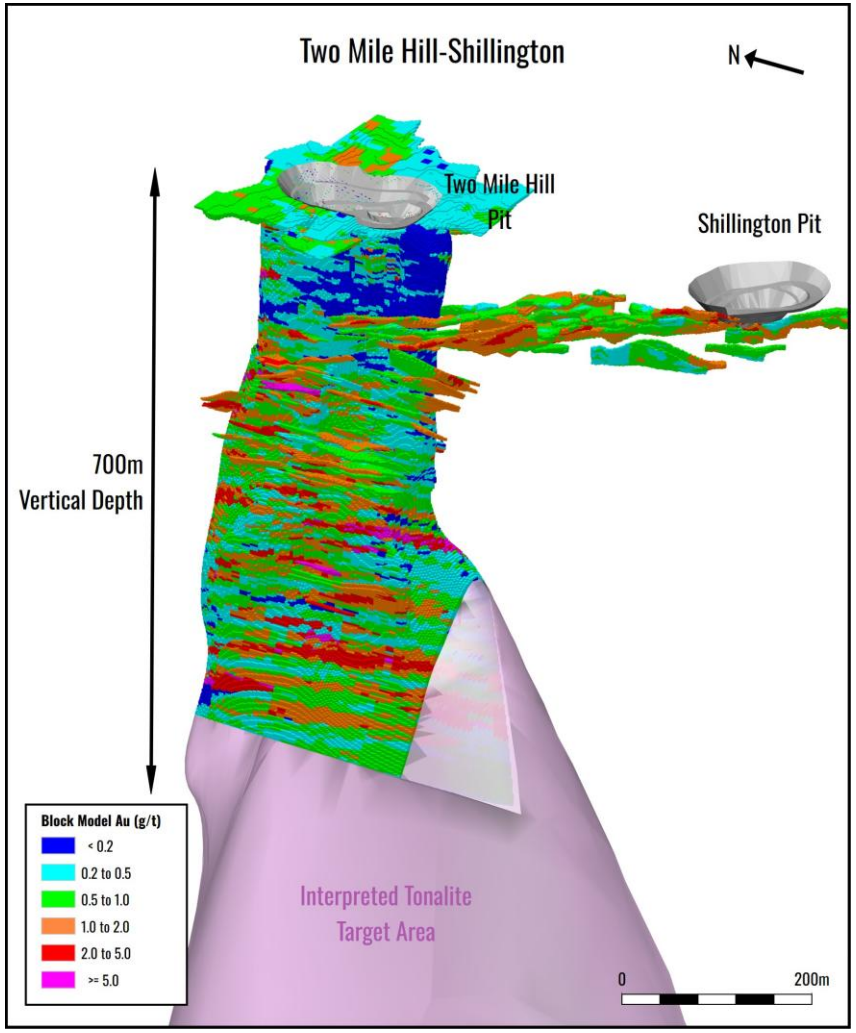

Emerging district-scale WA gold development opportunity

1. *Refer to ASX announcement 'Sandstone gold project accelerating towards development' dated 30 April 2025 and 'Strategic Plan to Unlock Sandstone" dated 27 January 2026.*

Major Discovery at Depth Two Mile Hill

Significance of discovery confirmed by **interim September 2026 MRE upgrade** ahead of further group MRE upgrade in December 2026

1 DISCOVERY AT DEPTH: THE 'SHIRVINGTON ZONE'

Material upside to the current Two Mile Hill Mineral Resource

- Mineralised tonalite **400m to 500m thick** in both completed deep holes
- **Frequent visible gold** throughout the drill holes
- Significant **depth extension** of the interpreted Two Mile Hill deposit

2 INFILL CONFIRMS WIDTH AND GRADE

Infill and extensional drilling returned significant widths and grades

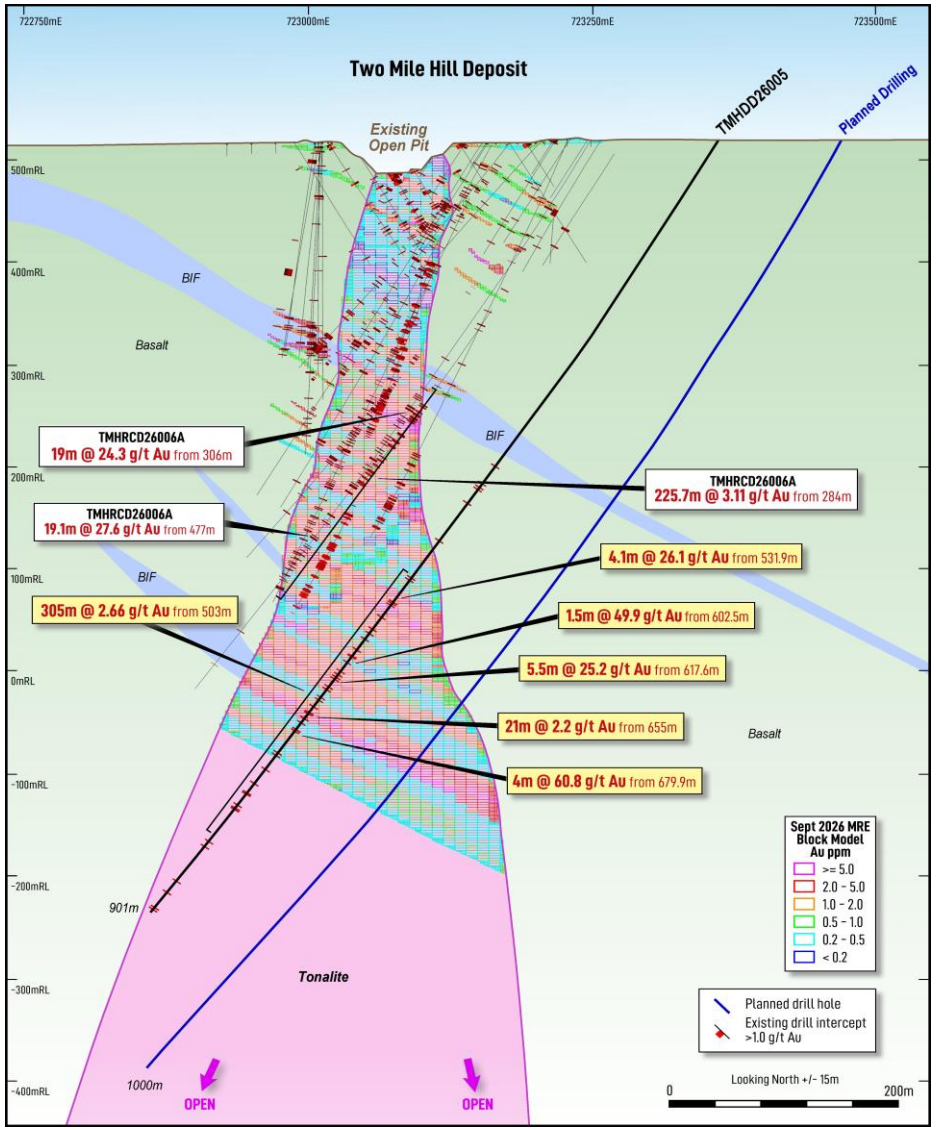

- **305m @ 2.66g/t Au** from 503m (TMHDD26005)
- **225.7m @ 3.11g/t Au** from 284m (TMHRCD26006A)
- **194m @ 2.10g/t Au** from 286m (TMHRCD26004)
- Current TMH-Shillington MRE of **1.45Moz @ 1.8g/t Au**

3 PIPELINE OF ANALOGOUS INTRUSIVE TARGETS

Exploration strategy developing in parallel with the PFS

- **Up to ten analogous felsic intrusives** identified in geophysics
- **Never systematically explored** and largely undrilled
- Bull Oak and TMH intrusives host **two of the Sandstone belt's largest deposits**

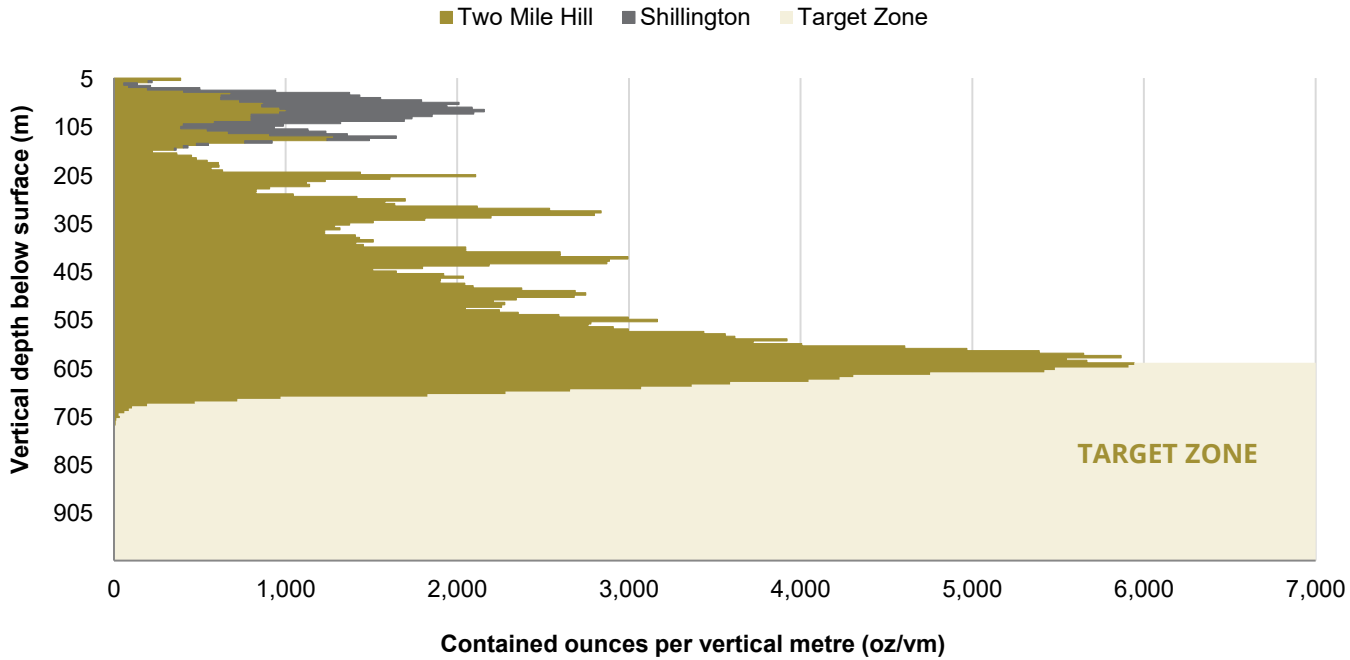

Interim Two Mile Hill MRE Upgrade

Two Mile Hill MRE doubles to 1.45Moz @ 1.8g/tAu

Deposit	Cut-off (g/t Au)	Indicated			Inferred			Total		
		kt	g/t Au	koz	kt	g/t Au	koz	kt	g/t Au	koz
Two Mile Hill open pit	0.4	2,252	1.2	87	308	0.9	9	2,560	1.2	96

Shillington	0.4	2,093	1.2	77	251	1.1	9	2,343	1.1	86
Total	**0.4/0.73**	**10,413**	**1.6**	**526**	**14,179**	**2.0**	**920**	**24,592**	**1.8**	**1,446**

TMH-Shillington Ounces per Vertical Metre (OVM)

1.5Mtpa Laverton Plant Construction

Goldfields Project

Pathway to +75koz p.a. – Construction underway | First gold June 2027

BRIGHTSTAR
RESOURCES LIMITED

1.5Mtpa Laverton Plant advancing on schedule

De-risked development pathway – Seven months to first gold

1.5Mtpa processing plant under construction to unlock existing **1.6Moz @ 1.6g/t Au Mineral Resource**

1 SIMPLIFIED BUSINESS MODEL

Staged open pit and underground operations

- **Operating model:** One OP provides base-load, one UG delivers high-grades
- **Own the processing infrastructure** – value realisation via hub-and-spoke model
- Underpinned by **5+ years of owner-operator experience**

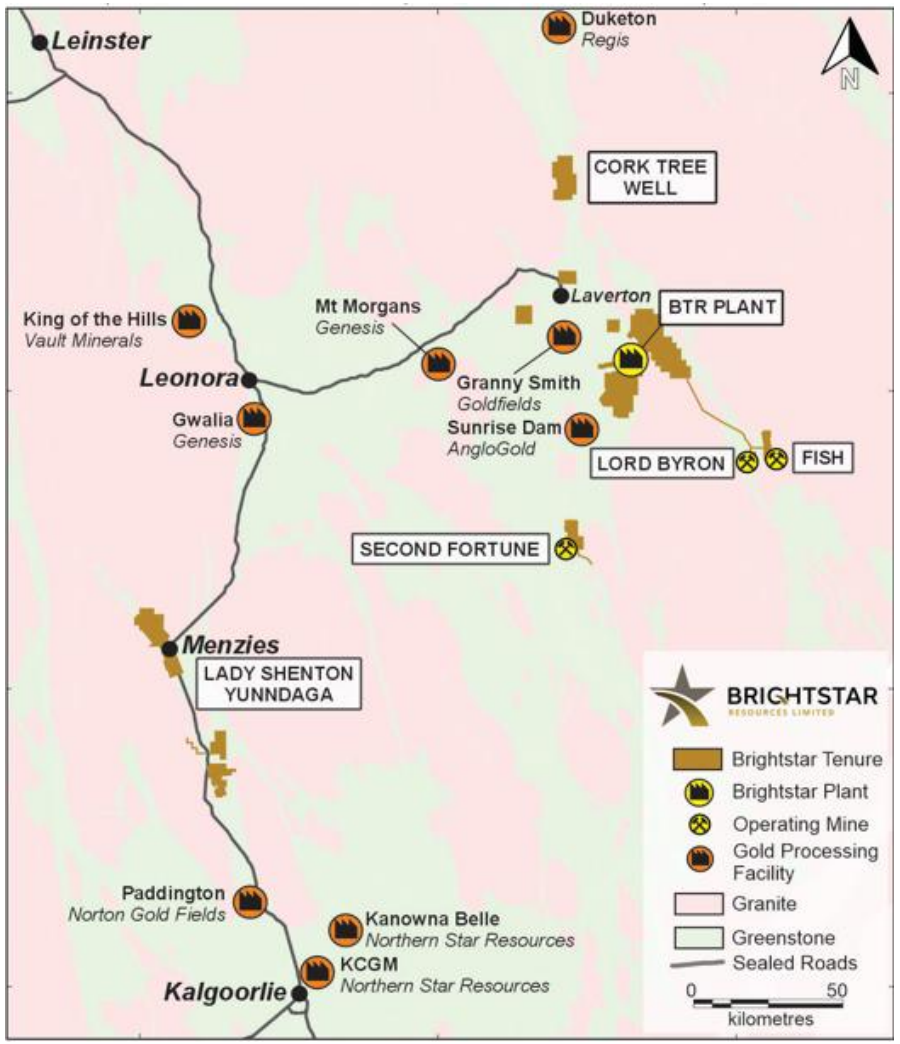

2 LIFE-OF-MINE PRODUCTION UNDERPINNED BY THREE OPEN PITS

~1Moz @ 1.4g/t Au in three open pits

- **+70% of Goldfields gold production delivered from three OP mines**
- Each pit **carries a 2–3 year mine life with extension upside**
- Site establishment commenced at Lord Byron. Mining underway January 2027

3 DEVELOPMENT ACTIVITIES ADVANCING TO SCHEDULE AND ON BUDGET

- **ALL mine sources have previously been mined and processed**
- Mill construction on schedule - **first gold targeted in JunQ'27**

Refer to Appendices 2-4 for Mineral Resource estimates and Ore Reserve statement.

1.5Mtpa Laverton Plant advancing on schedule[1]

Fixed-price EPC contract de-risks the construction phase

Laverton Processing Plant – 1.5Mtpa design render

- Conventional **1.5Mtpa CIL plant** with embedded engineering for **expansion to 2.5Mtpa during operations**
  - Expansion case provides **optionality** for future mine expansions, exploration upside and possible inorganic growth options
- Lump-sum, fixed-price EPC delivery model selected for construction of new processing infrastructure
- Preferred **gas-fired power pathway** delivers de-risked energy source in a tight diesel market
- LOM average processing cost of **A$31/t processed**[2]
- Plant design based on consolidated metallurgical parameters - **delivering LOM average recoveries of 91%**[2]

INITIAL CAPACITY

7. *September 2026 quarterly cash balance of $468m in addition to $1.98m in subsequent SPP proceeds received on 23 October 2026 and approximately $71.1m before costs from Placement Tranche 2 approved on 30 October 2026.*
8. *September 2026 quarterly cash balance of $59m followed by a $90m drawdown under the company's Project Term Loan Facility on 2 October 2026.*

Limited mid-tier producers with scale of >200koz p.a.

M&A has diminished the pipeline of emerging producers with +200koz p.a. production potential

TARGET200 puts BTR into Mid-Tier scale

- Few other junior companies have a project pipeline that rivals Brightstar
- Execution of TARGET200 strategy positions BTR alongside established mid-tier producers and could establish Brightstar as a **TOP 10 AUSTRALIAN PRODUCER**

1. *Refer to Appendix 7 for references*

Platform set for sustained growth

Advancing a multi-hub production growth - Tier-1 jurisdiction, 5.2Moz Au on granted Mining Licenses

1 GOLDFIELDS DEVELOPMENT

- Processing infrastructure construction underway. Simplified operating model
- First gold targeted JunQ'27
- LOM Free Cash Flow $1.0B[1] over 6 years

2 SANDSTONE TO DELIVER SCALE

- Additional MRE upgrade due DecQ CY26
- Pre Feasibility Study due DecQ CY26
- DFS and FID due late CY27 / early CY28
- Targeting long-life, low cost "Tier 1 status" project

3 EXPERIENCED TEAM

- Deep WA gold mine-building & operating experience
- Proven project execution capability leveraging +5 years of owner-operate inhouse capability
- GR Engineering appointed to construct Laverton plant

4 DRILL, DRILL, DRILL

- +100,000m drilling programs planned CY26 – drilling transitions from infill to **GROWTH**
- Exploration to target Resource growth and quality
- 4-6 rig drilling throughout CY27

5 CAPTURING VALUE

- Undemanding Reserve / Production comparable metrics
- Significant potential to re-rate as multi-mine developer line with producer peers
- EV/Resource ~$111/oz vs peer average ~$238/oz

6 COMMUNITY ENGAGEMENT

- Strong Native Title, local Shires, pastoralist relationships
- Advanced Native Title Agreement negotiations
- ESG strategy aligned with responsible gold production

1. *At an assumed A$6,000/oz gold price*

Nicky Martin *Finance · CPA · 20+ yrs*

Chief Financial Officer

- 7 years at Pilbara Minerals (ASX:PLS), latterly Head of Finance — through Pilgangoora financing, construction & ramp-up into the ASX50
- Deep experience across finance, accounting, offtake, hedging, tax & treasury

Daniel Jolley *Mechanical Engineer · 20+ yrs*

Project Director

- Processing plant delivery expertise, most recently Northern Star / De Grey Mining's 10Mtpa Hemi Gold Project
- Leading Laverton plant execution & Sandstone engineering; prior delivery roles with Mineral Resources & FMG

Samuel Main *Corporate Development · 12+ yrs*

Corporate Development Officer

- Expertise in financing, capital markets, organic & inorganic growth and investor relations
- 12+ years' experience across capital markets and M&A

Jonathan Gough *Geologist · 15+ yrs*

General Manager – Geology

- Proven WA gold geology executive across production, resource definition & exploration
- Ex-Exploration Manager, Musgrave Minerals — pivotal to the Cue Gold Project prior to the Ramelius takeover

Katherine Hughes *Human Resources · 15+ yrs*

Chief Human Resources Officer

- Strategic HR, industrial relations & transformation across mining, manufacturing and transport
- Leads people strategy, culture & leadership capability supporting Brightstar's growth

Brendan Bow *Environment & Approvals · 20+ yrs*

Environment & Approvals Manager

- WA mining environmental, approvals, heritage & land access professional
- Leading approvals, permitting & compliance across the Goldfields & Sandstone developments

Julie Budrey *Health & Safety · 25+ yrs*

Group Health & Safety Manager

- Proven record building safety performance & workforce culture across WA mining operations
- Ex-Group HSET Manager, Emeco Holdings; ex-Group OHS Manager, Westgold Resources

Jasmin Mackoski *Organisational Capability · 20+ yrs*

Chief Strategy & Performance Officer

- 20+ yrs governance, transformation & operational excellence across mining, resources & government
- Leads enterprise performance to scale Brightstar's operating model

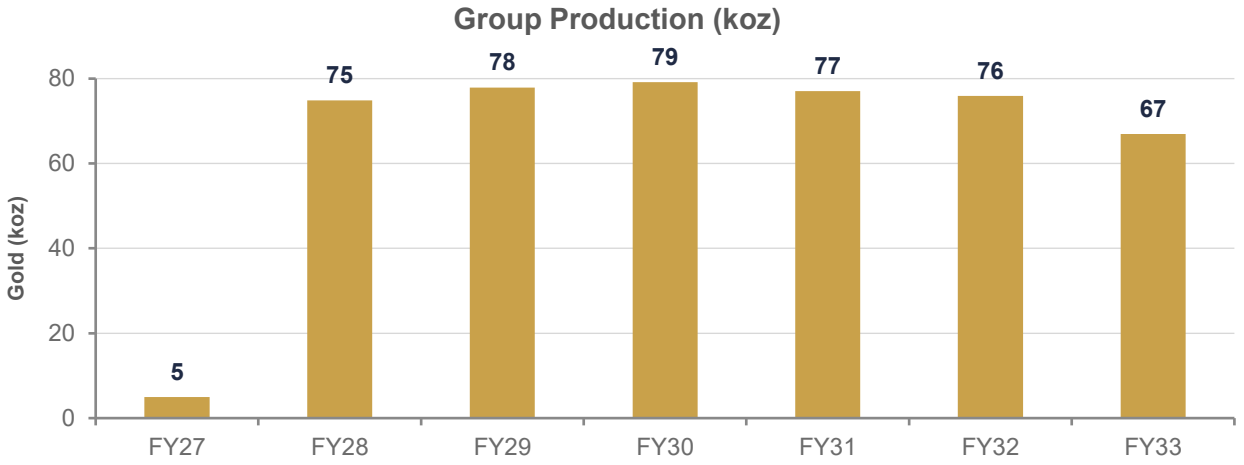

+75koz p.a. from a consolidated Laverton processing strategy[1]

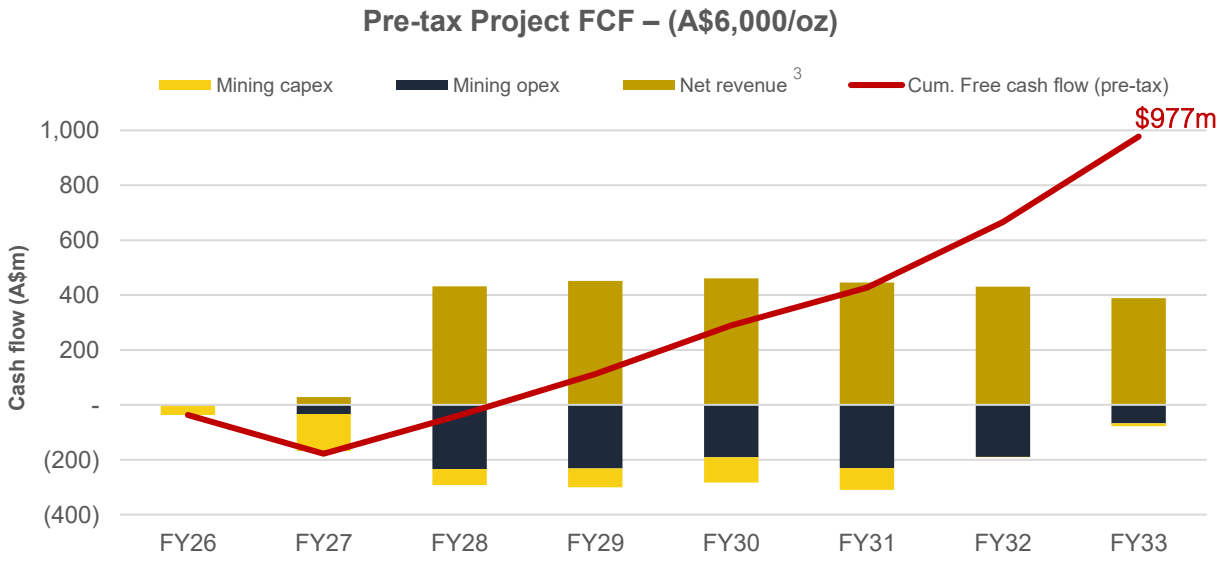

Yielding ~$1.0B of pre-tax free cash flow[2] at A$6,000/oz over a six-year mine life

Goldfields DFS 2.0	Unit	Laverton	Menzies	Total
Key Production Outcomes[2]

3. *Gross revenue less royalties. Some variances may occur due to rounding.*

Lord Byron Open Pit

LORD BYRON OPEN PIT

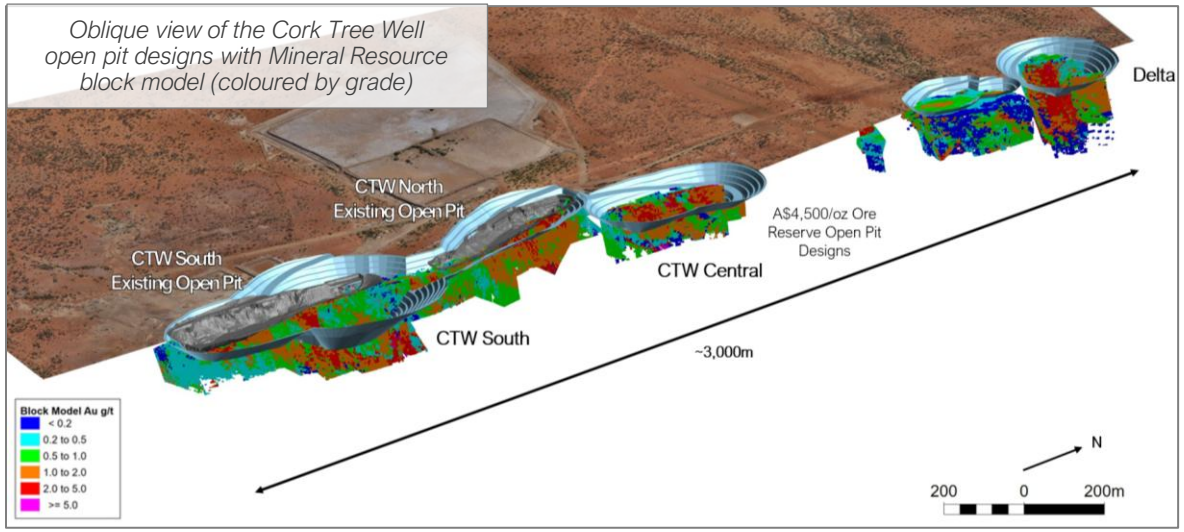

- JORC Mineral Resource of **5.4Mt @ 1.5g/t Au for 267koz Au**[1]
- **Fully approved for mining operations to commence**
- Two small historic open pits coalesce into one, large open pit mine
- **2.5 year mine life** based on current open pit mining inventory
- **Site establishment to commence DecQ'26**
- DFS processing physicals and costs[2]:
  - Mining **2.5Mt @ 1.4g/t Au for 112koz Au mined**
  - **92koz Au recovered** (82% recovery)
  - Average operating strip ratio of 8:1
  - C1 Cash Cost: **$2,491/oz**
  - **AISC Cost: $2,878/oz**[3]
- **Ore Reserves: 1.8Mt @ 1.4g/t Au for 83koz**[4]
- Located ~50km from Brightstar's processing facility along established haul routes
- **Open down dip and along strike to the South** – near term drilling focused on shallow mine life extensions to the South

Targeting commencement of mining operations and stockpiling from DecQ'26 in advance of Brightstar's processing plant commissioning

1. *Refer to Appendix 2 for Goldfields Mineral Resources.*
2. *Refer ASX announcement 'Updated Goldfields Feasibility Study" dated 29 January 2026.*
3. *Assumes A$6,000/oz.*
4. *Refer to Appendix 4 for Ore Reserve statement.*

LAVERTON MINE

Cork Tree Well Open Pit

Oblique view of the Cork Tree Well open pit designs with Mineral Resource block model (coloured by grade)

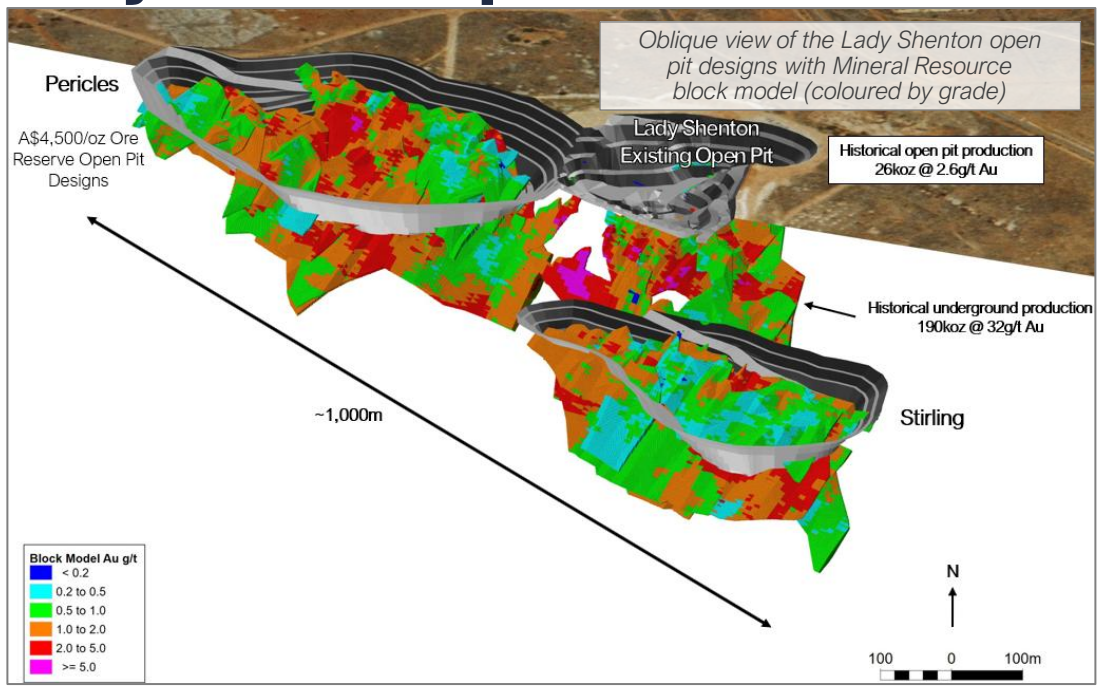

Aerial view of historic CTW open pits (looking south)

CORK TREE WELL OPEN PIT

- JORC Mineral Resource of **6.5Mt @ 1.4g/t Au for 292koz Au**[1]
- **Mining to commence 2030**
- **2.5 year mine life** based on current open pit design
- Processing physicals and costs[2]:
  - Mining 2.4Mt @ **1.5g/t Au for 114koz Au mined**
  - **108koz Au recovered** (95% recovery)
  - Average operating strip ratio of 10:1
  - C1 Cash Cost: **$2,411/oz**
  - **AISC Cost: $2,813/oz**[3]
- **Ore Reserves: 2.1Mt @ 1.5g/t Au for 104koz**[4]
- Open at depth and along strike - significant exploration upside to grow Resources on underexplored tenure
- Located ~75km from Brightstar's processing facility along established haul routes

1. *Refer to Appendix 2 for Goldfields Mineral Resources.*
2. *Refer ASX announcement 'Updated Goldfields Feasibility Study" dated 29 January 2026.*
3. *Assumes A$6,000/oz.*
4. *Refer to Appendix 4 for Ore Reserve statement.*

Lady Shenton Open Pit

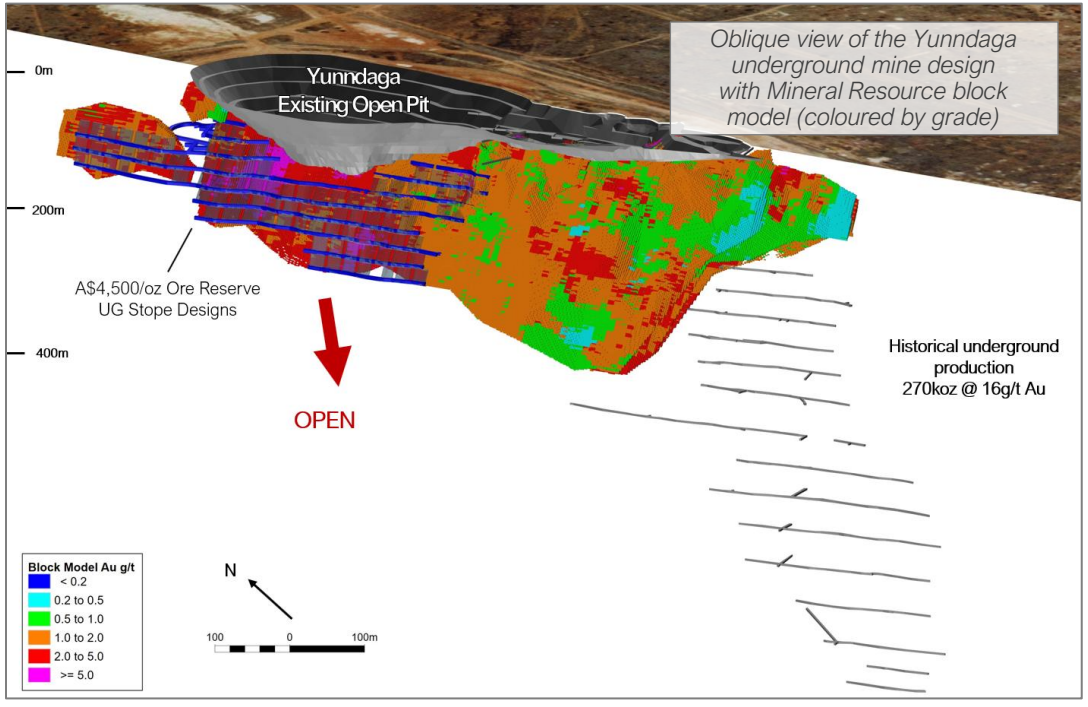

LADY SHENTON OPEN PIT

- JORC Mineral Resource of **8.1Mt @ 1.4g/t Au for 352koz Au**[1]
- **Fully approved for mining operations to commence**
- **Mining to commence 2H'CY28**
- **~3 year mine life** based on current open pit mining inventory
- On-going exploration to assess potential for underground operations following open pit mining
- Processing physicals and costs[2]:
  - Mining **2.7Mt @ 1.5g/t Au for 132koz Au mined**
  - **121koz Au recovered** (91% recovery)
  - Average operating strip ratio of 11:1
  - C1 Cash Cost: **$2,959/oz**
  - **AISC Cost: $3,516/oz**[3]
- **Ore Reserves: 2.4Mt @ 1.5g/t Au for 117koz**[4]
- Open at depth and along strike - significant exploration upside to grow Mineral Resources on underexplored tenure

1. *Refer to Appendix 2 for Goldfields Mineral Resources.*
2. *Refer ASX announcement 'Updated Goldfields Feasibility Study" dated 29 January 2026.*
3. *Assumes A$6,000/oz.*
4. *Refer to Appendix 4 for Ore Reserve statement.*

Yunndaga Underground

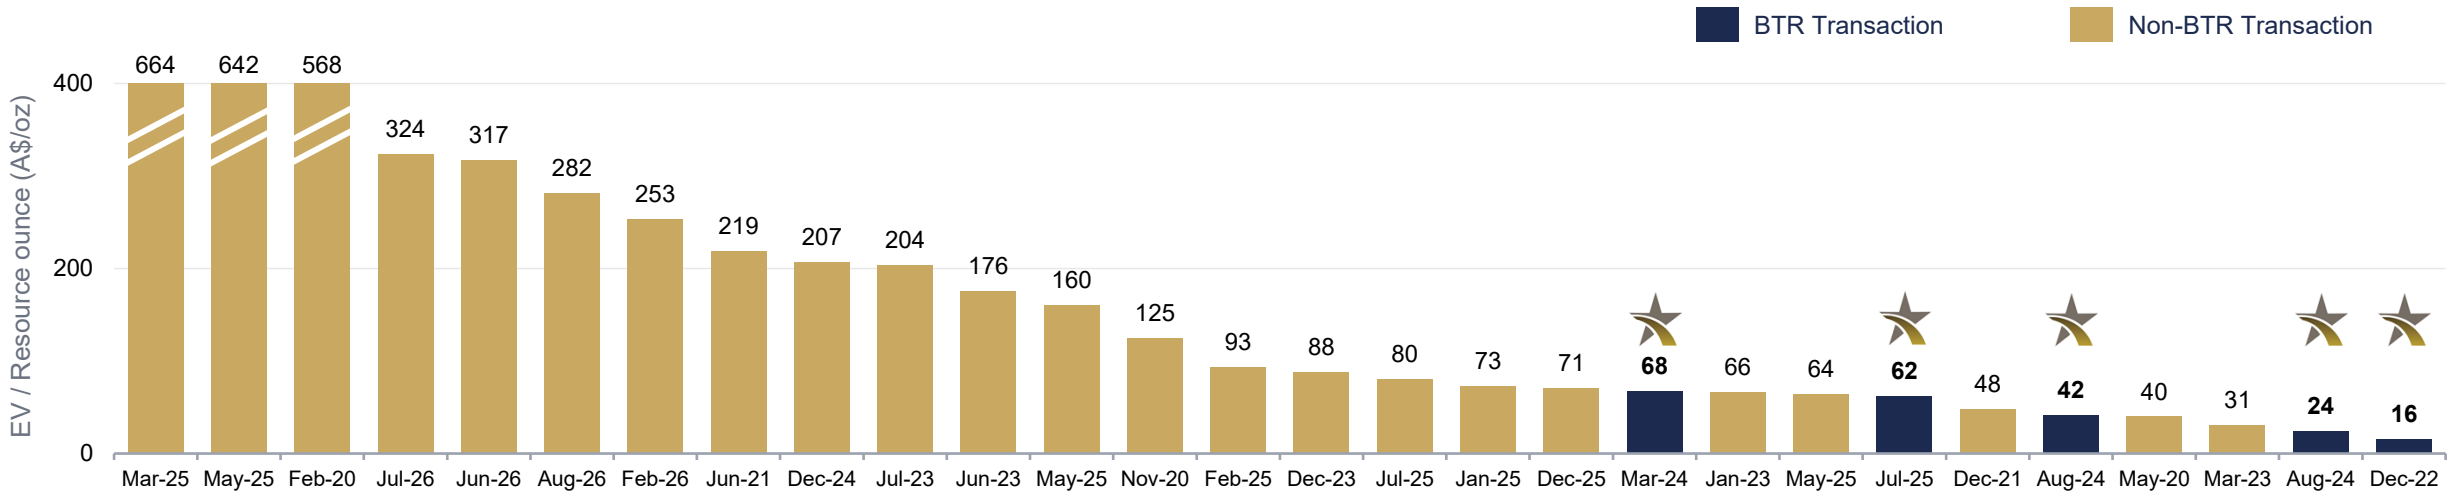

YUNNDAGA UNDERGROUND

- Set to be Brightstar's next underground mine
- JORC Mineral Resource of **3.1Mt @ 2.1g/t Au for 206koz Au**[1] (inclusive of lower grade halo)
- **Mining to commence SepQ'27**
- Significant advantage utilising existing underground equipment, infrastructure and personnel from current underground operations
- **2 year mine life** based on current underground mining plan
- Processing physicals and costs[2]:
  - Mining **0.6Mt @ 2.6g/t Au for 52koz mined**
  - **50koz Au recovered** (~92% recovery)
  - C1 Cash Cost: **$3,291/oz**
  - **AISC Cost: $3,441/oz**[3]
- **Ore Reserves: 0.5Mt @ 2.7 g/t Au for 47koz**[4]
- **Open at depth with significant scope for Mineral Resource growth and mine life extension**
- Standard WA underground open stope, retreat mining methodology utilising conventional underground mining equipment

1. *Refer to Appendix 2 for Goldfields Mineral Resources.*
2. *Refer ASX announcement 'Updated Goldfields Feasibility Study" dated 29 January 2026.*
3. *Assumes A$6,000/oz.*
4. *Refer to Appendix 4 for Ore Reserve statement.*
